

NEW YORK GIVES BOYAN OVATION

Huge Overflow Crowd Blocks Entrance to Carnegie Hall.

RECEIVES MANY VISITORS

Discusses Republican Tendencies, Which He Says Are Towards Imperialism and Socialism and Selection of Successors.

CARNEGIE HALL, NEW YORK, Sept. 18.—Democracy's Presidential campaign in Greater New York had its advent tonight when William J. Bryan, at a mass meeting under the auspices of Tammany Hall, spoke before enthusiastic thousands who filled Carnegie Hall and overflowed into the streets. The ovation accorded the candidate was a brilliant climax to a day in which a united party gave Mr. Bryan a continuous reception.

Mr. Bryan spoke for more than an hour on "Republican Tendencies" at Carnegie Hall. On his arrival here today Mr. Bryan spoke at a noonday meeting and during the afternoon held constant levees at his hotel, where Democratic leaders in the city and state called upon him.

Previous to the Carnegie Hall meeting tonight Mr. Bryan was entertained at dinner at the home of Melbert E. Carey. On approaching Carnegie Hall a little later, Mr. Bryan was given an ovation by a crowd of 10,000 persons who could not get in the hall. The candidate was taken to a flag-draped cart and from there he made a brief speech. He was cheered repeatedly. Mr. Bryan then left the cart and went into Carnegie Hall.

Ovation as in Old Times.

When Secretary Smith, of Tammany Hall, called the mass meeting to order, every seat was filled. Chairman Herman Ridder spoke on tariff reform.

When Mr. Bryan and his party stepped from an entrance upon the stage a Bryan demonstration like those of eight and twelve years ago followed. Men leaped to their chairs and yelled and shouted while the band played lively tunes. Chairman Ridder's voice was lost as he briefly introduced the Democratic candidate.

When quiet was restored after a ten-minute outburst of enthusiasm, Mr. Bryan began his speech on "Republican Tendencies." He spoke as follows:

Parties are to be measured not merely by the things actually done, but by their tendencies. Since it is easier to remedy evils in the beginning than after they are full grown, it is important to know how far they have gone. It is important to call attention to some of the tendencies of the Republican party.

Take, for example, the matter of extravagance in expenditures. The tendency of the Republican party is to increase the expenditures of the government. It is important to call attention to some of the tendencies of the Republican party.

Explained by Imperialism.

The appropriations of the last session exceeded the appropriations of the preceding year by \$90,000,000—an increase of almost 10 per cent. showing that in matters of appropriations the Republican party is hurrying on at an accelerated pace. The increase in the number of office-holders is likewise enormous. The appropriations in the Army and Navy alone show an increase of \$120,000,000 a year over the appropriations of 11 years ago. What explanation is given for the tripling of the appropriations for Army and Navy? No national emergency is cited. No national emergency is cited. No national emergency is cited.

Succession to Presidency.

The present campaign presents another tendency of the Republican party. It is to substitute succession for the Democratic plan of popular selection. The President felt it his duty to select a Republican successor, and having reached the conclusion that he sought to select such a successor, he brought the influence of his great office to bear in behalf of the candidate of his own choice, and is now using his influence to secure the election of the candidate whom he assisted in nominating. If Mr. Roosevelt can pick out the Republican candidate this year and then use the prestige of his office and the influence of the army of office-holders to elect him, may not Mr. Taft pick out his successor and elect him, and so on from administration to administration?

Republicans Foster Socialism.

The third Republican tendency to which I call your attention is the tendency toward Socialism. The Republican party is constantly feeding and augmenting the Socialist spirit. Its latest National Platform boldly declares that reasonable property should be guaranteed to the protected industries. It defends the principle of monopoly on the theory that competition is harmful. In taking this position it supports the main contention of the Socialists. Mr. Taft, the Republican candidate, has made a speech announcing his candidacy, advocated such amendments to the constitution as would make it apply only to unreasonable restraint of trade. This idea that reasonable restraint of trade is unconstitutional is the entering wedge—it is the first step toward the annihilation of the principle of competition.

Democrats Argue With Socialists.

The Democratic party has been called a Socialist party. I contend that the Republican party is the Socialist party. It is evidenced from the fact that Socialists leaders prefer Republican success to Democratic success. They fear the Democratic reforms will restore Socialism, and they believe that Republican abuses can be used to arouse opposition to the entire competitive system. The Democratic party works with the Socialists, while the Republican party denounces him; the Democratic party denounces him; the Democratic party denounces him.

Talk to Travelers.

So large a crowd filled Broadway, intent on seeing Mr. Bryan when he arrived at the rooms of the Commercial

Travelers' League at noon. that the police had difficulty in forcing a way for the candidate's automobile through the demonstrative throng.

Steel Trust Supporting Taft.

On his arrival Mr. Bryan was besieged with questions about his charge that the Steel Trust was supporting the Republican party. In reply to the question:

"Does your charge that the Republican party is protecting the Steel Trust extend to the Chief Executive?" he replied:

"I stated what everybody knows—that the Steel Trust has not been prosecuted and no prominent Republican has said anything against it. I have said that the Steel Trust is supporting the Republican ticket and that the Republican National Committee will not dare to publish before election the contributions they will receive from the officials of the Steel Trust. Mr. Sheldon virtually admits this to be true in an interview in the New York Herald. He is the treasurer of the Republican National Committee, and as I understand it, a director of constituent corporations of the Steel Trust. He is quoted as saying:

"If members of the executive committee or an officer of the United States Steel Corporation wishes to support the Republican party, has he not the same rights as any other individual?"

Mr. Bryan spent the night at the home of Melbert Carey and will leave tomorrow for New Haven and Providence.

LUARD SEEKS AWFUL DEATH

ENGLISH ARMY MAN THROWS HIMSELF UNDER TRAIN.

Driven to Desperation by Anonymous Letters Accusing Him of Murdering His Wife.

WATERINSBURY, England, Sept. 18.—Major-General Charles Edward Luard, retired, whose wife was mysteriously murdered in London, August 24, committed suicide today by throwing himself in front of a railroad train. His body was found later close to a railroad crossing not far from Waterinsbury.

General Luard had been a guest of Colonel Charles Edward Ward, M. P., at Teston. He left the house early this morning and, going directly to the railroad, threw himself in front of an incoming train. Colonel Ward found a letter from General Luard, saying his body would be found under the train. He explained that such awful accusations had been made against him that he could no longer stand the strain. The general had received letters accusing him of having murdered his wife. Mrs. Luard was shot near Seven Oaks on the afternoon of August 24, a few moments after her husband had left her to go to a nearby club on an errand. When he returned he found her dead.

The tragic death of the general, who was the last person to see his wife alive and the first to find her body, has revived interest in this murder, which the police authorities thus far have been unable to unravel. The inquiry, which is to be resumed next week, has not revealed the slightest clue to the murderer. All the witnesses agree that Mrs. Luard had not an enemy in the world, while the facts dispute the theory of robbery, because Mrs. Luard's purse and rings, which were taken from her body, were of little value. An expert testified that it was impossible for the bullets which caused death to have been fired from any of the revolvers owned by General Luard.

The text of General Luard's letter to Colonel Ward is as follows:

"You will find my body at the Teston Crossing. I am sick of the scandalous and lying reports, and I cannot face my son, whom I expected to meet today, and I have decided to end my life."

General Luard's son, who is an army officer, is expected to arrive at Southampton today from the Transvaal.

STEAMER AEON WRECKED

(Continued From First Page.)

The Aeon, who will be landed in Sydney by the Manuka.

Meanwhile the survivors have plenty of food and water and there is shelter for the women in the houses of a working camp of some pearl fishermen employed by a British company.

From the day the Aeon left San Francisco nothing had been heard of her until the dispatch telling of the safety of the passengers on Christmas Island. This island is located near the equator, about 1000 miles south of Honolulu and 8500 miles southwest of the Aeon. It is a small island, northeast of Apia and it is supposed that the vessel was disabled in her machinery and drifted or in some other manner, managed to make the island in safety. Fanning Island is just south of Christmas Island and both are British possessions.

Christmas Island has only a few inhabitants, is off the track of even wind-jammers, and is one of the world's most isolated spots.

In addition to the officers and crew of the Aeon are carried Charles E. R. Patrick, U. S. N., and family, and the wife of Naval Lieutenant W. K. Riddle.

The vessel was placed on the overdu board at 25 per cent reinsurance and after remaining at the figure for a time, jumped to 40 and later to 50 per cent.

CAPTAIN IN OTHER WRECKS

Master of Aeon Has Had Life of Thrilling Experiences.

VICTORIA, B. C., Sept. 18.—Mrs. H. C. Brewster, sister of Captain Downie, of the steamer Aeon, has received a cablegram from him, stating he has arrived at Fanning Island, leaving the crew and passengers safe on Christmas Island. No mention is made of the steamer in the message received by her.

Captain Downie, who is commodore of the Howard Smith Company, owners of the Aeon, has had many experiences and has been previously wrecked. When his uncle's ship, Turkish Empire, was wrecked off the Newfoundland Coast 20 years ago, he was one of nine men saved after 48 hours on wreckage. His uncle, Captain West and others, were drowned.

During the Russo-Japanese War he ran the Aeon over an extensive mine field into Yokohama naval station.

Loss Juror in Ruff Case.

SAN FRANCISCO, Sept. 18.—Progress backward was made today in the empanelment of a jury to try Abraham Ruff on the charge of bribery. Julius Baumgartner, who was temporarily passed Thursday, was excused on account of his wife's ill health and no one was secured to take his place. The jury box now contains eight who have been accepted subject to peremptory challenge.

Today and Monday positively the last days for discount on East Side gas bills. Don't fail to read Gas Times.

RUSSIA ISSUES URGED

YOUNG WOMEN

Cholera Spreads Fast in Garrisons of Capital.

NEW CASES BY HUNDREDS

Total of Deaths Increases Daily and Soldiers Fill New Hospital.

Disease Dying Out at Manila.

ST. PETERSBURG, Sept. 18.—The Asiatic cholera has taken a strong hold in the garrisons of St. Petersburg and over 400 soldiers have been stricken. In the 24 hours ending at noon today there were 355 new cases of cholera and 138 deaths from cholera in the capital.

The military authorities today made known for the first time the condition among the troops. The disease is spreading so rapidly that a second large hospital is to be opened immediately. There are today 531 patients in hospitals. Since the beginning of the epidemic there have been a total of 1061 cases, of which 37 recovered.

In view of the rapid spread of the epidemic and the danger to children, the municipality has decided to close the primary schools of the city and to convert the school buildings into hospitals. From noon today until midnight 471 new cholera cases were reported in this city.

DISEASE DYING IN MANILA

Disinfectants Sprinkled Over City With Chemical Engines.

WASHINGTON, Sept. 18.—A net decrease of six in the number of cases of cholera in Manila is reported today by Governor-General Smith of the Philippines.

The cablegram says the conditions today are more favorable. The report adds:

"This little outbreak was due entirely to infection from the provinces and the concealment of the cases by relatives and friends. This enabled the cholera to get a hold before the health department had any knowledge of the state of affairs. A large corps of inspectors and disinfectors has been employed and the fire department and chemical engines are now being used for disinfecting purposes. This, together with the vigilance exercised by the police, will soon put this little outbreak under complete control."

SEVEN VICTIMS IN ODESSA

Despite Precautions, Cholera Invades Cities on Black Sea.

ODESSA, Sept. 18.—Despite the strict preventive measures that have been taken, the cholera, which is now raging throughout Russia, finally has invaded this, the most important port of the Black Sea.

Seven persons have died from the disease and 18 are in the cholera hospitals. A majority of the surrounding cities are suffering seriously from cholera.

Storm Washing Away Cholera.

MANILA, Sept. 18.—In the 24 hours ending 8 o'clock this morning (Saturday), 25 new cases of cholera and six deaths have been reported. The epidemic continues to recede.

A great storm is now drenching Manila and it is believed that this will greatly assist in cleaning the city. A typhoon is raging off the coast.

Cholera Deaths in Amoy.

AMOY, China, Sept. 18.—The native cholera hospitals report a total of 13 deaths from cholera for the ten days ending Thursday. The total of deaths from all cases in Amoy Thursday was 17.

IGNORE PEOPLE'S CHOICE

One Nevada County Pledges Members to Newlands for Senator.

SAN FRANCISCO, Sept. 18.—(Special)—Because of their admiration for United States Senator Newlands, so they say, the Democrats of Churchill County in convention yesterday refused to endorse the party's state platform and ignored the request that the people be allowed to express their choice for United States Senator at the coming election. Instead they pledged their legislative nominees to vote first, last and all the time for Mr. Newlands.

This splits the agreement entered into between Mr. Newlands and F. L. Flammigan of the Republican party to submit their candidacy to a vote of the people and abide by the result. Lem Allen, legislative nominee, is one of the legislative nominees. He arrived here today to consult party leaders and stated that under no consideration would he vote for any one but Mr. Newlands because of the latter's work in carrying through the reclamation project in Churchill County.

Mr. Newlands is endeavoring to have the nominees sign an agreement pledging themselves to abide by the public choice as expressed at the polls in November.

GOOD THINGS IN PORTLAND MARKETS

BY LILLIAN SINGLE

THE fruit section is certainly the most attractive part of the market at this season, no matter whether you regard it from a gastronomic or from a purely aesthetic point of view. For variety of flavor and of service, and for beauty and glow of form and color, the fruits of September and October must be given the first place, and that without dissipation to the wonderful berries and cherries that are now only jaded memories, or to a passing a comfortable well-preserved middle age in sedate rows of glass cans.

Prunes, both Italian and Hungarian, are coming in just now, and are cheap and plentiful as well as beautiful and wholesome. The average price is about 5 cents a pound, with some reduction on taking a quantity. Don't forget the many possibilities of this fruit for preserving. Whether simply canned, or as jam, jelly, "butter," "almack" preserve, or sweet pickles, it is always satisfactory. A friend of mine, with an abundant backyard crop, is putting up some prune juice for winter use in fruit punch and desserts of various kinds at 5 cents a pound. There are also the egg plums and some nice prunes. Peaches cost from 8

YOUNG WOMEN

Young women are often great sufferers for want of proper advice at just the right time.

Mrs. Pinkham, at Lynn, Mass., has always issued to young girls a special invitation to write to her about their sickness. She is a mother, and fully understands.

In nine chances out of ten your case will be just the same as those of the young ladies whose letters follow.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND is what you need to restore health.

Miss Abby F. Barrows, of Nelsonville, Ohio, writes to Mrs. Pinkham:

"When I wrote to you I was very nervous, had dull headaches, backache, and was very irregular. Doctors did me no good. Lydia E. Pinkham's Vegetable Compound and your advice made me regular, well and strong. I am now in better health than ever before."

Miss Elsie L. Hook, of Chelsea, Vt., writes to Mrs. Pinkham:

"I am only sixteen years old, but Lydia E. Pinkham's Vegetable Compound and your advice have cured me of sideache, periodic pains, and a nervous, irritable condition after everything else had failed."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

to 75 cents a box and pears about 75 to 85 cents. Sickly pears and the large, hard Winter pears are now to be had for preserving. Citrus melons are coming in and cost 3 cents a pound.

I saw some fine strawberries, "Taft strawberries," the vendor called them, and the name was not inappropriate, at 20 cents a box. Blackberries are practically over and are higher in price than last week, costing usually 25 cents for little boxes. Watermelons, too, have wanted both in quality and popularity; but there are plenty of good cantaloupes from 5 to 25 cents each. Huckleberries are 12 1/2 cents a pound. Crabapples are 5 cents a pound, but are getting rather too ripe for firm jelly, though still fairly good for pickles.

New hazelnuts are in and cost 20 cents a quart. There are also new dried figs, both in bulk, at 10 cents a pound, or in packages at 15 cents. Pineapples are very good just now, and quite large ones can be had for 25 to 35 cents. Among the grapes, Oregon Concord are coming in at 35 cents a box. Tokay, Malaga and the Thompson seedless grapes are all about 45 to 50 cents a box. There were a few green figs at 50 cents a dozen and nectarines 10 cents a dozen. Apples are becoming daily better and more plentiful while corn (20 cents a dozen) and peas (three pounds for 25 cents) are just about over. There are good beans, green, wax, asparagus, and shell beans, all about 5 or 7 cents a pound. Tomatoes I am told are "about as cheap as they will be." From 25 to 40 cents a box seemed the general price. "Cherry" and "egg" tomatoes for preserving, are 25 cents a basket.

Green peppers are just now at their best, and cost only 10 cents a pound. There are several available varieties of squash, including some that I mistake for English vegetable marrow. They were really "cucumber squash," and cost 5 cents a pound. Eggplant is good and costs 10 cents a pound.

There is a good variety of fish at present and of course oysters have come into the market. Now there is "an in the month." Olympia oysters are 30

cents a quart or 40 cents a dozen, to order. There is good striped bass in now at 20 to 25 cents and black bass at 30 cents. Baby salmon and sturgeon cost 20 cents; California sole, catfish, tom cods and shrimps, 15 cents; halibut, 20 cents; black cod, salmon, 12 1/2 cents, and flounder and perch 10 cents. Poultry prices are about the same as last week, but ducks and geese are quite scarce and turkeys are small and rather uninteresting as yet.
