President-Elect Will Not Confirm Burton Rumor.

NAME ALL AT SAME TIME

Personnel of Cabinet to Be Given Publication - Burton Official May Receive Either Treasor State Portfolio.

HOT SPRINGS, Va., Dec. 1.-Presidentelect Taft made it decidedly plain today that no information for publication might be expected from him regarding the make-up of his Cabinet until he is ready to make the official announcement of the entire Cabinet. Acting on this declaration, he declined to discuss the report

riton, he declined to discuss the report-from Cleveland that Representative The-odore El Burton, of Ohlo, had been of-fered the Treasury portfolio.

The present situation with respect to the matter is understood to be that Mr. Burton has been told by Mr. Taft that he may be invited to accept a Cabinet position, and that either the Treasury or State Department may be available in this connection. Should he fail in his amhition for the Senate, it is regarded as a good guess that he will be a Cabinet offi-cer. Mr. Taft has heretofore spoken very highly of Mr. Burton.

BURTON HUMAN ACID TEST

Easy Mark.

Test. He is the living Show Me. Any gentlemanly statesman and patriot who can slide a proposition past Burton without taking off the wrappings, removing the box, and exposing the contents to the full glare of the noonday sun is en-

titled to all he gets, and more. You see, Mr. Burton is chairman of the committee on rivers and harbore in the House of Representatives. He is the peddler of the pork. He is the promul-gator of the perks. He makes up that lovely, lovely bill which, now and then, when the need is pressing and the boys must have something for their districts to come back on or not come back, distributes a few millions, anywhere from 20,000,000 to 100,000,000, around the navigable waters of the United States for such readments measurements to the generality enduring monuments to the generosity Uncle Sam as breakwaters, dredge channels, harbor improvements and all that sort of thing.

When Is a River Navigable?

"When, runs the House conundrum, is a river navigable? And the answer is: When it is in a close district. But that is the theoretical, the majority answer. The real one is: When Burton thinks it is navigable. If the members had their ispured say about it there wouldn't a creek between Matiawamkeng in Maine and the Quillayute in Washington that would not be declared navigable, enthusiastically, and have an appropria-tion for dredging to make it so.

strictly conventional and rigidly circum-spect than you would of hearing that Nick Longworth had written a book on the molecular theory of the universe. Burton couldn't. He is not constructed that way. His specialty is thinking deep and profound thoughts and putting them on view in a sedate and solemn way. In Eight Congresses.

"He has been in sight Congresses, be-ginning in the 51st, but deing defeated for the 52d and not getting back until the 54th. They ran him for Mayor of Cleve-land a time ago, but Tom Johnson the E2d and not getting back until the 5tth. They ran him for Mayor of Cleveland a time ago, but Tom Johnson cleaned him up. He has been re-elected to the 61st Congress, which shows that he is prudent as well as studious, for he is likely to be a candidate for Senator to succeed Foraker, and there is talk, aiready, that he may go into Taft's Cabinet as Secretary of State, provided Mr. Root is elected to the Senate from New York State to succeed Thomas C. Platt. In any event he has two years more of Congress, nor was it necessary for him Congress, nor was it necessary for him to let go while he was trying the experi-

ment of running for Mayor.

"It isn't likely that Burton ever told a joke in his life. Everything is serious with him. He wants mental problems. not mental pabulum. He is one of our hardest thinkers. Almost any time you can observe him at his deak, thinking away over in the back of the book, thinking in a large, rectangular manner, and, presently, arising and presenting his thoughts in a large, rectangular way? Hampie Moore brought the Five O'clock Club over from Philadelphia to Washing-

ton one night, and gave a dinner to the members of the Gridiron Club and a lot of miscellaneous statesmen. Of course, all Philadelphia is interested in the 35all Philadelphia is interested in the 35foot channel for the Delaware River, and
Hample incautiously led up to that when
he introduced Burton to the banqueters.
Burton followed the lead: you bet he followed it, followed it for more than an
hour, with a few, well-chosen, serious remarks on all phases of river and harbor
work, from rainfail to artesian wells. It
gave Hample's dinner a lovely start. Is Big Man.

"However, why deprecate any man for his trend of mind? Especially when his mind is as fine and as well-ordered as Prospective Secretary of State Not Burton's for, z-rious as he may be, he is a big fellow, versed in Governmental affairs and with more real ability than all the rest of the Ohio delegation com-

in the current issue of the Saturday
"And, Cear brethren, if he does get to
Evening Post, the "Who's Who" man
says of Burton:
"Theodore E. Burton is the Human Acid
Test. He is the living Show Me. Any language to our world neighbors that will be grave and composed to an unimpas-sioned fare-you-well,"

MUST WIPE OUT EPIDEMIC

Authorities Will Be Removed Unless Cholera Is Checked.

ST. PETERSBURG, Bec. 1-There were M new cases or cholera and four deaths from the disease during the M hours end-

The Prefect of St. Petersburg has sent an untimatum to the municipal authori-ties saying that they will be superseded unless effective steps to wipe out the epidemic are taken immediately.

Negro Who Robbed Train of \$50,-000 Sent to Federal Prison.

KANSAS CITY, Dec. 2.—Charles Stevens, the negro accused of stealing a registered mall pouch containing \$50,000 from a train here. July 6, was sentenced to ten years in the Federal Prison at Fort Leavenworth, Kan., by Judge Pollock today. A jury found Stevens guilty on six counts, but the court ruled he could be sentenced only on two of them. None of the money has been recovered.

International Harvester Organization Revealed.

HEARING OF OUSTER SUIT

Plano Plant Sold Because of Fierce Competition-Dividends in Six Years Are \$21,000,000, According to Vice-President.

JEFFERSON CITY, Mo., Dec. 3 .-How the International Harvester Com-pany of America obtained control of several of its subsidiary plants was told today when the hearing of the ouster suit of the State of Missouri against the company was resumed be-fore Theodore Brace, Special Commisfore Theodore Brace, Special Commissioner. Vice-President William H. Jones of Foster, Cal., and J. J. Glassner of Chicago, of the International Harvester Company of New Jersey,

were the witnesses.

Mr. Jones told of a visit to New York in 1992, which, he said, he made at the request of Judge Gary, of the United States Steel Corporation. Judge Gary introduced him to George W. Perkins of J. P. Morgan & Co., who requested him to sell a plant at Plano, Ill. When the check of sale was signed, said Mr. Jones, all property involved was turned over to a Mr. Lane to held until the organization of a new company. Mr. Jones said that he was willing to sell the Plano plant because fierce competition had de-moralized his business and there was no money in sight for dividend pay-ments. The sale took place July 24,

Large Capital Stock.

When the new company was formed it had \$129,000,000 capital of which \$60,000,000 was in each and an equal amount in stock certificates of the consolidated companies. He said that the International Harvester Company has paid dividends since 1902 of \$21,-150,000, and has a surplus of \$12,-000,000. He added that the increase of about 5 per cent in the selling price of harvesters had been caused by increased cost of labor and material.

Mr. Jones testified that the new company bought outright the Milwaukee Harvester Company of Wisconsin, and chapter of the name to the Internaand changed its name to the Interna-tional Harvester Company of America. This is the company that does busi-

ess in Missouri as an agent of the New Jersey corporation.

Mr. Jones ended his testimony by contending that the consolidated com-pany had not destroyed competition in the harvester business. Each witless asserted that there was no STEVENS GETS TEN YEARS agreement" involved in the organiza-

DECAY DUE TO PACKING

Delegates to Warehousemen's Convention Criticise Methods.

tion for dredging to make it so.

"He is a reasonably set man, is Burlock today. A jury found Stevens guilty the decay in fruit in connection with its strange comes from improper packing the House, and it may be so. Certainly there is less of the frivolous about him than any other member. You would no more think of Burton doing anything not set the decay in fruit in connection with its storage comes from improper packing developed today at the session of the several weeks or months as the could be sentenced only on two of them. None of the money has been recovered.

A. D. S. Cold and Grippe Cure 25c, at Eyszell's, 255 Morrison—ith and 5th.

TELLS OF COMBINE of the Agricultural Department, which it is the purpose of Secretary Wilson to send to California and afterward to Florida, where there are no refrigerating plants, to conduct experiments with fruit by cooling it immediately at the orchards. The car is said to be capable of produc-ing a temperature of 15 degrees below

zero.

A general talk on cold storage was given by Dr. Harvey W. Wiley, Chief Chem'st of the Department of Agriculture, who contended that it, was more advantageous to cool produce than to freeze it, as freezing, he said, unquestionably altered its

FOUR PERISH IN FLAMES

Nearly Whole Family Wiped Out in Early Morning Blaze.

SCRANTON, Pa., Dec. 3 -- Four persons perished early today in flames, which started from an overheated kitchen stove, burned the Shapiro block, in Priceburg. The dead are Abraham Shapiro, merchant; his son, Arthur, and daughter, Anna, and his mother-in-law, Mrs. Sarah Blatsk!.

Mrs. Shapiro was carried down a ladder and two sons saved themselves by jump-ing from windows, one suffering a frac-tured ankle. Another son came home from a neighboring town just as the roof of the building fell in and was so crazed on learning of the follows. on learning of the fate of the family that officers had to forcibly restrain him from running into the blazing structure.

Manila Strike Ties Up Boats.

MANILA, Dec. 3 .- The Coastwise Seamen's Union declared a strike today as a result of which six large coasting steamers are tied up at their berths steamers are tied up at their orews have quit. The men demand a 100 per cent increase of pay for all overtime work, and that Sunday work be paid on the overtime schedule. They also demand shorter working hours.

BEAUTY DOCTOR :

Says the New Method Increases Bust Mensurement Rounds the Arms and Neck.

(BY CLARA BELLE M.)

(From Chicago Examiner.)

"Speaking from my own personal experience and from observation of many whom I have successfully treated in the past two years. I should say that Madame Moneaux really owed her great success as a beauty specialist to the use of a simple preparation which is used exclusively to develop the bust, arms and neck. I became acquainted with this formula and have used it ever since, much to the delight of patrons.

"If your bust lacks development or firmness you can rely on both increase and firmness from the persistent use of the following: Obtain from the druggist two ounces of glycerine and compound, mix and let stand several hours then add a teaspoonful of borax and three ounces of rosewater. Shake well and apply to the neck arms and bust, rub bling and massaging until it is completely absorbed; then wash the parts treated with very hot water and soap and dry thoroughly. Apply the treatment morning and night regularly for several weeks or months as the case may require, and the most exquisite firmness and rounding out of hollow places will reward you. (From Chicago Examiner.)
