Statement forces. There are three candidates from the anti-Statement forces for Speaker-C. N. McArthur. John C. McCue and L. E. Bean. Bur it is understood that when it comes to a showdown two of these men will withdraw and throw their strength in the bird or in some other

pating in that organization have con-tended that its purpose was for the con-sideration of proposed legislation. It is known that primarily the purpose was to present an organized front in support of a movement to capture the organiza-tion of both Houses by the Statement forces.

tion of both Houses by the Statements forces. Se far as could be learned yesterday, the Statement members will not hestiate, to meet with the anti-Statement Sena-tors and Representatives for the mutual consideraion of legislative measures, par-ticularly in view of the fact that the fight respecting the organization of the Legislature is to be barred from the de-liberations of the solid delegation. Even should that fight not be eliminated from a joint meeting of the two factions, the Statement forces would have pothing to fear, since they dominate the Selegation by a membership of 15 to 4. The only anti-Statement members in the delega-tion from this county are: Senators S. C. Beach (boldover), and John B. Cof-fey; Representative R. S. Farrell, and C. Beach (holdovers, and fey: Representative R. S. Farrell and Joint Representative C. N. McArthun. It is expected that the conference next Sunday will be attended by practically every member of the delegation.

TIMBER DEALER IS DEAD Funeral of John McKitrick Held on East Side.

Funeral services of John McKitrick, a prominent timber and real estate dealer, who died suddenly Monday morning, were held yesterday afternoon fromy the residence, 415 San Rafael street, and the interment was in Lon-

# **RICH STRIKE IN THE CARDINAL**

A big, rich, new strike has just been made in the Cardinal mining property in the Burnt River Mountains, 15 miles south of Baker City, believed to be one of the greatest true fissure veins ever discovered. The vein is 60 feet wide on the apex and carries a full 27-foot free gold pay streak, tracing 700 feet along the course of the vein. Many other rich strikes have been made from time to time on the property during the past few years, but none of such incomparable magnitude and richness.

This rich new strike was made above the coarse gold placer mines at the head of Stice's Gulch in the Eldorado claim belonging to the Cardinal Gold Mining Company, of Baker City, Oregon. A cross-cut on the apex 4 feet deep shows values from \$7.11 up to \$92.60 in abso-lutely free gold, while picked samples at a depth of 15 feet mortars and pans as high as \$0 cents per pound. Stair-stepping and cross-cutting at various points on the vein leave no room for doub

An oblique cross-cut tunnel has been driven 160 feet at the foot of the ridge the vein crosses and is now within a few yards of the vein itself, and less than 250 fect lengthwise of the vein from the immense pay chute recently discovered. This tunnel will give approxi-mately 300 feet of vertical depth, and with no further improvement in values than shown at the surface will yield several million dollars in gold without sinking a foot vertically.

There are many other immense talc veins on the property, which it is now confidently believed are just as good as the big new strike, which will be producing gold bullion just as soon as the ore can be blocked out and machinery for milling it installed.

Many of the stockholders have perhaps not been fully advised of the magnitude of the Cardinal mining property, which is beyond doubt one of the most extensive, values consid-ered, in the great mineral zone of Eastern Oregon, Nevada and Idaho, consisting of 23 quartz and three valuable coarse gold placer claims, making upward of 500 acres in one compact body, which entirely aside from the rich strike recently made, bears many other immense ore veins of just as promising character, assuring well nigh inexhaustible bodies of rich, free gold ore.

Our first discovery in this favored region was made in May, 1892, and now, after more than 16 years of labor and discovery, our continued persistence and your unswerving confidence is about to be rewarded royally, with every assurance of many times greater values as depth is attained.

Take our advice: DON'T SELL YOUR STOCK. Such magnificent opportunities come but once in a lifetime. DON'T SELL AT ANY PRICE. Better increase your holding while but once in a interime. Dot i blind it is in the interiment is solely to hasten completion you can, as we still have a small amount more to offer below par, solely to hasten completion of the big working tunnel now well, under way, block out the ore and install milling machinery for the extraction of the gold.

**DOCTORS'** MISTAKES

And How These Are Reduced to a Minimum in the Methods of an Expert Specialist.

<text><text><text><text><text><text><text><text>

The incurable cases that come under my observation have been those of men whis have neglected to seek treatment in time, or have tried to cure themselves with electric belts, nater, nostrums, a drug store treat-ment, or some other worthless means. Such treatments are far worse than note at all. They nearly invariably produce complications that are as hard to cure as the original disease. Sometimes they appear to benefit for a time, but as sure as Pate their after effects will prove harmful-many times fatal. BEWARE OF THEM. They cannot cure you no matter how eloquently they are advertised. Seek my scientific and successful Direct-Method Treatment, that will not fall to cure you. Do not delay until your case has advanced into the incurable state. My MODERN and un-to-date methods will effect a certain and

MY MODERN and up-to-date methods will effect a certain and speedy cure of SPERMATORRHOEA, CONTRACTED DISORDERS, SPE-CIFIC BLOOD POISON, LOST STRENGTH and all reflex aliments. VARICOCELE, HYDROCELE and STRICTURE positively cared WITHOUT THE KNIPE.

FREE CONSULTATION AND DIAGNOSIS

Alling men are cordially invited to call at my office for free advice, examination and diagnosis. Office hours 9 A. M. to 9 P. M. Sundays 16 to 1. Write if you cannot call.

## MAY FOUND NEW SCHOOL

Evangelical Lutheran Church Seeks Site for New Seminary.

The establishment of a theological seminary is a matter now being con-aldered by the Pacific Synod of the Evangelical Eutheran Church. For several years the question has been before that body. It was at one time decided by the synode of Oregon, Washington and California to found a joint institution, but on account of the large terri-

tory it has been deemed advisable to establish separate seminaries.

Those in charge of the work intend to visit Portland, Seattle, Tacoma and Vancouver for the purpose of looking into the matter of the most advantage-ous location. Sites have been offered in Seattle and Vancouver. Rev. J. Allen Leas, of this city, is looking after Port-land's interests in the matter, and is

A warrant for the arrest of the owner of this machine will likely be issued today. After sitting down for an hour at the police station, the boy was able to go to his home at 70 North Four-teenth street. Consul Labbe Is Administrator.

It is a generally recognized truth that medicines made from vegetable ingredients are a great deal better adapted to the delicate human system, and safer in every way, than those composed of strong Imineral mixtures and compounds. Mercury, potash, arsenic, etc., which are used in the manufac-ture of most blood medicines, are too violent in their action, and frequently derange the system by disturbing the stomach and digestion, affecting the bowels, and when used for a prolonged period often cause Rheumatism. S. S. S. is the only blood medicine guaranteed absolutely and purely vegetable. It is made entirely of roots, herbs and barks, selected for their purifying and healing qualities. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Contagious Blood Poison, and all other blood diseases, because it cleaness and purifies the blood, and at the same time builds up the entire system by its fine vegetable tonic effects. S. S. S. may be taken by young and old with absolute safety, and with the assurance that it will cure the diseases and disorders due to an impure and poisoned blood supply, even reaching down and removing hereditary taints. MULTNOMAH DELEGATION WILL CONVENE SUNDAY.

Statement Fight Will Be Put Aside Temporarily in Interests of

Desirable Legislation.

The assembly hall of the Portland The assembly hall of the Portland Commercial Club has been reserved for a meeting of the Multhomah County del-egation next Sunday afternoon. While a general calls for the meeting has not been issued, both Statement and anti-Statement members of the delegation from this county have indicated their in-tention of attending for the purposes of organization and the consideration of meeded legislation. Sunday's session will in no sense be an executive session. While it is intended primarily for Mult-nomah County lawmakers, interested electors will not be denied admission.

norman County inwiningers, interested electors will not be demined admission. "The purpose of Sunday's meeting is to bring together all of the members of the Multhounah County delegation for the consideration of all important measthe consideration of an inportant measures of the state and which, undoubt-edgy, will be presented at the coming sension of the Legislature," said W. J. Clemens, who yesterday arranged for the use of the rooms at the Commercial Club for mark Souday.

"The needs of the state for important Ing needs of the state for important legislation are considered by the average Legislator-elect from this county to be paramount to the pending controversy between the Statement and anti-State-ment forces as to the organization of the ment forces as to the organization of the Legislature. The question of the organi-zation of the two Houses by the State-ment and anti-Statement forces has no place in the plan for organizing the del-egation from this county in the interest of considering and acting on matters of legislation which property should be com-sidered by the delegation before the Leg-islature converse.

startered of the delegation before the lag-islature converse. "There is no reason why the proposed meeting should be of an executive char-acter, and for that reason the meeting will be an open one. When the delega-tion has been organized formally regular meetings will be held when the altro-cates of various measures will be invited to attend and present the merits of pro-posed legislation for the information of the members of the delegation who are desirous of going to Salem next January desirous of going to Salem next January as thoroughly informed on all important measures as such opportunities can make

The meeting for Sunday will have nothing to do with the organization that has been effected by the Statement Rep-resentatives-elect from this county who already have met and elected E. J. Jas-ger chairman, and L. D. Mahone, sec-retary. Although the members partici-

prisoner had to be dismissed

the prisoner had to be dismissed. Ferguson was in unusual good for-tune at this turn in his case, since the police were fittending to have the case vigorously prosecuted. Ferguson, in an unnecessary saloon brawl, attempted to drive his knife into Lawson's abdomen, but the blade merely cut through the victum's clothing and did not penetrate costil reaching a point in the flexity victim's clothing and did not penetrate until reaching a point in the fleshy part of the leg, where a severe wound was inflicted. Ferguson then ran home, and when Detectives Maloney and Hyde tried to arrest the fugitive he fought until overpowered, even trying to wrest Hyde's revolver from him when the officer had the weapon lev-chet

eled. No effort was made at prosecution. Lawson is hartender at a saloon"at 80 Third street North. This place is pat-ronized largely by longaloremen, and it is not likely that the prosecution of a longaboreman would serve to stimulate unique for Lawson's place. That is

business for Lawson's place. That is the real cause of Lawson's conduct, the
