

LANE VETO WILL PROBABLY STAND

Cottel and Vaughn Only Doubtful Councilmen on Saloon Measure.

RUSHLIGHT TO MAKE FIGHT

Declares He Will Not Give Up Struggle for "Square Deal," Even if His Amendment is Defeated Today.

PROBABLE VOTE ON MAYOR'S VETO. To sustain—Bennett, Cellars, Meneses, Wallace, Willis. Opposed to sustaining—Anand, Baser, Baldwin, Caserman, Dunning, Driscoll, Kellaker, Rushlight.

While it is regarded as certain that Mayor Lane's veto of the amendment to the Cellars women-saloons ordinance will be sustained by the City Council this morning by a lack of one or two votes to pass the measure over the Executive's objection, it is positively known that sustaining it will be only a temporary victory.

Two Votes Are Doubtful.

The action of the Council this morning, as forecasted last night, depends upon the votes of Councilmen Cottel and Vaughn. The two declined to state which way they will vote.

Mr. Rushlight, who is president of the Council, is confident his view of the principle at stake is correct; that it is fair to say to one man that it is all right to permit women in his establishment if he has 400 square feet of floor space in the dining-room where he serves liquor with meals, and to tell another man that he cannot serve liquor to women because he has less than 400 square feet in his dining-room.

Declares He is Right.

"I am certainly going to vote to pass the amendment over the Mayor's veto," said Mr. Rushlight. "Most certainly, I fight, and not only that—I am going to fight this thing to a finish, simply because I think I am right. I don't care whether the Cellars law survives to-morrow morning or not, for I am determined to keep on until I secure justice and a square deal for all alike. I know that my position in this matter is right and I will maintain it."

Liquor Dealer Favors Law

Saloonkeeper Says Women Are Nuisance to His Trade.

"Speaking from a purely selfish viewpoint, I honestly trust that the friends of the Rushlight amendment to the Cellars women-in-saloons ordinance fail to see the necessity of carrying the amendment over the Mayor's veto," declared a saloon man yesterday. By the provisions of the Cellars ordinance this means one of the smaller liquor dealers who has been required to abandon serving drinks to women in rooms adjoining his saloon.

Saloonmen who encourage the patronage of women at their resorts are welcome to that trade," he continued.

"As for me, I have had enough of it. It has been my experience that women in or around a saloon are an intolerable nuisance and a source of annoyance from the time you open your saloon in the morning until you close it at night. Young girls not over 18 years of age will come into your place and, with their escorts, will insist that they are of age and demand a drink. Refuse them and you insult them; serve them, and under the law you are held responsible for serving drinks to a minor."

Mount Scott Wants Engine.

Numerous fires in the Mount Scott district and the recent efficient work of the volunteer fire company in extinguishing the fire in the Star Bakery

on the Foster road, saving the adjoining buildings, have stimulated interest in movement to secure a chemical engine for the company. Although it has been over a year since the first effort was made to raise money to get the chemical, the matter has dragged until the volunteers had become discouraged. Men who subscribed say they are ready to pay up and subscribe more. The chemical engine will cost \$300. Property to the amount of over \$15,000 has been destroyed in that neighborhood the past year.

NEED OF HUMANE SOCIETY

Secretary Reports on Work and Calls for Funds.

PORTLAND, Nov. 10.—(To the Editor.)—The Oregon Humane Society having become a permanent and indispensable organization in our city, we can look with pride upon its past history, extending over a period of more than 36 years. Previous to its organization ample laws did not exist wherein children and brute creatures were protected from cruel treatment. Humane education was not then regarded as important to the boys and girls in our public schools. The law of kindness had not yet been enrolled before the minds and hearts of the young. Horses were driven with galled shoulders and backs, underfed and overworked, left to stand in the cold and storm without blankets; in fact, they had no rights which their owners were bound to respect.

Our birds of plumage and song were thoughtlessly destroyed, and their nests robbed of eggs and brood. It has been proven beyond question that humane education inaugurated by humane societies has lessened crime in a remarkable way, thereby saving a large tax to the public and creating a sentiment and love for the brute creation which extends also to mankind.

In view of this fact, the time has come when substantial provision must be provided if the work is to keep pace with our rapid growth. The officers of the society have, during a period of more than 39 years, given their time gratuitously to secure the objects in view, and asked but little at the hands of the public.

We are aware that our citizens are often called upon to contribute to charities, and while a liberal response is given, the needs of our society, which are certainly deserving of a share of the public contributions, has been forgotten. After reading the following report, you will see the needs of our society. T. Shanahan will call upon you, and we trust you will reserve a portion of your contributions to help carry on the work through the coming year.

- Summary report for the quarter ending October 31: Working horses with galled necks and shoulders, 33. Cruelly beaten horses, 22. Horses humanely destroyed, 23. Working lame horses improperly shod, 23. Horses temporarily suspended from work, 80. Horses starved, 60. Complaint against son in good circumstances, refusing to assist in supporting invalid mother 76 years of age, now under investigation. Little girl lost, found on street by our officer and taken to her home. Arrested B for lacerating horses' flanks with spurs, sentenced to 30 days in jail. Dogs starved, 25. Cats deserted by tenants, 14. Dogs humanely destroyed, 9. Cruelty to children, 5. Visits to stockyards, 20. Visits to poultry-houses, 33. Arrested M for beating mule with chain, fined \$10. Arrested E for cutting eyes out of bull; case pending.

ANXIOUS FOR CITY WATER

Mount Scott Club Working for Main Extension.

At the meeting of the Mount Scott Push Club Monday night, Charles Stout presiding, O. N. Ford, W. J. Rowen, W. C. Spicer and F. P. Shaughnessy were appointed to co-operate with other committees from that section in securing Bull Run water before next summer. Woodmere Club has already appointed committees, and South Mount Tabor and the Woodstock Clubs will also name representatives. The purpose is to have a 24-inch main laid from the Mount Tabor reservoir to the center road, a distance of about one mile, there to connect with the large main of the Woodmere Water Company.

FROEBEL SCHOOL STARTED

First Free Kindergarten in City at Holman School.

Portland's first free kindergarten was yesterday opened in the Holman School under the auspices of the Portland Froebel Association, the attendance being satisfactory. This school is in charge of Miss Gladys Brown, a graduate of the Chicago Kindergarten College. At the last meeting of the Froebel Association, the president, Miss Elizabeth K. Matthews, announced that the policies of the organization were to establish kindergartens in the public schools; to legislate for professional certificates to those having prepared themselves for professional work, and to aid in the betterment of civic affairs.

STREETCAR RULES

Make Sig Scheib's Short Smokes so satisfactory—between the house and the car. Just a few minutes of full Havana. Scheib has three stores.

Says She Was Locked Out.

In a suit for divorce filed in the Circuit Court yesterday, Ethel Babcock accuses her husband, James W. Babcock, with ordering her from the house and locking her out all night, with the statement that the place belonged to him. She says his cruelty and drinking have made it impossible for her to live longer with him. They were married at Hedrick, Ia., December 24, 1896. She asks the custody of their one child.

Great Trade-Building Sale. Many new customers have been attracted to the "Brownsville" Store by the splendid suits their friends bought here during the "Great Trade-Building Sale" at \$15. This proves that every "Brownsville" customer is the best advertisement the "Brownsville" Store has, and that every "Brownsville" suit is a most eloquent salesman. During the past week several large shipments arrived from the factory and they have all been placed on sale at the price now prevailing—\$15.00—although they were made to sell at much higher figures.

Brownsville Woolen Mill Store. Third and Stark Streets. "Mill-to-Man" Clothiers. Portland, Oregon.

PLAN RIFLE SHOOT

Nineteen Nations to Compete in Annual Meet.

OREGON TO HAVE ENTRIES. General Finzer Receives Regulations for Competition in Which Marksmen from This State Have Good Chance.

Military and civilian riflemen from 19 of the leading nations are to assemble in the United States next September for the greatest rifle competition in the history of the world. Preliminary announcement of the big competition was received yesterday forenoon by Adjutant-General W. E. Finzer, of the Oregon National Guard, from the National Board for the Promotion of Rifle Practice. General Finzer was also notified that Oregon marksmen who have won distinction in National matches of the past five years will have an opportunity for trial at place on the American team.

The big international shoot will be held either at Camp Perry or on the range at Seagirt, N. J. Which of these places will be selected is a matter yet to be settled. The personnel of the American team, too, remains to be settled, and this will be effected in the early Spring. The United States has won all international competitions thus far, winning the Palma trophy in Canada two years ago, and sweeping the field at Bisley, England, last Summer. Needless to say, every effort will be made to maintain the American supremacy at the coming matches.

COUNTRIES THAT WILL COMPETE.

The countries which will compete are: England, Canada, Australia, France, Switzerland, The Netherlands, Norway, Denmark, Sweden, Italy, Germany, Austria, Greece, Mexico, Argentine Republic, Brazil, Spain, Belgium, and Japan. Formal invitations have been sent out to the States Department, and will be presented through the various Ministers and Ambassadors.

CAUGHT SMUGGLING GEMS

Fred Field, Accused of Bribe at Vancouver, Held at Blaine.

BELLINGHAM, Wash., Nov. 10.—Fred Field was arrested at the international border last night, charged with smuggling six diamonds, valued at \$1200, into the country. The jewels were found on his person by examining officers. Shortly afterward the police of Blaine were asked to look out for Field, as he was charged at Vancouver with securing the diamonds and \$300 in cash from Vancouver jewelers on a bogus check. He is being held on the smuggling charge.

BANKER GIVES MILLION TO HOSPITAL.

NEW YORK, Nov. 9.—(Special.)—One of the greatest of philanthropies to be credited to the year 1908, is the giving of a million dollars to the Presbyterian Hospital by John S. Kennedy, the banker. This is not the first thing Mr. Kennedy has done for the hospital. He gave it also its home for nurses and Florence Nightingale Hall. Mr. Kennedy's benefactions have been many. He has given \$600,000 for the erection of the United Charities building, a like amount to Columbia University and \$250,000 to the School of Philanthropy. His smaller benefactions are numerous. Mr. Kennedy is a Scotchman, 78 years old. He has just celebrated his golden wedding.

CALL SPECIAL VOTE

Council Committee Wants \$2,000,000 for Bridge.

LOCATED AT BROADWAY. Will Embody Recommendations in Ordinance to Be Presented to the Council Today, Authorizing Calling of Special Election.

Issuance of bonds not to exceed \$2,000,000 for the purpose of constructing a bridge across the Willamette River, from Broadway and Larrabee streets to Sixth and Irving streets, and the calling of a special election in order to submit the proposition to the people, were authorized yesterday afternoon at a meeting of the special committee of the City Council. The committee will submit an ordinance to that effect to the Council for approval today.

The bridge authorized by this special committee is of the type recommended by Engineer Modjeski, who was employed by the Council to investigate and report on the most available means of bridging the river. Although the ordinance authorizes the issuance of the bonds to the amount of \$2,000,000, Engineer Modjeski's estimate did not exceed \$1,500,000, and it is believed the construction of the bridge will not exceed that sum.

The ordinance authorizing the calling of a special election for the purpose of submitting to the electors the proposition of the bond issue will also be presented to the Council today. The date on which the election will be held was not specified in the ordinance.

The bridge ordinance, after authorizing the issuance of the bonds, authorizes the Executive Board of the city to construct a bridge with appropriate approaches and terminals and with a clearance of not less than 65 feet above high water and not less than 56.13 feet above low water.

The bridge will begin on the east side from Broadway street, at or near its intersection with Larrabee street, and following the line of Broadway extended in a westerly direction in its present course will cross the river to a point at or near the intersection of Sixth and Flanders streets.

The location of the west approach to the bridge, however, according to the provisions of the ordinance, is to be subject to such modifications and changes as may be deemed expedient.

The plans for the bridge have met with the approval of the Federal authorities and will be high enough to permit the
