OFFERS BY HORST

Eight Cents Bid for Choice Hops.

KLABER'S BUY CONFIRMED

English Trade Conditions as Reported by London Dealers—Improved Tone of Local Wheat Market—Fruits Are Weak.

The rumor that Klaber, Wolf & Netter had paid 8 cents for hops was confirmed yesterday. The lot that brought this price was that of E. Elwert, of Sherwood, and comprised about 90 bales. It was also reported that Clem Horst's agents were offering 8 cents at Aurora and Butteville, which would put the market for choice goods safely on the 8-cent basis. Purchases by Horst at 7 to 7½ cents in these sections were reported yesterday.

McNeff Brothers bought 175 bales at Aurora at 7 cents and the J. W. Seavey Company secured 200 bales around 7¼ cents in the Monitor, Silverton and Sherwood sections. There were no local reports as to what was being done by the Salem trade.

Circular letters of the English hop trade, bearing dates of September 21 to 23 follow:

Cattley, Gridley & Co., London—The market is well supplied with samples of the new crop, but general demand has not yet commenced. Quality shown is somewhat various, with a scarcity of fine bright hops from any district. Quotations are rather nominal for all except the best. The present currency means further great loss to producers, and preparations are already being made in many districts to grub up another considerable area. Foreign markets are quiet, and quality of the early samples does not show such as at one time promised.

Wild, Neame & Co., London—Our market still lacks animation. Buyers are confining their attention to bright samples which are commanding full current rates, but other grades are almost entirely neglected.

Manger & Henley, London—There is a demand for the choice and best qualities and higher figures are made for these, but the hops showing any wind are neglected for the present.

W. H. & H. Le May, London—There is a good supply of the new crop on the market today. The real choice colory samples command attention and are being taken at full rates, but the medium and low qualities hang fire.

Exchange and Hop Warehouses, London—There is a fair demand upon the market for the best quality hops, and several long lots have been sold during the week, lower qualities being practically neglected. Reports show that many plantations that were damaged through storms will not be picked.

J. H. Meredith & Co., Worcester—Picking is now rapidly drawing to a conclusion in this district and at the annual fair on Saturday there was a large supply of the new growth on offer in bulk and by sample. Owing to the recent inclement weather and consequent curing difficulties the quality varied considerably, causing a wide range in values. Choice samples were in most request and realized up to about 70s per cwt., while useful well managed Fuggles, Bramlings and Mathons (which were not plentiful) met a fair demand at about 45s to 50s per cwt. Inferior mismanaged lots were difficult to dispose of, although growers were willing to accept correspondingly low prices.

FLOUR ACTIVE, EXPORT TRADE QUIET

Australia Offering Wheat in Europe Below Pacific Coast Prices.

The local flour market is firm at the recent advance, with business fairly active. The export flour trade is of moderate proportions, a few small orders being received.

There is a stronger tone in the local wheat as a result of the advances in the East and Europe, which are caused by the war talk. The export situation, however, does not justify an advance, as South Australia is offering cargoes in Europe 6d below Pacific Coast wheat and this has a tendency to check the demand. The competition from that source is not expected to last long.

One thousand tons of forty-fold wheat were offered at the Board of Trade for November delivery at 93 cents f. o. b. ship. Club futures were unchanged from the previous day, 90 cents being bid for October and November and 90½ cents for December. Oats and barley were steady at Thursday's prices.

The range of futures was as follows:

CAR OF PEACHES FROM IDAHO.

Market Is Overloaded and Weak—Grapes Are Lower.

The peach market was overloaded yesterday. Among the receipts was a straight car of Salways from Clarkston, Idaho. The demand for peaches at this time is slow and the market weak. Quotations yesterday ranged from 40 to 75 cents.

Grapes were plentiful and lower. On the best California Tokays $1.10 was realized and from that the price ranged down to 90 cents. California Malagas sold at $1 and Muscats at 85c@$1. Oregon Tokays were quoted at 75@90c, Muscats at 65@75c and Black Prince at 50@60c. Concords were not quite so abundant as the day before and were firmer at 17½c per basket.

Among the receipts on the street was a shipment of black cherries, which were offered at $1.50 per box. Strawberries continue to come in from near-by points and move around 25 cents. Two cars of bananas arrived yesterday.

SLUMP IN POULTRY CONTINUES.

Slashing of Prices Fails to Keep Down Accumulation.

It has been a long time since the poultry market was in as bad shape as it is now. Receipts all this week have been heavier than the demand justified and the constant shading of prices has failed to keep down the accumulation. Hens and Springs were offered as low as 11 cents yesterday without buyers.

Oregon eggs were very firm, with most sales of fresh ranch stock at 34@35 cents. A car of Eastern eggs was sold at the Board of Trade for 25 cents.

There were no new features in the butter and cheese markets.

PANIC IN LONDON

But New York Stocks Less Affected by War Rumors.

GOLD EXPORTS PROBABLE

Recovery in Prices Due to the Strength of Rock Island and the Harrimans, Following Announcement of Note Plan.

NEW YORK, Oct. 9.—The war cloud over Eastern Europe was the principal topic of consideration and influence in the market today, although the center of the disturbance in the securities market shifted somewhat. The effect in New York was modified to some extent by counter factors. Yesterday's heavy selling here of American securities seemed to be but the passing along of orders received from continental sources, and the English capital was comparatively little disturbed, so far as its own money markets and securities were concerned.

Today's doings in the London market were described in private cablegrams received in Wall street as almost panicky. Foreign exchanges all turned strongly in favor of London, the movement being most marked here, but notably also at Berlin and Paris. The price of British consols was down a full point one time during the day, and other Government securities in London were acutely depressed.

The tone of the sterling exchange market was called demoralized; so much so that bankers were disinclined to undertake any drawings in view of the seeming imminence of gold outgo. The bareness of this supply of bills was responsible, as well as the strength of the demand, for the disorderly movement of exchange. Demand sterling rose at one time 50 points over the close yesterday and remittances by cable were about as much affected.

The recovery was helped by the strength of Rock Island and the Harriman issues, which was due to the significance attached to the announcement of the provision for the $7,700,000 St. Louis & San Francisco notes, maturing on December 1. A favorable effect on sentiment was to be expected from this relief from threatened embarrassment of an extended railroad system, especially with the assurance implied that next year's heavy note obligation of the same system, amounting to over $22,000,000, would be similarly taken care of in due course. Good prospect for a permanent refunding of this indebtedness was inferred from this development, but the speculative element rushed to far wider inferences from the fact that the provision for these notes was announced by the bankers who finance all the important Harriman financing and not by the firm closest to the Rock Island management. A new direction for Mr. Harriman's supposed complex projects was thus indicated to the speculative conjecture. This accounted for the prominence of Union Pacific, Erie, Missouri Pacific and such properties as Mr. Harriman has been credited with designing for his helpful ministrations.

As the money market remained tranquil no attention was paid to the estimates of a cash outgo for the week of over $3,000,000. Not only in the stock market, but also in foreign exchange, in British consols and in wheat there was reaction from the day's most violent excitement. Final prices of stocks, in fact, show little change from those of the day before.

Bonds were weak. Total sales, par value, $5,546,000. United States bonds were unchanged on call.

GRAPE PRICES SLASHED

SEATTLE MARKET BURIED UNDER EXCESSIVE SUPPLY.

California Fruit Sells at 25 Cents. Egg Consumption Curtailed by High Prices.

SEATTLE, Wash., Oct. 9.—(Special.)—Under the heaviest supply of grapes ever known in this market, prices went off today in the effort to effect some kind of a cleanup. Steamer grapes from California sold as low as 25 cents and the very fanciest stock did not command more than 75 cents. Some fancy Eastern Washington and Oregon grapes were held for better prices, but the supply was not large.

Twelve cars of potatoes arrived today, and coming on the overstocked condition of the market, had anything but a beneficial effect. Yakima shippers are trying to dispose of surplus stock in this market, but so far local dealers have not encouraged Eastern growers to consign their stock here.

Eggs were steadier today. Most houses are trying to prevent the market from soaring, as they realize that material injury has already been done. The demand for eggs has been curtailed. The top today was 45 cents.

The best live broilers the market affords sold today as low as 15 cents.

Veal was barely steady. Eleven cents represents about the top price.

WHEAT PIT EXCITED

Boisterous Trading in the Chicago Market.

SALES OF LARGE VOLUME

Urgent Demand for Flour and Cash Grain Prevents Any Sign of Weakness in Spite of the Unloading.

CHICAGO, Oct. 9.—The wheat market opened excited and strong, with prices ⅛@⅜c higher than the previous close. The unsettled political situation in Europe had aroused intense political enthusiasm among local wheat traders and the demand for that cereal at the opening was extremely active. Within the first few minutes the December delivery had advanced to $1.01⅞, and the May option to $1.04⅝, after opening at $1.01 to $1.01¼ and $1.03⅝ to $1.04⅜, respectively. Higher prices for wheat at Liverpool added to the fears of a possible European war. At the same time, the market was bullishly affected by the continued drouth in the American Southwest and in other sections of the Winter wheat belt. During the first hour, trading was of a boisterous character, but at the end of that time a lull came in the buying and with enormous sales, prices gradually eased off until they were below the opening quotations. The market, however, exhibited no signs of weakness, being buoyed up by the urgent demand for flour and cash wheat in the Northwest. Trade during the last hour was comparatively quiet and the market closed firm with December at $1.00⅞@1.01 and May at $1.03⅞.

Trade in corn was rather limited in volume. During the first half of the session, a firm tone prevailed, owing to the strength of wheat. Several of the local longs were fair buyers and this caused moderate covering by shorts. Following the decline in wheat, the corn market became easy. The close was at the lowest point of the day.

Oats were firm early in the day, but weakened during the last half hour and closed at the lowest point. Cash oats in the sample table section closed steady after ranging ½c higher early in the day. The market was influenced by wheat and corn.

Provisions were steady at the start, but eased off owing to the weakness of corn, and to selling by a local packer. At the close, prices were a shade to 12½c lower.

IDLE MEN RESUME WORK

MANY FACTORIES AND MILLS AGAIN IN OPERATION.

Others Waiting Until After the Election—Iron and Steel Production Increasing.

NEW YORK, Oct. 9.—Dun's Review of Trade tomorrow will say:

Substantial progress toward industrial recovery was made during the past week by a large number of wage earners resuming work in mills and factories that had been wholly or partially idle for many months. Yet resumption is by no means uniform, many undertakings being deferred until after the election, and low water is still the cause of short time at many plants.

Contracts for finished steel are restricted to current needs, but a large tonnage is under negotiation. New projects are deferred until after election, when much business will be placed.

IMPROVEMENT IS STEADY.

Heavy Marketing of Crops Causes Better Collections.

NEW YORK, Oct. 9.—Bradstreet's tomorrow will say:

Although trade reports are somewhat irregular in character, owing largely to varying weather conditions in different sections of the country and caused by impending elections, the general undertone is toward sustained improvement. Country trade has been comparatively quiet, because the farmers have been taking advantage of the ideal weather to complete their harvesting. However, the heavy marketing of crops has made for an increased railway tonnage and improved collections, while exports of wheat are heavy.

Iron and steel are quiet, impending elections being a deterrent influence, but production is increasing in anticipation of forthcoming good business and there is more doing in other industrial lines. There is less industrial idleness, and in some instances business is developing for the first quarter of 1909, especially in shoes, lumber and pig iron.

The pig iron production for September exceeded that of August by 4.2 per cent and it was the heaviest total since November last, while it represents an increase of 35 per cent over January, 1908. However, the decrease from September, 1907, reaches 35 per cent.

Business failures in the United States for the week ending October 8 number 258, against 225 last week, 192 in the like week of 1907, 192 in 1906, 183 in 1905 and 190 in 1904. Business failures in Canada for the week number 31, against 36 last week and 24 in this week in 1907.

Wheat, including flour, shipments from the United States and Canada for the week ending October 8 aggregated 5,652,652 bushels, against 6,473,525 last week and 5,295,292 this week last year. For the 15 weeks ending October 8 this year exports were 57,764,789 bushels, against 58,745,814 in the corresponding period last year.

Bank Clearings.

NEW YORK, Oct. 9.—Bradstreet's bank clearings report for the week ending October 8 shows an aggregate of $2,749,220,-000, as against $2,492,675,000 last week, and $2,722,983,000 in the corresponding week last year. The following is a list of the cities:

CURES ECZEMA QUICKLY

New Drug, Poslam, Now Obtainable in Small Quantities.

Since its discovery one year ago the new drug poslam, has successfully cured thousands of chronic cases of eczema and other distressing skin afflictions. Heretofore poslam has been dispensed solely for the benefit of eczema patients in large jars sufficient for a month's treatment. This was found to be an inconvenience to many thousands who use it for minor skin troubles, such as pimples, blackheads, herpes, acne, scaly scalp, complexion blemishes, itching feet, piles, etc., which require but a small quantity to cure. To overcome this, and in response to urgent appeals, the dispensers of poslam have been obliged to adopt, in addition to the regular two-dollar package, a special fifty-cent size, which in future may be found on sale at the Skidmore Drug Co., and other leading drug stores, in Portland, or may be ordered direct from the Emergency Laboratories, No. 32 West 25th Street, New York City. In all eczema cases poslam stops itching with first application, and proceeds to heal immediately; chronic cases being cured in two weeks. In less serious skin troubles, results are seen after an overnight application.

Samples for experimental purposes may still be had, free of charge, by writing to the laboratories for them.
