GOMPERS TELLS OF BOYCOTT PAPER

Hastened Issue to Anticipate Injunction by Federal Court.

SAYS HIS RIGHTS INVADED

Head of Labor Federation Makes Candid Statement at Contempt Hearing - Injunction Against Constitutional Rights.

WASHINGTON, Sept. II.—The taking of testimony in the Gompers-Mitchell-Morrison case, of the Bucks Stove & Range Company anti-boycott proceedings against these officers of the American Federation of Labor, was resumed by Examiner Harper today with President Gompers on the stand.

Mr. Dayesport was again interrogator for the prosecution, and he sought especially to develop the facts concerning the circulation of the January Issue of the Federationist, the official publication of the organization, which Mr. Gompers had stated would be expedited in order that it might come out before an injunction can become operative. Mr. Gompers said that he personally attended to the getting out of the publication, but he could not recall that an exceptionally large number had been printed. When Mr. Davenport sought to develop particular details about the proceeding, Mr. Gompers replied: Mr. Davesport was again interrogator

Saves Trouble of Prodding.

"If you'll tell me just what you want I'll frankly tell you, and thus save you the time and trouble of much prodding." Continuing, Mr. Gompers said that when he gave orders for the expediting of the mailing edition of the Federationist he was not aware that the injunction would be made operative, but, on the contrary, he was informed that the stove company would reat satisfied after obtaining Justice Jouid's opinion and would not further prosecute the matter. When the injunction did become active, he had taken the precaulion to call in the officers of the Federationist and caution them against doing anything that might be in the Federationist and caution them against doing anything that might be in violation of the court's order. This he had done because he did not want any of them to become involved in the proceeding, and he had told them to refer all doubtful matters to him. He said that after the injunction went into effect he had not done anything to head off the copies that had been placed in the mails or sold to the news companies.

Mr. Davenport asked Mr. Gompers to state his purpose in sending out the January issue after the injunction was granted.

Got Ahead of Injunction. "Was it," he asked, "to anticipate the

operation of the decree which otherwise would have prevented you from issuing

Mr. Gompers replied that he had not been sure whether Mr. Van Cleave would file his bond and thus make the decree operative, but in any event," he went on, "I wanted to issue the January number just as it had been prepared prior to December 25."

"With the name of the Buck Stove & Range Company on the unfair list?" Mr. Davenport suggested.

Mr. Gompers replied in the affirmative.

"Was not your motive to be found in

the apprehension that the injunction would be carried into effect?"
"I had no motive in particular. There was no injunction in existence to prevent

my getting the issue out."
"What was the occasion for the hurry?"
"I wanted to get the issue out before
the injunction decree became operative." That is a question I ought not to be spelled to answer."

Mr. Davenport insisted, and Mr. Gompers replied:
"I wanted to get the issue out so we could continue the 'we don't patronise list' without interruption."
"Without interruption by whom?"
"Without interruption by any one," Mr.

Gompers replied.
"Did you not mean that you wanted to avoid the interruption of the court?"
"The answer includes all," said Mr. Gompers. "There was danger of interruption by the Buck Company."

Invades Constitutional Right.

At tonight's session, Mr. Davenport asked Mr. Gompers if it was his contention in this particular case that he had the constitutional right to publish in the Federation's official argan anything he saw fit carrying out an alleged combination to boycott the Buck Stove & Range Company and that it was beyond the power of the court to prevent such publication.

"Our contention," replied Mr. Gompers,
"was that any such injunction was an
infringement and an invasion of the constitutional right of free speech and a free

STOCKS DECLINE SHARPLY

Harriman, Hill and Other Active Railroads Most Affected.

NEW YORK, Sept. 17.—Violent declines in prices occurred on the stock exchange this afternoon, the recessions amounting

to from 2 to 5 points in the active lasues. There was a good deal of disorder in the unloading of stocks, and the selling at times appeared to be urgent. Explanations of the selling and lower prices were varied. One report was that the situation came about because "noultied scare," resulting of a "political scare," resulting from recent interviews with prominent financiers who expressed disatisfaction from the Wall street views inent financiers who expressed dissatisfaction from the Wall street viewpoint with the political outlook in the
West. Other explanations of the break
were the extent to which the speculation
has recently run and the seasonable turn
in the currency movement out of New
York bank reserves and into interior
channels of trade. Rumors were in circulation also of possible reductions in dividends of railroad companies owing to
shrinkage in earnings in the face of recent large expansion in the share capital.
The Harriman Pacifics, the Hill group
and Reading were most acutely affected,
as they have been the medium of largest
operations in the speculation.

Tomerrow you leave Australia, after experiences that, I trust, have been as pleasurable to you as to the people of the commonwealth. The officers and men of your leet have been welcomed everywhere sarmly and sincerely. We have learned to know you and we are under obligations to president Rosesvelt and the American Government for the honor of the visit. Although your stay with us has been short, we rejoice in this fortunate opportunity to effect the cordial relations existing beween two progressive and related peoples. We cherish the same traditions and ideals as do you. It is the ardent hope of our ititiess that the friendship between the Striish Empire and the American Republic may be strengthened and with us in Australia many new and personal ties have been stabilized which we trust will endure and

He visited many normal schools and investigated in detail their theory and practice.

restigated in detail their theory and practice.

Before going to Harvard, he taught some years in the public schools of Illinois, beginning in a country school and finishing in a city superintendency. After leaving Teachers' College, he became head of the department of education and director of the training school at the State Normal School, at San Diego, Cal. Here he established the department of education and developed it to a high state of efficiency.

At San Diego he resigned to accept the presidency of the State Normal school, at Cheney, Wash., a position to which he was recommended by Dean James E. Russell of Teachers' College. He remained at Cheney five years, during which time the attendance, the number in the faculty and the number of buildings were doubled. The amount

Suspect Foul Play.

HILLSBORO, Or., Sept. 17.— (Special.)—Advices from Everett, Wash, state that Charles W. Ellsworth, aged 31 years, has disappeared from that place and has been missing since last Thursday evening. Ellsworth and wife were living at Getchell, Wash, ten miles from Everett Thursday to rent a house, taking with him about \$150. He was seen at a real estate office about 6:20 in the evening, September 10, and was to return the next morning, but has not been seen since.

Ellsworth was married in April, 1937, to Miss Minnie Bower, daughter of Mr. and Mrs. F. H. Bower, of Scholis, this county, and the couple have one child. Foul play is suspected, as there was no trouble whatever between Ellsworth and his wife.
