BOARD DECIDES TO IMPROVE PLEASURE GROUND.

Parkkeper Mische's Estimate of \$126,000 for Next Year's Expenses Is Reduced \$10,000.

Preliminary plans for the beautify-ing of Columbia Park, as submitted by Parkkeeper Mische, were adopted by the Park Board at a special meeting held vesterday afternoon, at which Mayor Lane and Commissioners Lang.

The cost of the plan cannot as yet be estimated, because it will first be necessary for a detailed plan to be drafted and a survey made. It is said the plan will be worked out gradually, so that yet a second order. so that not a great outlay will be re-quired at any one time, and the park will be transformed into a beauty apot, with shrubbery, broad walks and drives, rest-houses and all that goes

drives, rest-houses and all that goes to make of a public ground a desirable place for rest and recreation.

That the amount required for next year's park work will be about \$116,000, is the opinion of the members of the Board who were present at the meeting. Mr. Mische submitted his estimate which salled for a total of \$126. mate, which called for a total of \$126, 200, but as that amount is beyond the half-mill levy authorized by the charter, it had to be pruned, and \$10. 000 was cut from the extension and improvement fund.

There are several new features in contemplation, among them new animal-houses in the City Park, for which there is an estimate of \$20,000. A new bathing-house is also provided for at a cost of \$4500, as Mr. Mische has declared the present establishment to be beyond use. It was taken over by the city this year and, by the munici-

pality, was operated in a fairly successful manner.

The most important item in the estimate as to expenses is the salary list, for which the sum of \$59,957 is specifor which the sum of \$59,967 is specified. Other items and the amounts estimated for them are: City Park 200 \$27,000, supplies \$2445, music \$4500, benches \$1500, repairs \$2000, plans \$5000, pursery \$5500, contingencies \$5000, park extension, improvement and maintenance \$10,000.

The Board voted to advertise for bids for installing heating plants in the City Park Lodge and in the house occupied by Mr. Mische. Much time was consumed by the members in a discussion of park matters in general.

### OBJECTION TO CARLINE

Peninsula Residents Oppose Franchise on Patton Avenue.

Property-owners and other citizens the neighborhood of Patton avenue ave petitioned the Mayor and City Council to refuse a franchise to the Portland Railway, Light & Power Com-cany to construct a carline on that ave-

In the petition the citizens declare hat they "deem it wise to keep car-ines off the boulevards and wide aveues, preserving them for developmen only." It is claimed that 90 per cent of the people on the Peninsula object to the franchise for the reason that it is a part of the boulevard system. Patton avenue is the main boulevard Patton avenue is the main boulevard running north and south from the Columbia River to the Williamette, and connects the Portland, the Willamette and the Columbia boulevards. Consequently it is the connecting link to all the other boulevards on the Peninsula. Nineteen years ago, it is said, the old city of Albina voted \$50,000 tax, on its property for parks and boule-vards such as now exist, except that the part of Patton avenue which lies porth of Killingsworth avenue was no

built at that time because a property-owner caused an injunction to be is-sued to stop it. Push Clubs and other organizations Misyor Lane and Commissioners Lang.
Wilson and Raffety were present. The scheme is as yet incomplete, but it is the intention to park the entire 20 acres, beginning with the east half first and gradually working over the ground until the whole is made one of the pretilest spots in Portland.

Some Cause it cause the Council to refuse the franchise on the ground that it is a part of the boulevard system and should not be disturbed until it passes.
