FAST TIME AGAINST WIND

German Aviator Proudly Puts His Craft Through Its Paces-Sails Over Lake Constance and Down Rhine Valley.

FRIEDRICHSMAPEN, Oct N.—Prince formy of Prussia spent several hours in the air today as the guest of Count Zepelin, who made an ascension in his repelin, who made an ascension in his remoduled alreship at a comparatively early hour. Not only did the Prince thoroughly enjoy his experience, but he sat at the steering wheel for many miles of the flight, guiding she movements of the craft and compelling she movements of the great flight was unbounded and he gave expression to it in a telegram which he sent to the Emperor.

With Count Zeppelin himself at the wheel, the airship rose to an altitude of 600 feet and, moving rapidly against a strong wind, disappeared behind a bank of clouds. Soon messages began to arrive from the towns in the Rhine Valley, announcing the passage of the airship, but about 2 o'cleck in the afternoon a sonorous sound from the sky indicated that the craft was returning. Soon it appeared above the thronged streets of Con-stance, where the Prince saluted in ac-knowledgement of the ovation from the cheering crowds below.

It had been intended originally to make a flight of only three hours, and the royal family expected the Prince to take luncheon at 2 o'clock, but the Prince was so charmed with his successful aerial venture that he extended the cruise until he was driven home by approaching darkness.

When the alrahip appeared above the lake, energing from a cloudbank like some uncanny visitor from an unknown world. Count Zeppelin evidently wished to show the Prince some maneuvering by the craft. It descended to about 300 feet from the surface of the water, turning from right to left and from left to right like a well-drilled file of soldiers. Then suddenly it mounted 1900 feet and shot into the clouds, only the mighty him of its propellers indicating the course it had taken. When the airship appeared above th

NEW YORK, Oct. 27.-W. R. Hearst departed from his routine of reading so-called Standard Oil letters tonight to center his attack on Leutenant-Gov-arnor Lewis Stuyvesant Chanler, Democraits candidate for Governor. In a speech at an Independence League meeting at the Grand Central Palace Mr. Hearst produced and read what he said were press notices sent out in the interest of the Chanler boom prior to the Democratic National convention, by a press agent employed by Mr. Chanler, in these notices Mr. Bryan's candidacy was held up to ridicule, while Mr. Chanler's qualifications were extolled. With these as a basis Mr. Hearst attempted to show that Mr. Chanler's present attitude toward Mr. Bryan, especially as indicated at the Madison Square Garden Monday night, was one of hypocrisy, and that Chanler was a "traitor and cratic candidate for Governor. and that Chanler was a "traitor and

HOLDS WAR-DOGS IN CHECK

Denies Right of Powers to Question Annexation-Warns Servia and Montenegro to Cease Having Impractical Dreams.

BUDA PEST, Oct. 27.-Baron von Achrenthal, the Austro-Hungarian forelgn minister, in an important speech today indicated a yielding attitude on the part of Austria which may ald material-

y in the preservation of peace. Addressing the Austrian delegation, the Foreign Minister admitted that it was Austria's desire to do its utmost to re-lieve the present tension and that there-fore the government would not insist that the question of annexation of Bosnia that the question of annexation of Bossia and Herzegovina should be entirely eliminated from the programme of the international congress, although naturally be could not admit that the powers had the right to question the annexation of the provinces or the idea of any territorial compensation in other directions.

On this basis, however, he added, there was no objection to the congress placing on record the abrogation of the articles relating to Bosnia and Novibazar. The Austro-Hungarian government was trying to smooth the way for the conference, and he hoped his government's intentions would be appreciated at Constantinople and a hand extended for a friendly understanding.

He looked to the future with confidence and for that very reason he believed the other governments were displaying an equally concinents were displaying an equally connments were displaying an equally liatory disposition.

BULGARIA VOTES FOR PEACE

Will Compensate Turkey, Ferdinand Overcoming All Objection.

SOFIA, Oct. 27.—The Bulgarian government informed the representatives of the foreign powers here today of its acceptance of the principle of making compensation to Turkey, which has been the burden of pensistent diplomatic representations during the past fortnight on the part of all the great powers. This decision was arrived at by the Cabinet this afternoon after a long debate, in which Emperor Ferdinand used all his influence in favor of peace with compensation.

Obdurate members of the cabinet who were opposed to the principle of compensation for fear of stullfying their party were won over by the reminder that inere were plenty of other politicians who would be glad to replace them and assume the responsibility for the payment of the Roumelian tribute.

The cabinet in a measure was influenced also by the sentiment of the deputations

The government will send a pienipotenilary to Constantinople within a day or two to negotiate a treaty with Turkey. It is believed that by these steps Bulgaria has done its utmost to clear the situation and concentrate opinion alread.

CONFERENCE NOW ASSURED

Emperors Will Consult-Servian Peace Emissary in London.

LONDON, Oct. 27.—The recent pour-pariers in European capitals appears to have brought the idea of an interna-tional congress for the settlement of the Balkin problem appreciably nearer real-ization. Austria-Hungary is ready to enter the congress to discuss the unnex-ation of Bosnia and Herzegovina, pro-vided the discussion respects Austria's

ation of Bosnia and Hersegovina, provided the discussion respects Austria's "sovereign rights" in these provinces, while the Bulgarian government is willing to pay pecuniary compensation to Turkey.

A further rapprochement between the contending parties is expected to ensue from the visit of Emperor William to the Austrian Emperor and Archduke Prancis, who is regarded as the prime mover in Austria's forward policy in the Balkans.

It is said M. Milovanovics, the Servian Foreign Minister, arrived in London today. To his policy of moderation at a critical moment is attributed the at a critical moment is attributed the fact that Servia is not plunged in a war-adventure. He will confer with Sir Ed-ward Grey, British Secretary for Foreign Affairs, and the conferences are expected to confirm Servia in a policy of penns. M. Wilovanovics will proceed to Paris on Saturday and then to Rome.

The representatives of Germany and Italy at Sofia also have expressed to Foreign Minister Poprikoff their governments' approval of this identical note. The Times in an editorial, sees a happy augury in the fact that five of the signatories of the Berlin treaty are thus acting in harmony for the first time since the crisis arose, especially as it is unlikely that Germany and Italy acted without Austro-Hungary's knowledge Austro-Hungary's knowledge
