BROGLE DESERTS AMERICAN WIFE

Royal Rake Accuses Actress Who Supported Him, of Infidelity.

CHARGE STOUTLY DENIED

Princess, Who Was San Francisco Divorcee, Says There Is Absolutely No Basis for Proposed Divorce Suit.

PARIS, Sept. 14.—Though accused by his wife of having lived for months off her earnings as an actress, Prince Robert de Broglie, whose matrimonial adventures were aired in France and in the United States, a few years ago, has abandoned his spouse and her child and announced his intention to bring a suit for divorce against her on the ground of adultery.

The Princess de Broglie is an American woman. Her maiden name was Estella Alexander, and she lived in San Francisco. She was the divorced wife of Sidney D. Bell when she married the Prince in Chicago in 1906. The Prince's father was opposed to this union, and he succeeded in having the Chicago marriage declared void by a French court. Following this action the Prince remarried Miss Alexander under the French law.

When the Princess was seen at her home today she was intensely indignant at what she characterized as the "cruel and cowardly act" of her husband. She said that the charge of adultery was baseless, and that it had been simply trumped up by the Prince who doubtless wanted to rid himself of his American wife for the purpose of marrying another woman or to effect a reconciliation with his family.

Continuing, the Princess declared that she had supported her husband by her earnings on the stage this summer. While at Ostead singing under the name of Manitta, she sent remittances regularly to the Prince, who was idling away his time at Chamounix and other resorts. Just before he returned to Paris she sent him a considerable sum of money.

When he returned home August 5, the Princess said she noticed coldness on his part and taxed him with it. He thereupon left the house and told her to call upon his lawyer if she wanted an explanation. This the Princess did and was told that her husband had left her forever and that he intended to bring an action for divorce on the ground of adultery. He claimed that the amount of her last remittance to Chamounix proved that she had obtained the money dishonorably.

The Princess replied that even had this money been obtained improperly which she denied, the Prince had not hesitated to accept it.

The Princess describes her position as desperate. She is besieged by creditors and has not a penny to support herself and baby. Her only hope is to secure another engagement on the stage.

UNITE TO DOWN DECEIVER

TWO WIVES OF BIGAMIST TESTIFY AGAINST HIM.

Lured From Portland to San Francisco, T. P. Collins Will Be Tried for Crime.

SAN FRANCISCO, Sept. 15.—Thomas P. Collins, a stonemason, was today held for trial in the Superior Court for bigamy at the conclusion of his preliminary examination in the Police Court before Judge Conlan. His bail was fixed at \$500. That Collins had two wives was discovered by his second wife through an advertisement inserted in an Eastern paper by the first wife.

Collins married Elizabeth Rablin in Sacramento on July 20, 1907. It is alleged that he deserted her a year later and went to Portland. His wife saw in an Eastern paper an advertisement inserted by Mrs. Christine E. Collins, of Boise, Idaho, asking for the whereabouts of Thomas P. Collins, her husband. Correspondence between the two women developed the fact that they had married the same man, that Collins had deserted his first wife and had never been divorced.

Through a ruse, Collins was prevailed upon to return from Portland and as soon as he arrived in the state was placed under arrest. Mrs. Collins, of Boise City, was brought here by the District Attor-

DRAINS OUT CRATER

Wonder Performed by Earthquake on Kilauea.

FISSURE IN FIERY PIT

In Few Hours Boiling Lava of Hawaiian Volcano Is Drained Out, but Another Shock Fills It Again.

HONOLULU, Sept. 1, via San Francisco, Sept. 15.—A slight earthquake was felt on the island of Hawaii Friday night, September 4, and at midnight the molten lava in the pit of the volcano of Kilauea suddenly ceased rising and immediately began to run out below, the surface looking like the water in a bathtub from which the plug had been pulled.

The molten lava ran rapidly away, lowering the level instantly and continuously until by Saturday morning, or in something like seven or eight hours, the 900 feet depth of lava in the pit had all run out and, except for the cooling sides of the pit, there was no fire seen or heat felt. As the lava "lowered" in the pit the walls scaled off in great masses dropping into the molten lava below them. The few who were fortunate enough to see this wonderful phenomena describe it as most awe-inspiring.

The lava in the pit, then about 900 or 1000 feet deep, began to rise nearly three years ago and had been rising gradually since, until it was within about 100 feet of the top of the pit. It is supposed that the earthquake opened some fissure below by which the lava flowed out, perhaps under the sea.

On Saturday night another slight earthquake was felt and at midnight Saturday it was observed that activity in the pit had begun again, molten lava being thrown up in fountains more than 100 feet high, and at latest accounts the lava had again risen 400 feet in the pit.

DISCREDIT SUICIDE THEORY

Witnesses Say Rustin Announced Purpose to Vote as Democrat.

OMAHA, Sept. 15.—The registration books show, and individuals testify, that Dr. Frederick T. Rustin, mysteriously shot and killed during the night of September 1, had that day registered at the primary election. As he entered the booth he conversed with City Prosecutor Herbert E. Daniels, a prominent Democrat, standing at the door.

"I want to register as a Democrat, for I am going to vote the straight Democratic ticket this Fall," said the doctor to Mr. Daniels.

Mr. Daniels and others take this action and his conduct at the polls as an indication that he did not commit suicide and did not intend to.

Money Saving Piano Buying

PIANOS AT \$186 THAT COST \$525 AT ELLERS PIANO EXCHANGE AND BARGAIN ROOM.

No Matter What You Are Offered Elsewhere, Come Here and Look Over Our Today's Offerings in Pianos to Fit Any Pocketbook.

There are pianos here that cost \$525 that you can buy for \$186, about as much as you would have to pay for most any of them in the Piano Exchange and Bargain Room is half of original price.

Now, instead of paying \$450, \$500 or \$600, which you did not wish to invest, when you find that the little use they have had did them no harm and all you have to pay is about half original cost, one can easily see why they sell so readily. It's only a question of seeing to have one sent home.

Unlike buying a horse, it does not require an expert to buy a piano at Ellers. Every instrument is repaired, if needed, carefully inspected and carries with it our unconditional refund guarantee, "your money back if not satisfactory," also our liberal exchange privilege, allowing full price paid on most purchase on any high-priced piano you may select at any time within one year.

We have no hesitancy in pronouncing these the best piano value ever given. A comparison will quickly prove above assertion to be true.
