GOOD THINGS IN PORTLAND MARKETS

APPLES, nuts and pumpkins are very properly, the leading features in the fruit market this week.

But the apples maintain a rosy serenity at from \$1.50 to \$2.50 a box. Nuts—walnuts, almonds, pecans, filberts and hickory nuts, keep their own counsel at about 20 cents a pound, and the plump and cheery pumpkin can be had in all sizes from 10 to 60 cents each.

Or grapes, the best are Eastern Concord and Malaga, at 40 cents, and Tokay and Cornichons at 40 cents a basket. Pears and peaches are both about 25 cents a dozen, I saw some pomegranates at the same price, but the large red California kind cost 10 to 15 cents each.

There are prunes at 25 cents and strawberries at 20 cents a box. Huckleberries are 20 cents a pound, and cranberries 15 to 20 cents a quart. Groundcherries are 20 to 25 cents a pound and pineapples 25 to 50 cents each.

There are very good persimmons to be had just now at 5 cents each. These, with the aid of oranges and Malaga grapes make very nice little pumpkin-colored cocktails for a Halloween lunch.

Mushrooms have been much more cheap and plentiful this week—25 to 40 cents a pound, instead of \$1. Jerusalem artichokes and leeks have made their first appearance this season. Do you know the classic "cock-a-leekie" and "Palestine" soups, in which these two vegetables respectively play leading parts? What do you say to a radish weighing 3 1/2 pounds? I bought one of the new Japanese radishes which turned the scale at that figure; but I shall not take it in one bite nor yet in two. These radishes come in various sizes and cost about 5 cents each. They are good for salads and sandwiches and can be cooked like turnips.

There are new shallots—most delicate of the onion tribe, at 25 cents a bunch. Globe artichokes are good at about \$1 a dozen. Peas, Brussels sprouts and Lima beans are all about 15 cents a pound. Green peppers are 20 cents a pound and tomatoes, 15 cents a box. Celery, eggplant, parsley, savoy, cauliflower, celery and celery root, and the usual roots and "salad herbs" complete the list of available vegetables.

In the fish market there is a particularly good variety this week. The first fresh herring of the season is in; and many toothsome dishes can be made of this delicious though humble fish.

Some of the finest sturgeon seen this season was 15 cents a pound. Catfish, eels, croppies and rock cod are the same price. Tom cod, black cod, true cod, halibut, salmon and California smelt are all about 15 cents; herring, flounder and perch are 10 cents a pound. Black bass is rather scarce and costs 20 cents a pound; striped bass is 25 cents, and lobsters 30 cents.

Housekeepers of Scottish ancestry will welcome the new season's "Finnan Haddie" at 15 cents a pound. There are mushrooms at 10 cents a pound this week, in addition to the usual crabs and clams. Frogs are about 25 cents a dozen.

Wild geese are quite plentiful and range in price from 75 cents to \$1.35 each. Jackrabbits are also to be had at 40 cents each. Turkey tends to be a little lower in price, but other poultry prices are about the same as last week.

HOSPITAL BILLS HELD UP

Police Lack System in Sending "D. T." Sufferers for Treatment.

Bills submitted to the city by local hospitals for treatment given drunkards and persons suffering from delirium tremens were held up yesterday by City Health Officer Pohl and complaint was made to the City Attorney's office that carelessness and lack of system seem to have been shown by Chief of Police Gritzmacher and the Police Department in sending such cases out for treatment.

It was shown that the police have been keeping no record of such cases, the Chief permitting drunkards sent to hospitals to leave without prosecution, upon their recovery. It appears that many drunkards, suffering from physical reaction following a hard spree, have been sent to one of the hospitals and there lost sight of altogether by the police.

FRESHIES ARE ARRESTED

Hazed Dental Students Mistaken for Vagrants at St. John.

Seven of the freshmen of the North Pacific Dental College who were initiated Wednesday night were arrested at St. John as vagrants, but were released after being identified as freshmen by their stories were verified.

After the initiatory ceremonies were concluded on the river bank below Lincoln, the freshmen were left there and seven of them made their way across the river to St. John with a boat they found.

The others walked home. The ceremony consisted of administering 14 degrees upon the various candidates individually. When the degrees were completed each of the novices was tied to an apple tree and abandoned to free himself as best he could.

In order to appease the injured freshmen there was a banquet at the Danmore Hotel Thursday night, which was attended by 125 students. Representatives from each class spoke and it was pronounced the most successful banquet the dental students have ever given.

Raw Oats Will Do for Horses

Only the kind that is thoroughly steam-cooked is fit for the human stomach. You can boil the "rolled oats" you get at the store for hours but it won't cook it.

H-O is cooked for three hours in steam under high pressure and by a patented process. You can't imitate the process in your kitchen. You haven't the cooking machinery. It is the principal reason why H-O is better than every other oatmeal and why everyone is willing to pay a little more for it. It is all nourishment—no hulls, no dirt. Ask your grocer for H-O.
