Taft Goes Into Training for Strenuous Work. CONFERS WITH HITCHCOCK Will Discuss Cabinet Seat for Campaign Manager—Plays Golf, Though Forest Fires Obscure Air and Champions Game.

HOT SPRINGS, Va., Nov. 8.—The stay of President-elect Taft at the Virginia Hot Springs will be prolonged until the first week of December, if the ordinary season of mild weather here prevails. It is Mr. Taft's determination to fit himself by riding and golf for the strenuous duties which await him in March.

Cabinet Seat for Hitchcock. There will be a general post-election conference tomorrow between Mr. Taft and National Chairman Hitchcock, who has given notice that he will be here. Mr. Hitchcock has been frequently mentioned as the probable Postmaster-general in the Taft Cabinet, and while Mr. Taft has so far deferred taking up matters of state since the election, it is not unlikely that an understanding will be reached between the chairman and his chief.

Why Taft Plays Golf. Playing golf is a serious work with Mr. Taft, as he has explained. "A man of my build requires exercise in the open air," he said, "and exercise to be beneficial must be entertaining, of course. I can ride, but one cannot maintain a keen interest in riding a horse. In golf there is just enough skill required to get up a keen interest in the game and take up your thoughts while you are getting a five or six-mile walk."

TOBACCO STOCK DROPS

FALLS 32 POINTS RESULT OF COURT DECISION. Wild Break of Trust's Common Starts Scramble on Stock Exchange.

NEW YORK, Nov. 8.—A sensational break of 32 points in the price of the common stock of the American Tobacco Company on the curb today resulted in a sharp reaction in prices of related stocks during the first hour's bidding on the New York Stock Exchange. The violent decline in tobacco stocks was attributed to the decision of the United States District Court declaring that the American Tobacco Company was a combination in restraint of trade which was given after the close of the stock market on Saturday. The last price for Tobacco common on Saturday was 35, and its high price for last week was 29, but during the first hour of trading on the curb market today it sold down to 34. The price of American Tobacco preferred on the Stock Exchange fell 3/4, the 4 per cent bonds 1/2, and the 6 per cent bonds 3/4 points. Not only did the decision of the court cause great anxiety as to the scope of the Sherman law, but the unfavorable situation was aggravated by a profit-taking movement by last week's buyers who flooded the market with selling orders.

Whalers Return Without Spoils. SAN FRANCISCO, Nov. 9.—Close to the land of the midnight sun, but with never a ray of sunlight in over three months, officers and men of the steam whaler Thresher which returned to this port yesterday, agree in declaring the season the worst in the history of Pacific Coast whaling. A series of blizzards kept the vessel wrapped in ice for weeks at a time, and the men worked knee deep in snow while lobsters towered alongside at frequent intervals. The storms prevented the lookouts catching sight of whales, and but two were taken during the cruise. The whaling bark John and Winthrop and the steamer whaler Thresher arrived last night. The John and Winthrop brought 700 barrels of sperm oil and the Thresher 600 pounds of bone.
