## LORDS PLAN TO REFORM

Committee Advocates Election of Peers to Legislative Body. LONDON, Dec. 4.—The report of the select committee of the House of Lords, appointed to suggest a plan for the reform of the Upper House, was issued yesterday. The committee finds it undesirable that the possession of a peerage should of itself give the right to sit and vote in the House of Lords, and it recommends that qualification should be the main test for admission to the reformed house. It then sets forth that all hereditary peers should be formed into an electoral body for the purpose of electing 200 of their number to sit and vote as the "Lords of Parliament" not for life, but for a single parliament; that the spiritual Lords of Parliament be reduced to 10, to be selected by the bishops; two archbishops during the tenure of their sees, and the other eight

## TOBACCO WAR IS ENDED

Independents and Trust Close Battle of Two Years' Standing. CINCINNATI, Ohio, Dec. 4.—Practically the closing scene and transaction in the great and bitterly fought Burleigh Tobacco war with the Tobacco Trust, during the last two years was witnessed here today, when the representatives of independent tobacco factories in all parts of the country met to apportion the tobacco secured by the Independent Manufacturers' Association from the equity society. The quantity secured by the Independent Manufacturers' Association was 25 per cent, or 20,000,000 pounds, which will be divided among the Independents. It is understood that when the work of apportioning the tobacco is concluded preliminary steps will be taken to build up and strengthen the Independent Manufacturers' Association and make of it a powerful organization to resist any further encroachments of the so-called lo-

## YELLOW JOURNALS' WORK

Roosevelt Had No Narrow Escape From Auto or Fire-Engine. WASHINGTON, Dec. 4.—Recent newspaper stories connecting the President with narrow escapes from accident by being run down by automobiles, messengers and lately by a fire engine, have resulted in the giving out at the White House of an official statement characterizing the stories as "pure inventions." The statement says: "The recent stories given out that the President had a narrow escape from accident, first with an automobile and now with a fire engine, are purely inventions. So far as the President is aware, no automobile ever came near him. If it did, the President did not notice it. "Now, as for the fire engine matter, the whole story is absurd and the newspaper reports are simply being imposed upon. The President's carriage was drawn up against the curb on one side of New

## Schilling's Best is a package tea, is never sold loose, we think too much of it.

Hamphire avenue, which is broad and which at the time was deserted. The fire engine was against the curb on the other side of the street and half a block distant when the fire engine horses fell. The fire engine could not have hit the President's carriage if it had tried. "Fire shells as gas mantles is an idea from Germany. The contents are drawn or blown out, the ends are neatly cut off, and the body of the shell is fixed in position like the regular article. The light thus emitted is very good, while the new form of mantle is durable. Your grocer returns your money if you don't like it, we pay him.
