Multnomah Athletes Training Teams for Money Hit by Resolution.

PURER ATHLETICS

Board of Directors Takes Action Against Members Teaching Athletics for Hire, Which May Bar Some From Membership.

"We recommend that announcement be made publicly that the Board of Directors of the Multnomah Amateur Athletic Club disapproves of the members of this club coaching or teaching athletics for money, and that all members who do this shall forever after be disqualified from representing the club in any public athletic contest or competition whatsoever. (Signed) Edgard E. Frank, James F. Ewing, Committee."

Ewing. Committee."
This resolution was presented before the Board of Directors of the Multinomah Amateur Athletic Club last Tuesday night, and was immediately adopted. On the face of it this action does not appear as drastic as it really is, but if it should be strictly enforced, several star athletes of the club are likely to be deprived of membership, for a by-law states that no one can be a member who is not eligible to compete in a contest.

can be a member who is not eligible to compete in a contest.

Prominent members of the club, like Dave Jordan, Rev. Paul Rader, Percy Blanchard, Gordon Moores and others who are employed at coaching High School and other football teams at present, can be included under the ban and expelled from membership in the Multnomah Club. The resolution provides that only those who are being remulerated financially for their work at coaching may be so dealt with, but a leophole of escape is offered if those coaching the interscholastic teams do the work gratis, for thereby they may escape the edict.

The reasons for this aweeping resolution are torsefold. In the first place the directors of the Multnomah Amataur Athletic Club are devoting practically all of their influence toward cleansing amateur athletics in the Northwest of any lings of professionalism, no matter how slight

of professionalism, no matter how slight it may be. Therefore they will not coun-tenance the least infringement of the amateur laws. By forcing the issue in this matter the club hopes to prevent greater and more serious violations at a

there is another reason. Accord-Then there is another reason. According to persons in touch with the situation in club circles there seems to be a tendency on the part of a number of the best athletes of the club to devote their time and attention to developing high school and academic teams instead of lending their much-needed services to the club itself, and this reason is really the principal cause of the action of the directors last week. The Multinomah Club contends that if these members are to continue to receive the benefits attending membership in the club, they can much better serve the interests of the organization, as well as the club's stand for purer athletics, by abstaining from con-

much better serve the interests of the organization, as well as the club's stand for purer athletics, by abstaining from contracting for a few dollars to coach an interscholastic club. In this edict the directors do not pretend to censure any of the club's athletes who see fit to act as coaches provided they do not pedde their services for financial gain.

While the resolution was passed at last week's meeting, it was not amounced until last night. Nevertheless it has been discussed generally in club circles, and has created considerable alarm among the members who are hit by it. Some of this men at sected have been in the habit of giving their time and attention to minor clubs during the early season with the expectation that the club would call upon them to play at a later date. The drastic action of the club in the matter, however, disposes of such action this year, and unless those affected can establish the fact that they have accepted tablish the fact that they have accepted nothing in the way of financial reward, they will be debarred from future participation for Multnomah.

they will be debarred from future participation for Multinomah.

At the meeting of the Board of Directors tonight it is expected that several
of the sibictes affected by this order will
appeal from the decision of the board, or
at least request that summary action be
not taken in their cases until the matter
can be discussed and adjusted satisfactorily. Several who have been coaches
refused to discuss the matter last night.

In addition to the above action the
Multinomah Chib has also adopted a new
schedule of initiation fees to take effect
January 1, 1909. The new schedule does
not affect the regular dues of the members, but merely the initiation fees. The
new schedule is as follows: Life memberships, 5150; active memberships, 340; intermediate memberships, 340, and junior
memberships (boys' dues), 57.50 per annum.

Tomorrow afternoon Multnomah Field will be the scene of what is expected to be the most exciting contest of the Interscholastic League's football season of 1998, for the West Side High School eleven is scheduled to meet the Hill Military Academy team in a contest, the result of which will decide the leadership of the

team in a contest, the result of which will decide the leadership of the league.

Each of the contending teams has played and won one game; West Side having accred over East Side by 5 to 8, and Hill having won an exceedingly close game from Columbia University by the score of 5 to 5. The players of both teams are predicting victory for their respective teams.

The cadets have a fast and heavy team and have the benefit of excellent coaching. The West Side contingent has an equally heavy team and like wise possesses speedy linesmen and backfield players.

As this will be the first meeting between the two leading West Side contenders for the championship, Multnomah Field should present the aspect of a championship day for the interest in the junior contest is almost as intense as in the senior struggle. The youngsters put up a really clever exhibition. Many of the boys who are today playing on these interscholastic teams will in one or two years become the mainstays of the colleges. This has been demonstrated by the work of Kiltz, McKinley, Pinkham and others, who are now performing in a stellar manner for the University of Oregon.

CITY QUIET ELECTION EVE

Only Excitement Contributed by Sixth-Street Socialist Orator.

There was disappointment in store for those who came down town last night in the hope of witnessing scenes of ante-election excitement for the evening and night were as quiet and indeed more so, than the average evening in Portland. The only relief to the monotony for excitement-seekers was the noise-maker who spoke in the interest of the Socialist party at Sixth and Washington streets. He entertained a big crowd, so big that Sixth street was entirely blocked with a swarming crowd of interested listeners. Frequent shouts of approval and outbursts of enthusiasm marked the progress of the speaker's address and for an hour or more be harangued the crowd.

On Washington street there was the usual crowd early in the evening, walking and promenading, but apparently little concarned about the result of today's National vote. At Sixth and Washington streets there was the usual crowd of sports and near-sports about the cigar store, some making real bets and many four-flushing and talking. At other cigar stores there were several bets but the crowds on the streets gave little indication of interest in today's election.

American Defeats Johnny Summers in London.

FIGHT GOES TEN ROUNDS

Englishman Has Shade Best of It for Awhile-Californian Rallies and Get# Decision on Points.

LONDON. Nov. 2—Jimmy Britt, the California fighter, defeated Johnny Summers, of England, in the tenth round tonight at Wonderland.

The conditions of the fight called for ten rounds at 133 pounds. The men weighed in at 3 in the afternoon.

Summers had the better of the first two rounds and Britt, seeming to realize his disadvantage, put more energy into his work and shaped up much better in the succeeding rounds.

The Englishman showed great dieverness and in the sixth, seventh and eighth rounds looked to be a winner. Britt came back, however, and fought his man to the ropes, having a considerable advantage in the ninth and tenth rounds. The American was the winner on points, although a considerable number of the spectators questioned the referee's decision.

For several minutes there was every indication of a riot and it was with the utmost difficulty that quiet was restored. Britt and the referee were loudly hooted as they left the hall.

The first measure was shown to be necessary after the failure of the Title Guarantee & Trust Company bank, though the fact that there is but \$11,000 in the common school fund at present indicates no urgent need for the law at this time.

teenth and Davis streets by the score of 5-6. Both teams put up an excellent article of football for grammar school elevens, Irvington School deserving special praise for the plucky fight it made against its heavier opponents.

About 56 girls from the two schools were on hand to cheer on their teams and interest in the game was intense throughout the contest. Stephens School scored a touchdown after about five minutes, play in the first half, but after that there was no scoring although each team was near the opponent's goal at various times. An unfortunate decision by the referee in the first half, by which he gave the ball to Stephens School after an Irvington player had fallen on it, marred what might otherwise have been a game devoid of criticism and marked by lack of argument with the referee. This play preceded a score by the Stephens boys and caused much indignation against the Irvington eleven and its admires.

Throughout the first half Stephens had

heavier opponents' line. A touchdown by the Stephens team was spoiled by the calling of time for the first half.

The second period brought about a re-versal of form in the Irvington team and after the first few minutes it had considerably the better of the argument. Play was mostly in Stephens' territory and only by the greatest kind of a brace was a touchdown averted. Stephens' heavy back-field repeatedly broke up plays through the line and it was only by re-lying on end-runs and trick plays that through the line and it was only by re-lying on end-runs and trick plays that the Irvington team could gain ground. Kirkland and Magins were the best ground gains for Irvington, each suc-ceeding in making long runs in the sec-ond half.
