Newell is murdered, his as-sassin, Fred Swingle, is a suicide, and Mrs. Newell is a widow, after being mar-ried but two days, for the third time in her life. All this is the result of in-sano jealousy on the part of Swingle, the tragedy taking place last night at the Newell home at Amboy, two miles from Yacolf.

from Yacolt.

For the past three years, until recently, Fred Swingle was a farmhand for Mrs. Rose Huffman, who owns the ranch on which her husband was murdered last night. On several occasions Swingle has proposed to Mrs. Huffman, but she did not return his affection.

She was in the habit of giving him mosey to come to Vancouver to purchase groceries and supplies. Recently she learned that be had spent the money for whiskey and had had the goods charged to her account.

Murderer Drinking Heavily.

Swingle had been drinking heavily re cently and had made the widow several proposals of marriage. He acted vary jeafously when Newell called at the home and Mrs. Huffman discharged him. He

and Mrs. Huffman discharged him. He left in a rage.

Several months ago Newell appeared on the scene and, becoming acquainted with the widow, negotiated to buy her farm for \$3000, paying her \$1000 cash in hand and giving her two lots in this city, valued at \$2000. Together the two went to Yacolt Tuosday to make the transfer. They evidently had grown fond of each other, for when Newell proposed marriage he was accepted, and they were married Tuesday night in Yacolt.

Mr. and Mrs. Newell returned to the farm home that night and the next day were joined by William Boyd, a son of Mrs. Newell by her first hishand. He is 17 years old and has been attending the Yacolt schools, living with W. J. Hogue, Mayor of the town. Learning yesterday of his mother's marriage, he went to her home to meet his stepfather and to spend Thankagiving day.

Swingle Congratulated Couple.

Mr. and Mrs. Newell and the lad were in the dining-room at home last night, and were making preparations for a big celebration. A knock was heard at the door, and Mrs. Newell opened it. To her surprise Fred Swingle stood there.

She invited him in, ready to forgive the past and is make him welcome. Swingle congratulated the man and wife upon their marriage and wished them a long and happy life.

Newell thanked Swingle for his good wishes and had no more than spoken when Swingle pulled a is caliber automatic Colt's revolver and opened fire. Five of the bullets crashed into the head and breast of Newell, who fell at the second shot. Mrs. Newell, frightened at the sudden attack, and pursued by the lections Swingle, who held the smoking gun in his hand, succeeded in setting to her bedroom, closed the door and locked in helow her pursuer reached it. He stood in front of the door, deliberately reloaded his gun, and fired several shors through the panels, attempting to kill Mrs. Newell, but she was not injured.

Blows Out Own Brains.

Realizing that he could not kill the woman. Swingle coolly placed the revolver against his bead and fired two shots into his brain, dying instantly.

Mrs. Newell's son escaped the wrath of the crazed Swingle. He pulled Swingle's body from in front of his mother's bedchamber and released her. Comforting her as best he could, he went to Amr. two miles distant, and summoned ing her as best he could,

The bodies of both Newell and his as-sastin will be brought to Vancouver to-morrow in the same car for burial. New-

Mrs. Newell's first and second husbands died natural deaths, the second one dying at Amboy about two and a half years

Persons who knew Swingle say that he threatened yesterday to murder the whole family, but little attention was paid to the remark, as he was known to have desired to marry Mrs. Newell.

TACOMA, Wash., Nov. 26.-(Special.)- FRIENDLY MEN ATTACKED TACOMA, Wash. Nov. %—(Special.)—
One of the causes for the presence in Washington of J. M. Hannsford, second vice-president of the Northern Pacific, is said to be the row that was raised when the railroad announced the withdrawal of terminal rates from Grays Harbor. Henry Blakeley, general Western freight agent of the Northern Pacific, today denied the report that the howl from Grays Harbor has had the effect of settling the question definitely, as was reported yesterday.

A conference has been arranged, how-ever, between Northern Pacific officials and Grays Harbor business men, and the latter have been assured that if the proper showing of business is made, the terminal rate will not be withdrawn. The Northern Pacific is going to try to keep all the present business it can after Mil-wankee trains are operating here, and the traffic department is looking after the probable leaks in this territory, and is getting prepared to stop as many of them as possible.

The steamer Teucer, which arrived from the Orient, brings further particulars of the anti-Japanese rioting which took place at Hongkong a few weeks ago. In speaking of the trouble a local newspaper points out that the real explanation of the riots may be looked for in a meeting which was beld in Hongkong about two weeks previous to the outbreak.

Since the Taisu Maru affair the Chinese in Hongkong have been actively co-operating with their fellows in Canton, and a strong combination of the guilds has enabled heavy fines to be inflicted on all who traded in Japanese goods. Fourteen days before the riots a big Chinese dinner took place in Hongkong, at which representatives of the various guilds were present. The dinner soon became a meeting, notwithstanding the Registrar-General's interdiction. Discussion was carried on as to the advisability of stopping the boycott, but it was decided to continue the movement against the Japanese. Much feeling was displayed.

Two men who refused to agree to the continuance were marked out by some of the more bitter partisans. One of these men was set upon afterward at night and part of his ear cut off. The other man was attacked shortly after and roughly handled. A number of offending Chinese shops were also attacked, but the police were active and succeeded in breaking up any gangs.

It is the general opinion that the whole affair was carefully planned and only the effective police work prevented a riot on a large scale.

The Cream of IRVINGTON

This booklet, with the above title, is the most novel idea in real estate advertising that has ever been issued in Portland. It deals with the actual improvement work that has taken place in Prospect Park, describing and illustrating in detail with wash drawings each item in the complete system of improvements. Without exception, Prospect Park has now the best and most scientifically built system of street and underground improvements in the Northwest, the descriptions of which are most interestingly set forth.

Prospect Park Is the Best Part of IRVINGTON

PROSPECT PARK is the HIGHEST part of Irvington-the BEST part of Irvington; closest to the city of any part of Irvington, has the BEST IMPROVEMENTS in Irvington and justly deserves the title, "The

Cream of IRVINGTON." PROSPECT PARK is a ten-minute ride from the retail center of the city. Woodlawn and Alberta cars leave Second and Washington and Fifth and Washington streets every five minutes during the day and every

three minutes during the rush hours. Get off at Knott street. PROSPECT PARK is just one block east. Between East Seventh and East Fourteenth streets, and extending from Knott to Siskiyou street, is PROSPECT PARK, the most sightly and ex-

tensively improved residence section of the entire city. \$250,000 actually spent in public improvement work. Hard to appreciate until you have seen it.
