

ALBER RICKMERS BEGINS LOADING

Longshoremen Will Stand by Contract and Will Not Go on Sympathetic Strike.

LINERS' UNION, IS BEATEN

Climax in Waterfront Situation is Reached When Men Are Ordered to Report for Duty on German Ship—Notes of the Harbor.

Longshoremen have practically agreed to stand by the signed contract recently entered into between members of the union and the stevedoring firms, and all ships in Portland harbor will be loaded and discharged regardless of labor troubles which affect the liners. The longshoremen held a meeting last night and it was decided that the German ship Alber Rickmers should be loaded on time. The Rickmers was one of the vessels which was placed under the ban by the decision of the old liners' union.

Ship agents and masters have been worried considerably during the past three days by the action of the Ship Liners' Union. Members of the latter organization decreed that vessels should be worked unless only members of that union should be employed. A foreman for Anderson & Crowe secured the franchise for the establishment of a similar union and the action in the matter brought on the trouble.

CHANGE FIRE CHIEFS

Campbell and Stevens Are Accused by R. Andrews.

BOARD WILL INVESTIGATE

Said to Harass Accuser in Endeavor to Furnish Department With Supplies—Mayor Lane Gives Board Free Rein.

That Fire Chief Campbell and Battalion Chief Stevens, the latter in particular, are endeavoring to harass him in his contract to supply the department with feed and bedding is the charge made by Mayor Lane and the fire committee of the City Executive Board yesterday afternoon by R. Andrews, of the firm of Andrews & Son. He was present by order of the committee, for a communication from Chief Stevens had been filed in which he declared that Andrews had not lived up to his agreements with the city in furnishing the supplies necessary to the operation of the service. Further investigation of the matter will be made at a special meeting of the committee, consisting of John Montag, P. E. Sturtevant and Isaac Sweet, to be held next Thursday afternoon at 4 o'clock.

Charges Against Officers.

The most sweeping allegation made by Andrews is that Battalion Chief Stevens, who has been designated by the committee to pass upon feed for the fire department, rejected a carload of straw that was on an East Side switch, but later accepted the identical load, after it had been transferred by wagon from the car to a storeroom. Andrews also declared that Chief Campbell once remarked he would not think Andrews would bid on city contracts, as he was a general contractor. This is denied by Chief Campbell, as is also the statement that Battalion Chief Stevens accepted straw he previously had rejected.

Mayor Aids Investigation.

Mayor Lane is giving free rein to the investigation, and it is apparent that there is to be an opportunity for witnesses against the two fire officers to have their full say. It will be recalled that Mayor Lane and Isaac Sweet, as well as Thomas G. Greene, of the Executive Board, recently tried in vain to blame for trouble over the hydrants at the door of Chief Campbell.

This latest case seems to fit in nicely with the apparent effort on the part of the Mayor, Sweet and Greene to make trouble for Chief Campbell.

The contention of Andrews is that Chief Campbell and Battalion Chief Stevens are harassing him in the manner described, "because they are either incompetent to judge the quality of feed and straw, or for some other reasons unknown," as he explained it, in answer to a query by Sweet. The latter asked Andrews what reason could be assigned for the alleged misconduct of Chief Stevens. Chief Campbell and Battalion Chief Stevens declare that Andrews tried to

WOMEN FIND WAY TO EVADE CELLARS ORDINANCE.

Cannot Go Into Liquor Store to Purchase Bottled Goods, but Get Them Outside.

A woman is barred by the Cellars ordinance from stepping into a family liquor shop and purchasing a flask of whiskey, a bottle of wine or other wet goods. There is no law, however, which prevents her from telephoning her order in, and this is just what large numbers of women are doing to avoid the drastic provisions of the ordinance. A woman can also stand on the sidewalk in front of a family liquor store and take bottled liquor from the hands of the clerk or she can insist upon her constitutional right and demand that the proprietor sell her what liquor she wants, "not to be drunk on the premises," and some such instances as this have been recorded since the law went into effect.

WOMEN FIND WAY TO EVADE CELLARS ORDINANCE.

Cannot Go Into Liquor Store to Purchase Bottled Goods, but Get Them Outside.

All efforts of the City Council to amend the Cellars ordinance so as to make some of the alleged special privileges, which treat all alike having failed, the family liquor stores, it was announced yesterday, will refrain from selling to women in person, but will supply all orders by special delivery received by telephone or otherwise. The telephone has sprung into great popularity as a medium between family liquor shops and women patrons within the past few days, and in some of the establishments it requires one man more of the time to receive and care for orders over the instrument.

Whiskey to die. What wonder is it that doctors of all schools prescribe and use Duffy's Pure Malt Whiskey as the great tonic-stimulant, blood-purifier and body-builder!

Duffy's Pure Malt Whiskey

is an absolute pure distillation of malted grain. It is the most effective tonic stimulant and invigorator known to science; softened by warmth and moisture its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It cures nervousness, typhoid, malaria, every form of stomach trouble, diseases of the throat and lungs, and all run down and weakened conditions of the body, brain and nerves. It is prescribed by doctors and is recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It's the only absolutely pure medicinal whiskey made by the only large distillery in the world. In a bulk, Price \$1.00. Look for the trademark, the "Old Chemist" on the label, and make sure the seal over the cork is unbroken. Write Consul-Druggists, Duffy's Pure Malt Whiskey, 3, 3, for a free copy of illustrated medical booklet and free advice.

"I joined the Fire Department of South Boston in 1890 and was lately pensioned off because of a bad fall while in service, which telescoped my spine. A little over a year ago I was taken sick while in the engine-house, and it developed into heart trouble and malaria. I went to a number of doctors and two different hospitals and went through a course of treatment from each, but I did not receive much benefit from any of them. The doctors would not let me go in swimming, nor smoke, nor drink anything but water. I stopped both tea and coffee. My case was getting very serious when a friend said to me: "Why don't you get a bottle of Duffy's Malt Whiskey? I know a man who was given up for all time and he took Duffy's Malt Whiskey and today he is as well a man as you can find." So I commenced taking Duffy's Pure Malt Whiskey and the result is that the doctors now say that I am all right, and I never felt better in my life. Of course, I am very little good as far as heavy work is concerned, owing to my injury, but I am well, and that is a good thing to be able to say. I thank you for the remedy that put me on my feet again."—J. H. RILEY, 866 East Sixth Street, South Boston, Mass.

Mr. Riley's experience is similar to that of thousands of others who have suffered untold agonies from different diseases and were cured by Duffy's Pure Malt Whiskey after they were given up to die. What wonder is it that doctors of all schools prescribe and use Duffy's Pure Malt Whiskey as the great tonic-stimulant, blood-purifier and body-builder!

PORTLAND, Oct. 15.—(To the Editor.)—The law which denies to the suicide burial in consecrated ground should also be applied to those who murder their mothers, rob their wives and children of their protection by lives of dissipation. YOU NEED GOOD ADVICE

and it is better to get it in the beginning than in the end—action after it is too late is like rain after harvest. Keep your youth as long as possible. There is no time to grow old. A good marksman is not known by his bullets but by his aim, and a good doctor should not be known so much by his claims as by the results he is able to show. The best that a doctor's pocket does not always lay the most eggs. Think these points over.

WHEN LOOKING FOR A DOCTOR

Frequently an office is advertised in the "first person" when no such doctor lives in the state. If deception is attempted on this point look for it clear down the line. If you are not physically sound you ought to be, and it is better to do your duty in this respect than to wish it done.

We have the largest and most complete offices and equipment in the state, have been longer established, and furnish best bank and personal references. We treat people just as we would want them to treat us under similar circumstances and handle their cases on terms to best suit their convenience. A patient desiring treatment can pay cash and get discount or in payments to suit circumstances, and as the benefit is plainly apparent or, if desired,

CAN PAY WHEN CURED

Our entire time and practice are devoted to the cure of BLOOD POISON, VARICOCELE, STRICTURE, LOST VITALITY, HYDROCELE, PILES, FISTULA, DISEASES OF THE KIDNEYS, BLADDER, PROSTATE GLAND, CONTRACTED DISORDERS, WEAKNESS AND ALL DISEASES COMMON TO MEN.

MEN CURED

No other physician employs a like method, and although it is my work that there need not be the slightest fear of a relapse into the old condition. It is not a question of whether you can be cured, but whether you will be cured. Don't wait until it is too late. My method is perfect and quick. The cure is absolutely certain. You need not be detained from your work for one day. I especially solicit those cases where many so-called treatments have failed—where money has been wasted on electric belts and other appliances. Functional derangement is neither a "weakness" nor a disease. It is a symptom of prostatic disorder. To stimulate activity by the use of powerful tonics is an easy matter, but such results are merely temporary drug effects. Most doctors treat weakness in this manner because they do not know how to cure the real cause of the derangement. I am the only physician employing scientific and successful methods. My treatment is a local one entirely and corrects every abnormal condition of that vital center, the prostate gland. My cures are real cures and are permanent.
