

TURKEY REJECTS POWERS' TERMS

Young Turk Leaders Say Acceptance Would Arouse Storm.

BLOW AT CONSTITUTION

Concessions Proposed Would Be Deadly Blow—Britain, France and Russia Propose to Recognize Accomplished Facts.

PARIS, Oct. 15.—In a published interview Djemal Bey and Dr. Nasom, delegates of the Young Turks, said in behalf of the organization that the programme as designed by the powers for the settlement of the Balkan situation would never be accepted, and that it dealt a deadly blow both at the prestige of constitutional Turkey and the integrity of the Ottoman Empire.

The Young Turks party, they said, declares its belief in advance that it would be unable to oppose the storm of reprobation the programme will arouse in Turkey or to answer for the peace of the country, as it hitherto has done.

THREE POWERS ARE AGREED

Britain, France and Russia Adopt Terms of Conference.

LONDON, Oct. 15.—Great Britain, Russia and France have reached an agreement on a programme to be submitted to the other powers as a basis for discussion of the proposed armistice conference, to settle the Balkan question. The proposals to be laid before the conference are eight in number.

GO BACK TO YEAR 1872

GOVERNMENT REVEALS GUNPOWDER TRUST'S PAST.

Attempt to Prove at Trial That Illegal Combination of Manufacturers Has Long Existed.

NEW YORK, Oct. 15.—Further testimony, through which it was sought to establish the existence of an illegal combination of gunpowder manufacturers, was introduced today at a hearing before Special United States Commissioner Maheffel in the suit instituted by the Federal Department of Justice, against the so-called powder trust. This action, directed against the E. I. Dupont Nemours Powder Company, and 71 other defendants, charges them with securing control of practically all the powder mills of the country and conducting them as one great concern in defiance of the Sherman anti-trust law.

NEGRO RESCUED FROM MOB

SLASHES CAR CONDUCTOR AND IS HUNTED DOWN.

Fellow-Passengers Capture Slasher and Call for Rope, When Constable Saves Him.

LOS ANGELES, Oct. 15.—Mob violence was narrowly averted after exciting scenes in the eastern city limit this afternoon, when J. C. Garner, conductor on the Pacific Electric Railroad Company, was badly cut by an unknown negro with a razor.

FINES MISSING WITNESS

Judge Burnett Assesses Man \$10 for Non-Appearance at Trial.

READY TO GIVE COMPENSATION

Bulgaria Denies Rumor of Ultimatum—Expects American Help.

PARIS, Oct. 15.—M. Stancloff, the diplomatic agent of Bulgaria in Paris, is in receipt of official advices from Sofia which deny the alarmist rumors current here yesterday of Bulgaria's purpose, Bulgaria has no intention of sending an ultimatum to Turkey or of ordering further mobilization of her forces. On the contrary, the outlook for a peaceful adjustment with Turkey and the powers is now regarded in Sofia as practically assured through the international conference.

HIGH FINANCE BY MORSE

Mr. Stimson said that Mr. Morse was a member of a pool manipulating the stock of the American Ice Company and that, when the members reached the end of their resources, they went to the National Bank of North America, of which Morse was vice-president, procuring \$1,200,000 of the bank's money to continue their speculation. To conceal this alleged unlawful transaction, Mr. Stimson said, fictitious loans were entered on the books. He charged also that false reports were made to the Controller of the Currency to show that loans made by the bank, with the ice stock as collateral at fictitious prices were resources.

BULGARIA AFFRONTS POWERS

All Foreigners to Be Subject to Local Courts.

SOPIA, Oct. 16.—A disagreeable impression has been produced in diplomatic circles here by a circular note issued today from the Bulgarian Ministry of Justice, which orders that in the future the sub-

jects of foreign powers in Bulgaria shall be treated on the same basis as natives; in other words, they are no longer to enjoy the intermediary of their Consuls. The circular sets forth that the declaration of Bulgarian independence on October 13 has annulled the so-called capitulations which exempted foreigners from the jurisdiction of the local courts. The diplomatic representative of one of the great powers today described this circular as a "high-handed action," which the powers would vigorously oppose.

BULGARIA MUST KEEP QUIET

Turkey Threatens to Fight if Hostile Attitude Continues.

CONSTANTINOPLE, Oct. 15.—Disturbed by news of the Bulgarian military activity, the Porte has instructed the Turkish representatives abroad to call the attention of the powers to this matter and to state also that Turkey will decline to take the responsibility should Bulgaria persist in her present attitude of hostility.

SAILORS ORDERED TO SHIPS

British Naval Activity Causes Excitement in London.

LONDON, Oct. 15.—All the men of the home fleet absent from their ships on liberty have been suddenly recalled. Inasmuch as the reason for this has not yet been ascertained, the order has caused considerable excitement.

GOVERNMENT REVEALS GUNPOWDER TRUST'S PAST.

Attempt to Prove at Trial That Illegal Combination of Manufacturers Has Long Existed.

NEW YORK, Oct. 15.—Further testimony, through which it was sought to establish the existence of an illegal combination of gunpowder manufacturers, was introduced today at a hearing before Special United States Commissioner Maheffel in the suit instituted by the Federal Department of Justice, against the so-called powder trust. This action, directed against the E. I. Dupont Nemours Powder Company, and 71 other defendants, charges them with securing control of practically all the powder mills of the country and conducting them as one great concern in defiance of the Sherman anti-trust law.

The greater part of the time at today's hearing was taken up in placing on the record the "Compendium of rules" and the fundamental agreement which governed the old Gunpowder Trade Association. These documents were produced by Alexander I. Dupont, secretary of the Dupont Company.

By the presentation of these documents the Government is endeavoring to establish the existence of a combination of powder manufacturers from 1872 to 1902, known as the Gunpowder Trade Association.

Attorneys for the Dupont Powder Company made no objection to the admission of this line of testimony because of their claim that such association or trade agreement existed to exist with the year 1862 when the present Dupont company was organized and purchased the powder mills now owned by the company.

The men rescued from the Busley are Dr. Niemeyer and Hans Fiedeman. They landed at Edinburgh this morning and immediately started for home by way of London. The point where they were picked up is 10 miles from Heligoland.

Although the news of the rescue of the two balloonists from the Busley was heartily welcomed, the most serious apprehensions are felt for the safety of the other two balloons.

It is now three full days since these balloons have been heard from. The exhaustive observations indicate that they

GERMAN BALLOON FALLS INTO SEA

Two Aeronauts Take Desperate Chance When Blown Away From Land.

FALL NEAR PASSING SHIP

Crew of Busley Dragged Through Waves for Half Hour Before Thrilling Rescue—Two Racers Still Missing.

NO NEWS OF MISSING BALLOON. LONDON, Oct. 15.—There is still no news of the missing German balloon. A traveler has picked up in the North Sea the derelict balloon St. Louis.

BERLIN, Oct. 15.—The German balloon Busley came down Tuesday morning at 11 o'clock in the North Sea, and two men on board were rescued by a passing steamer.

This news was received in a telegram from Edinburgh and caused the great relief, for there was great anxiety regarding the fate of this airship. The Busley is one of the 23 balloons that started in the race for the international trophy last Sunday from a suburb of Berlin, and now every one of the contestants has been accounted for.

There are still, however, two balloons missing. These are the Franke and the Hergelt, which started on Monday in the endurance race.

The two German aeronauts had a thrilling experience and a narrow escape, but they are today none the worse for their adventures.

Thrilling Rescue Made. A second telegram received here gives details of their flight and rescue. After the start from Berlin, the balloon drifted toward Southern Russia, and was then driven to the northwest. The men saw they were passing over Cuxhaven. Finding they were being carried too far to the north they decided to descend, and early Tuesday morning, at a point about ten miles from Heligoland they dropped the balloon into the sea. This was after they had sighted the steamer Prinz Wilhelm and signalled to her.

The steamer passed the balloon for some distance until she was close to it. Then she launched a small boat. The men, with the pilots on top of it and the car dragging below was driven rapidly over the water. The two men were in the water for half an hour before they were finally dragged to safety into the small boat.

Traveled 435 Miles.

It is estimated that they traveled 435 miles before they came down. Although no award has been made officially, the English balloon, Banishie, which came down at the end of Denmark, is regarded as the winner of the international cup contest. The French balloon, Condor, is second and the Belgian balloon, Belgica, third.

The aeronauts were half naked and utterly exhausted. They were taken to the steamer, where they received every attention and were given food and restorative.

The men rescued from the Busley are Dr. Niemeyer and Hans Fiedeman. They landed at Edinburgh this morning and immediately started for home by way of London. The point where they were picked up is 10 miles from Heligoland.

Although the news of the rescue of the two balloonists from the Busley was heartily welcomed, the most serious apprehensions are felt for the safety of the other two balloons.

It is now three full days since these balloons have been heard from. The exhaustive observations indicate that they
