HOT SHOT FOR CREDITORS

Says Gleason Got \$30,000 and Wants \$60,000 More for Holding Down Chair-Federal

Courts in Conflict.

PHILADELPHIA, Dec. 1 .- "Is it the purpose of these bankruptcy proceed-ings to raise the question of Thaw's insanity in the United States Court?" asked Judge Buffington, who, with Judges Dallas and Gray, is hearing ar-

guments in the appeal to bring H. K. Thaw from Matteawan Asylum to Pittsburg to testify in bankruptcy proceedings: Ex-Governor Stone, at whom the question was directed, replied that he was in court in the interest of a writ of habeas corpus to bring Thaw to Pittsburg where his assistance was needed properly to marshal his es-tate, and that he did not know what

Thaw's creditors might do. What Thaw Can Testify To.

The answer proved to be the most interesting incident in the first day's proceedings in the Thaw case in the United States Circuit Court of Appeals. will review the decision Judge Young, of the United States Court for the Western District of Penn-sylvania, who dismissed a writ of habeas corpus issued by Judge Archibald, of the United States Court for the

Middle District of Pennsylvania. Judge Buffington wanted to know what Thaw could testify to if he attended a meeting of creditors in Pittsburg, and Mr. Stone replied that he could tell of contracts he had made with his brother and sisters growing out of their father's will; of contracts and agreements with alienists, and many other matters. He said there may possibly be some fraudulent claims among those presented by his creditors, and bills that might be proposed silvanted. erly disputed.

"For Instance," added Mr. Stone, "a lawyer named Gleason has been given \$20,000 by Thaw and wants \$50,000 more, and all he did was to hold down a chair at one of Thaw's trials." Judge Buffington also wanted to

know if it was the purpose to return Thaw to New York after he had testi-fled in the bankruptcy proceedings, and counsel replied that it was. He then proceeded to argue that the proceedings brought before Judge Young were trregular and in effect de-chared that Judge Young erred in dis-missing the writ granted by another court of equal rank.

Mr. Kell's informant declined to give his name, and the 'Commissioner watched the landing in front of his home until he sighted the lights of the launch, which moored some distance away, Biggy coming ashore in a small boat. Upon entering the house, the Chief complained of the cold and was given some Scotch whisky and cigars. ALTON DEAL BROUGHT IN

NEW YORK, Dec. 1 -- On account of the absence of Frank B. Kellogg, the special Assistant Attorney-General who is engaged in the Standard Oil case, no direct testimony was taken at the hearing direct testimony was taken at the hearing today in the Government's suit to set aside the ownership by the Union Pacific Railroad Company of its alleged subsidiary companies, the Southern Pacific and the San Pedro. Los Angeles & Sait Lake roads and prevent the ownership by either the Union Pacific or the Oregon Short Line of stock in the Atchison, Topeka & Santa Fe, the Great Northern and Northern Pacific roads, these roads being deemed to be competitors of the Union Pacific.

Great Gathering of Lawyers.

When the hearing was begun today counsel for the Government caused to be read into the minutes certain portions of testimony taken before the Interstate Commerce Commission at hearings that were begun in this city in January of last year and were continued in various

parts of the country.

Alton Case in Evidence.

The testimony was taken from the nvestigation of the Chicago & Alton deal and was alleged by the Govern ment's counsel to supply evidence that the Union Pacific, as owning roads or stock in roads which were natural com-petitors to it, came within the prohibition of the Sherman act. Importation of Drug for Smoking Is Barred by Officials.

SAN FRANCISCO, Dec. 1,-The collector of the port has received orders from Washington to prohibit in future the importation of opium containing less than 9 per cent morphine or of any opium that might be used for smoking. The instructions came from Dr. H. W. Wiley, chief of the food and drug chemists of the Department of Agriculture. As this harbor is the port of entry for practically all the drug imported in a refined state into the country, it is estimated that the customs revenues from San Francisco will be materially reduced.

The Cuinese importers of the city evidently had word of the new order before it arrived, as they paid \$50,000 in duties to the Government yesterday, thereby releasing about \$800 pounds of oplum helo in bond. There still remains \$\delta\$in the various bonded warehouses of the city opium to the esti-mated value of \$500,000, which will not be released and must be shipped back

Dr. Wiley's action is taken under the pure food laws, which do not provide for smoking opium as a food or drug. The supply of opium for "dope pipes" now in the Chinese quarter is very limited, as it has been the custom of importers to hold the consignments in bonded warehouses, paying duty on it bonded warehouses, paying duty on it and releasing it as they needed it.
