THOUGHT THAT TOO MUCH IS ASKED FOR CITY BONDS.

Ont of \$300,000 Issue, but \$30,000 Is Sold-Another Sale Ordered for Next Monday.

Out of an issue of \$200,000 worth of im-provement bonds, the ways and means committee of the City Council yesterday committee of the City Council yesterday afternoon sold only \$30,000 worth, and awarded \$32,000 worth to City Treasurer Werlein for the municipality at par. The others hrought from 1 to 2 per cent. Another sale will be ordered for next Monday at 2 P. M., and the committee is assured that all of the remaining bonds will be sold at 1 per cent or better. It has recently been the policy of the ways and means committee to demand at least 2 per cent premium for these bonds, but it seems that there is an insufficient demand to warrant holding the figure so high, and it is understood now figure so high, and it is understood now that the committee will accept all bids at 1 per cent premium or better. City Treasurer Werlein told the members of the committee that he had been assured that, if they would accept I per cent premium or better, there will be bids to care for all the bonds left over. Councilman Cottel thereupon moved that the committee act in accordance with the statement by Mr. Werlein, and it is exstatement by Mr. Werlein, and it is ex-pected that there will be enough bids at the next sale to take over the entire

Among those who bid for bonds yester-day was the Portland Trust Company of Oregon. President Benjamin I. Cohen was present to represent his company, and made a plain statement, in which he declared that the actions of the ways and means committee of late had been unfair to bidders, in that too high prem iums have been demanded, and the plain intent of the law has been violated. He said that the committee is bound by the charter to sell to any and all bidders offering par and accrued interest, but the committee had refused to sell on that basis. He contended that the bonds are not worth, at this time, more than par and accrued interest, but Mr. Werlein challenged the statement, holding that they are well worth 1 per cent premium. He then made his statement, that if the committee would agree to accept bids for 1 per cent premium or better, there will be enough bids to take over the whole block at the next sale. He said, however, "the committee has been triffling with the city's financial standing" by holding up the bonds and refusing to sell at less than par, accrued interest and 2 per cent premlum.

A number of street contractors were present to ask that the bonds be disposed of, so they might get their money on work that has been finished, and Miller & Bauer filed a communication also ask-ing that the sale be made.

The Mayor is heartly in sympathy with the movement to bring this National trophy to the Pacific Coast. In addition to what the city authorities will do in this matter, the following letter, received by H. L. Pittock, who is a member of the committee named to work for this feature of the festival plans, indicates that the Philadelphia authorities are perfectly willing to co-operate in the matter of sending this token of the American freedom here next Summer:

DEPARTMENT OF PUBLIC SAPETY, Philadelphia, Nov. 30.—Mr. H. L. Pittock. The Oregonian, Dear, sir.—I have your letter of the 20th inst. requesting information as to what should be done to have the Liberty Bell at the Portland Rose Festival next June. I would suggest that you address a communication to the Presidents of Select and Common Councils, as it will require an ordinance of Councils to permit the Liberty Bell to leave the city. Yours respectfully, HENBY CLAY, Director.

HENRY CLAY, Director, Further details of the wide campaign of advertising which the Hill affiliated lines will carry on in behalf of the next annual Rose Festival were announced yesterday afternoon by Assistant General Passenger Agent A. D. Charlton in the following interview:

yesterday aftermoon by Assistant General Passenger Agent A. D. Charlton in the following interview:

All folders and timecards issued by the hundreds of thousands, will advertise the Rose Festival from now until the opening of the great celebration. In fact, every bit of advertising issued by the Northern Pacific, all display advertising in the local papers and all others throughout the country and all menu cards used on our diningears will bear mention of the big display that will be held here next June.

In addition to this we have already decided to use the special cards which are distributed throughout our entire diningear service for the writing down of orders for advertising the Portland Festival and the Scattle Fuir. Leaflets and inserts are syen now being printed which will be used to carry out another line of publicity work for the Festival. It should be remembered these are printed in 100,000 lots, and I venture to say that we shall be able to use at least 250,000 of them to help the Festival publicity work. Our plan is to get these leaflets and inserts out at once and distribute them to the thousands of agencies which we have throughout the United States, so that by the digit of the year, every letter written by the Northern Pacific Ralirond, no matter where or upon what subject, will contain an insert carrying mention of the Portland Rose Festival. While the Festival is being given we shall get out a appecial poster announcing special rates and the detailed programme of the daily events of the celebration.

What is most significant in connection with the plans the Hill lines have arranged for exploiting the Festival, is the fact that President Elliott devoted most of the Morth Bank President Elliott devoted most of the sax June, and he was so impressed with its excellence and possibilities that he devoted most of his addring the Festival, is the fact that President felliot devoted most of the sorten and he was so impressed with its excellence and possibilities that he devoted most of his address to

Another important undertaking upon which we are now at work is to bring every Eastern and Middle Western tourist who visits California, during the early part of the Summer to return home by way of Fortland during Festival week or to come out this way before going South. I am most emphatic in the belief that the importance of the Portland Rose Festival cannot be overestimated; it surpasses anything that has ever been given in California and will rank, easily, with the Mardi Gras of New Orelans as an event of National interest.

MORE BUILDINGS WANTED

Oregon and Idaho Y. M. C. A. Vote for Aggressive Steps.

The annual convention of Oregon and Idaho Y. M. C. A.s closed at Mc-Minnville last Sunday night; Those present at the meeting decided that it is time to take an aggressive step in these two states. It was pointed out that if Eugene can raise \$51,650 toward a new building in eight days, other cit-les can do it. Last year \$2500 was spent in pushing the association work into new cities of these two states. Next year the sum will be doubled. The state committee is to be incor-

porated in order better to care for gifts and bequests. It was also voted to have delegated bodies in place of mass conventions in future years. The state committee is to continue its poiicy of restraining immature organiza-tions from assuming obligations which they cannot meet. It is the belief of the state committee that they should not enter the field as associations until they are ready to provide adequate equipment.

Reports show that during the last year the Pocatello association has com-pleted its building. That association has as members 500 railroad men. The Payette association has a \$12,000 brick building with a paid secretary. The college association building, at Corvallis, is nearing completion and will be dedicated in January. These are in addition to the \$51,650 raised in Eugene for a new building and the eight-story steel and reinforced concrete structure now being erected in Portland. In the two states there are 15 well-organized college associations and 24 secretaries giving their entire time to the work. B. Rhodes is the executive head of work in Oregon and Idaho.

Ordered by Judge Gantenbein to Pay Back Dues for Child's Keep.

For refusing to pay \$5 a month to the grandparents of his nine-year-old daughter, whom the Juvenile Court took away from him and her stepmother on account of their cruel treatment of the child, G. H. Tucker was haled before Judge Gantenbein yesterday afternoon, and summarily or-dered to pay three months' dues by next Friday. Tucker was surly to the point of impertinence, and it was thought the Judge would have been justified in punishing him for con-tempt of court. tempt of court

Last August, on complaint of an elder sister of the child, the Juvenile Court took notice of the little girl's pitiable plight and committed her to the care of her dead mother's parents, named Fuller, at Monmouth. The child had been severely beaten and otherwise abused. The father has an unnatural temper toward his children, according to the evidence gathered by the Juvenile Court officers and the testimony presented by the elder sister.
Tucker was highly incensed last Aug-

ust by the court's interference in what he considers his private domestic af-fairs, and his anger showed itself yesterday to have grown hotter in the three months that have followed. Unless he obeys the Court and pays the required sum for his child's keep, he will be severely dealt with. Thus far he has refused to pay any attention to the mandate of the Court.

GINGER UP TOUR LIVER
You've heard of the Boss of the Blg

Lady of the House gingering the cook.
Now, this gingering is for the purpose
of better results. It is generally applied upon the appearance of the first
symptoms of deterioration in service.
Gingering the liver is to keep that
important part of the human machine
from getting clogged and impairing
the health. When the liver gets
elogged and doesn't work right, the
proprietor of that liver suffers. Bilfousness, sour stomach, indigestion,
jaundice, coated tongue, bowel troubles,
constipation, sick headache, are some
of the things from which a disordered
liver makes its owner suffer. Gingering the liver provents these troubles,
removes them when they catch one unaware. Lane's Pills will ginger up the
liver. They never pain, never gripe,
never leave any bad effects, are safe
for delicate women and children, and
one is a dose. Compounded by Chas.
