HITCHCOCK SURE NEW YORK IS SAFE

Confident Taft Will Win Solid North, With Maryland Added.

BELIEVES MONTANA SAFE

Herrick Says Ohio Factions Have Buried Hatchet and Are United. Poll of Labor Shows State for Taft.

NEW YORK, Oct. 21.—On the eve of his last campaign visit to Chicago, where he will remain two days, Chairman Hitchcock of the Republican National Committee expressed himself more confidently than at any time since he assumed the management of the Republican campaign. He declared today that New York was absolutely safe for the National and state tickets and added that he was confident that California, Oregon and Washington would give large Republican pluralities.

He was satisfied also, he said, with conditions in Colorado, Nebraska and Kansas and he thought Montana was safely Republican, though he did not look for any overwhelming pluralities in that state.

As to Missouri, Kentucky and Maryland, he regarded the last state as surely Republican and in the other two he thought there was a fighting chance.

Vice-Presidential candidate James S. Sherman made a hurried call at National headquarters here today. He said the poll of the state, which would be made public the last of this week, would show that a sweeping Republican victory in New York state could not be stopped.

Mr. Hitchcock leaves for Chicago tomorrow afternoon.

OHIO TRUE TO REPUBLICANS

Herrick Quotes Poll of Labor—Factional Quarrels Subside.

NEW YORK, Oct. 21.—Ex-Governor Myron T. Herrick of Ohio came to Republican headquarters today and made the following statement:

"The best evidence that Ohio will remain true to the Republican faith is found in the attitude of the labor element of that state. A few days ago two polls were taken in the railroad shops at Cleveland, which resulted as follows: Taft, 1744; Bryan, 510; doubtful, 491.

"The Republicans of Ohio have concluded to put aside their local quarrels and vote for Taft and Sherman. The labor people, particularly, feel that in voting for Taft they are voting to continue McKinley's ideas, which brought them out of the depths.

"Senator Foraker, while not actively engaged in the campaign, is too patriotic to want to see Bryan elected. The strong tide for Taft set in from the day he began speaking in Ohio. Another thing which has strengthened the faith of the Republicans in Ohio was the appearance there of Governor Hughes."

GLOWING REPORT FROM WEST

Dixon Tells Roosevelt Only Colorado and Nevada Doubtful.

WASHINGTON, Oct. 21.—President Roosevelt today held a long conference with Senator Dixon, of Montana, chairman of the Republican speaker's bureau at Chicago. Mr. Dixon gave a glowingly optimistic report of the campaign in the West and told him Mr. Taft would carry that section with the possible exceptions of Colorado and Nevada.

Mr. Dixon left tonight for Montana.

MURDER STILL MYSTERIOUS

FOUL CRIME IN CHICAGO BECOMES MORE PUZZLING.

Alleged Slayer of Mrs. Thompson Is Cleared by Another Who Used Fictitious Name.

CHICAGO, Oct. 21.—Charles McCormick Clawater and not Luman C. Mann, was the "J. P. Raymond" alleged to have strangled to death Mrs. Frances Gilmore Thompson. This statement was made under oath on the witness stand today by Clawater in the habeas corpus proceedings brought by Mr. Mann. Clawater, while admitting that he was the man who made use of the name of "Raymond," when he accompanied Mrs. Thompson to her room several days before her lifeless body was found, denied all knowledge of the crime. The woman was alive and well the last time he saw her, the witness said. Mann was indicted recently charged with the murder of Mrs. Thompson.

Clawater said he was a newspaper writer and that he had worked for the Milwaukee Free Press and the Philadelphia North American. For three months, he said, he had been assistant superintendent of the Auburn Gold Mining Company, of Mystic, S. D. He declared that he was married and that his home was at Lockhaven, Pa.

Witness said on the day he met Mrs. Thompson he had become intoxicated and went with her to the room wherein she was later found dead. B[illegible]

BY ARTHUR A. GREENE.

A GOOD repeater is "The Time, the Place and the Girl," all three of which by design met up together at the Heilig last night. Now in its third season and its second Coast tour, the Askin-Singer show is still lively as a cricket. In fact liveliness is the distinctive quality of the piece, which is no great shakes as a thought incubator.

It is just a gingly, singful, girly Chicago show but it serves capitally well in driving dull care out into the paper snow. Mere individual griefs take to the tall and ungrafted when Johnny Young comes along anyhow so it doesn't matter much about anything but him and the catchy little elementary songs and the pretty femmes de theater who, even if their voices are something frail, look well enough to be truly good.

Young is most of the show and has gained rather than lost in his ability as a comedian since the days when he was with Pauline Hall in "Dorcas" and other things including Portland. Later Young returned as principal comedian with an opera company of unremembered name and played a season at Cordray's. After all these years he is on the job as big as life. His methods are more legitimate than Frank Daniels and not so refined as Francis Wilson, so there you are. He belongs to a fortunately large class of talented funmakers who are not yet in the genius class. His "Happy Johnny" Hicks, the likable gambler, is a distinct creation.

Elizabeth Goodall plays Molly, the trained nurse, as she did last season and is one of the brightest items in the ensemble. She's a decidedly good and natural actress.

Then there is a dream of loveliness who answers to the name of Mabel Melvine. Whoever told her she could sing had bad information but she's pretty enough to rave over and she dances like a sylph, if you know how that is.

Little Lillian Goldsmith, "The Girl," is dainty and so no more of Lillian. The familiar song hits, they're too numerous to mention, individually, all "go" with customary vim.

Same show till Saturday with a matinee that day.

MORE STANDARD LETTERS

HEARST PROMISES BEST OF SERIES ON SATURDAY.

Has No Letters From Aldrich, Saying He Is One of Head Men of Standard.

INDIANAPOLIS, Oct. 21.—Additional Standard Oil letters of more importance than any thus far read are to be made public at the Independence party meeting in New York Saturday night, according to a statement by W. R. Hearst in an interview here tonight. He declared they are better than any thus far given publicity and that he had saved them for the finish of the campaign.

Mr. Hearst denied a story recently published that he had letters from Mr. Archbold to Senators Aldrich and Penrose.

"The fact is," said Mr. Hearst, "that I have no letters from Senator Aldrich—not one. I have a letter written by Senator Penrose to Archbold in which he speaks about an appointment with Senator Aldrich, but this is the only letter I have in which Aldrich's name is mentioned.

"It is not strange that I have no letters from Archbold to Aldrich or from Aldrich to Archbold. There was no necessity for their writing to each other. Aldrich, as I understand it, is one of the head men of the Standard Oil Company and not a mere underling. That would account for the absence of letters."

WANTS BETTER STREETS

Improvement Club Also Raps Engineer Modjeski's Report.

The Multnomah Improvement Club is determined to continue its efforts for better pavements. R. B. Metcalf, president, N. D. Buetgen, secretary, M. J. Murnaine and others reported at a meeting last night that Mr. Huber, of the Golden Gate Cement Company, had called on them and intimated very strongly that they might find themselves up against a libel suit for declaring Golden Gate cement is not a first-class article.

Forty-five separate shocks are shown in the seismograph records for the past 12 hours, and of the total number of shocks recorded since the disturbances began, the report extending over a period of 36 hours, two are classified as "strong," nine as "perceptible" and the rest as "microseismic."

Telegraphic reports from various sections of the island show that the disturbances were most strongly felt on the east coast of Luzon, but no damage is reported. Experts express the belief that the focus of the whole disturbance is located in the Pacific Ocean, close to the coast of Luzon.

Railroad Blocks Street.

VANCOUVER, Wash., Oct. 21.—(Special.)—The question as to what kind of an overhead crossing the North Bank Road will build at Washington and Second streets is in controversy just now between the City Council and the railway. H. C. Stevens, bridge engineer of the Northern Pacific, Attorney James B. Kerr and Division Engineer Taylor have been here conferring with the Council. The original franchise granted the railway permitted it to block the street to a considerable extent.

Printers Are for Taft.

Employes of the Irwin-Hodson Company yesterday took a straw vote on President, resulting in more than a three-to-one vote for Taft. The vote included the choice of the printers and the lithographers and the result explodes the report that the printers of the city are a unit in supporting the Nebraskan. The result of the straw ballot was as follows: Taft, 36; Bryan, 11; Debs, 2; scattering, 2.

SAME METHODS AS OIL OCTOPUS

Powder Combine Squeezed Out All Competition by Cutting Prices.

ENTIRE TRADE IN GRASP

Unscrupulous Means Employed by Monopoly Exposed During Hearing of Federal Suit—Got Control, Then Boosted Rates.

NEW YORK, Oct. 21.—That a 50 per cent monopoly of the power trade in the United States has been obtained by methods such as cutting prices to about a dollar in certain states, while a price of $6.75 was maintained elsewhere, was the substance of testimony against the powder trust at a further hearing of the case here today. The litigation is a Federal suit for alleged violation of the Sherman anti-trust law.

R. S. Waddell, of Peoria, Ill., was the only witness today. For many years Mr. Waddell was a general sales agent of the combined powder companies and he subsequently became an independent manufacturer. It was he who filed the petition on which the suit was brought. At the opening, James Scarlett, who appears for the Government, said that he would present the history of the combine between 1882 and 1892 and produce evidence to show that a conspiracy among the powder companies existed at the time the petition for the suit was filed.

Control Nearly Entire Output.

Mr. Waddell testified that in 1882 the association was composed of the E. I. DuPont Powder Company, Hazard Powder Company, Laflin & Rand Powder Company, Oriental Powder Company, American Powder Mills, Miami Powder Company and the Austrian Powder Company. In that year the organization was changed to a pool, when two other companies, the King Powder Company and the Ohio Powder Company, were taken in. They did not join until a bitter rate-cutting warfare had occurred.

The witness said the pool controlled between 95 and 98 per cent of the trade in rifle and sporting powder and 90 per cent of the trade in blasting powder.

When the witness was asked how the association operated, he said:

Fix Arbitrary Prices.

"The officers of the several companies would meet from time to time and establish or change the prices at which the product was sold. The prices agreed on were communicated to the other companies and they in turn notified their agents."

The King Powder Company and the Ohio Powder Company sold out to the combine, the witness said, after a futile struggle, in which prices were cut to as low as $2.10 in the contested district, while maintained at $6.75 elsewhere.

"As soon as these companies joined the pool," said the witness, "I got my orders to increase prices in the contested district at first to $5 and later to the full rate."

Force Terms on Agents.

Mr. Waddell then said that the combine had "put the screws" on the agents in the different parts of the country, and later began to break prices and reduce commissions, forcing them to sign contracts in accordance with the wishes of the pool.

In 1889 a governing body was formed which became known as the "Board of Trade." Among the members of this body were:

Henry A. Dupont, J. A. Haskell, R. V. Wheeler, G. M. Peters, Arthur Williams, R. T. Coleman and A. O. Fay.

Got Railroad Rebates.

Between 1889 and 1906 there were several Independent companies formed, including the Chattanooga Powder Company. Almost as soon as the Chattanooga Company's product was put on the market, the witness said, the pool "started after them and there was no quarter given."

"It was a short and vicious fight," added Mr. Waddell. "We sold powder at cost and below. The fight ended with the general roundup of the independents about July, 1896."

"Who helped you in the fight?" asked Mr. Scarlett.

"The liberal rates on freight which the railroads were giving at this time helped us. We got rebates off the Hoosac Tunnel line and other roads I do not now recall."

The hearing adjourned until tomorrow.

RIDICULES BRYAN POLICIES

SENATOR FULTON ADDRESSES HOOD RIVER AUDIENCE.

J. L. Carter and S. G. Tate Also Speak—Big Taft and Sherman Club Rally.

HOOD RIVER, Or., Oct. 21.—(Special.)—To an audience that packed the opera-house here tonight, Senator Charles W. Fulton spoke on the leading issues of the campaign. The occasion was a big Republican rally, held by the Hood River Taft and Sherman Club. The speakers that preceded Mr. Fulton were J. L. Carter, Republican member of the State Legislature from this district, and S. G. Tate. Mr. Tate formerly lived in Lincoln, Neb., Bryan's home town, and devoted his talk largely to the vacillating political course which the speaker said Bryan had pursued to catch the unwary voters.

Senator Fulton defined the history of Bryan's political aspirations as a candidate for the Presidency, stating that he had never been known to cling to any issue but one, and that was his unalterable desire to be President.

List of New Officers of Rome Congregation Made Public.

ROME, Oct. 21.—The Osservatore Romano, the Vatican organ, publishes the appointments of the new officials of the Rome congregation, as reorganized by the pope last June. The members of this congregation, numbering 14, include Cardinals Merry del Val, Moran, Oreglia, Serafino, Vannutelli, Martinelli, Rampolla and Gotti.

The Rota Roma Tribunal is composed of ten members, including M. Prior, rector of Beda College, for Anglo-American affairs. The Tribunal Segnatura, a kind of supreme court, is composed of Cardinals Vincenzo, Vannutelli, Agliardi, Satolli, Matheiu, Gasparri and Segna.

SPEAKS TO CREDIT MEN

W. C. Bristol Addresses Largely-Attended Meeting.

Attorney W. C. Bristol was the principal speaker last night at a meeting of the Portland Credit Men's Association at the Commercial Club. The meeting was the first the association has held this year and in point of attendance was the largest it has held.

Eighty or more members were present and many indulged in informal discussions on various topics of interest to the association. "Fear of Presidential Campaigns in the Business Men's Breasts, Why Is It, What Is It, the Remedy," was the subject of Mr. Bristol's address. He deplored the vocation of the professional politician who made it a business to arouse alarm among business men and urged business men to beware of the machinations of professional politicians.

FINDS SPANIARDS' RELIC

Ancient Vase Exhumed at South Bellingham Supports Tradition.

BELLINGHAM, Wash., Oct. 21.—(Special.)—In exhuming in his back yard in South Bellingham here today a metallic urn bearing a 1630 date, Leigh L. Rose has furnished another link to support the old Lummi Indian tradition that three Spanish galleons visited this port over 300 years ago.

The urn, found at a depth of three feet, is evidently of pewter and a hard alloy with four figureheads on its sides and resembles an antique Spanish jewelers design. In the vicinity where it was discovered remnants of ancient vessels and skeletons, supposedly of Spanish invaders have been found.

Logger to Lose Limb.

ASTORIA, Or., Oct. 21.—(Special.)—While at work this morning, V. Hautsen, an employe at the Hammond Lumber Company's mill, was caught between a large log and the railway and his right leg, below the knee, was crushed almost to a pulp. It is doubtful if the limb can be saved.
