A committee composed of T. E. Pearson, of the South Bend Mills & Lumber Company; J. W. Kleeb, of the Kleeb Lumber Company, and J. L. Darling, of the South Bend Hoisting Works and Ice Plant, was appointed to voice the city's protest and act in conjunction with like committees of other cities. A committee was also appointed to take up the organization of a commercial club and report to a meeting to be held in the near future. The certainty that the building of a new railroad, to pass through this city, will be begun early in the Spring has aroused considerable enthusiasm and it is believed that South Bend is on the eve of a great business development. FRAUDS IN TESTIMONIALS BY MEDICAL FIRMS. But Some Are Genuine—A Significant Case of Eczema. How do medical firms secure the testimonials which you frequently see in print? This is a question which no doubt every reader of The Oregonian has occasionally asked himself. Well, testimonials are obtained in various ways. Some are undoubtedly not sincere; they are written by friends of advertisers or by employees. It is alleged that in some cases testimonials are even paid for—a species of bribery which cannot be condemned too lightly. But, contrary to general opinion, it is a fact that at least a large number of testimonials are genuine and sincere. They are usually given by people who feel so grateful for a cure that they allow their names to be used. We ourselves know of more than one case where a man or woman naturally averse to publicity was so overcome at finding the right kind of medicine that the cured patient consented to the use of his name in print. A typical case of this kind of special interest to eczema sufferers—is that of Robert Sussman, of Toledo, Ohio. Mr. Sussman is a well-known sufferer in Toledo, and for years he suffered with a severe case of eczema. He described his case as almost unendurable. About five years ago he was induced to try the oil of wintergreen compound known as D. D. D. Prescription for eczema sufferers. He has gone out of his way to find sufferers and to tell them of this remedy. He has done this without pay, of course, and without even having been requested to do so by the D. D. D. Company. It was simply the fact that his health, his very life, had been restored that made him so enthusiastic. We have recently had another letter from Mr. Sussman to whom he offers to write in one case sufferer and to describe his case. If any reader of this paper should write to Mr. Sussman, we request that he should mention the name of the enclosed. Speaking of his own case, Mr. Sussman says: "Six years of intense suffering from a severe case of eczema, caused by the use of incurable by sixteen doctors, several of whom were specialists of skin diseases, and then to have tried every known medicine for my ailment without effect, and finally to procure absolute relief and a permanent cure from a new remedy, is an experience that justifies my action in making it known to the public, and I feel that it is my duty to give it as much publicity as possible, so that other sufferers may be relieved. My sympathy goes out to those who have to go through what I did." D. D. D. Prescription, also D. D. D. Soap, may be had in Portland at Woodard, Clarke & Co., Skidmore Drug Co., These special agents are also given by D. D. Prescription, St. John Pharmacy, St. John; J. C. Wyatt, Vancouver; Howell & Jones, Oregon City.
