Principal Speaker at Dedication of Memorial Organ in Metropolitan Temple-Andrew Carnegle Also Speaks.

NEW YORK, Dec. 12-President-elect William H. Taft, speaking tonight at the dedication of the McKinley memorial organ in Metropolitan Temple, told the audience which repeatedly interrupted him with applause, the story of his offi-cial association with the late President, and declared with reference to the Philippine Islands that the policy laid down by Mr. McKinley in 1900 had been the policy of the present as it will be the policy of his own administration in the

White House
Andrew Carnegie and John J. MeCook also spoke.
"It was in February, 1900," said Mr.
Tafi, in relating the personal narrative of his resignation from the bench
and entry into public life, which in
eight years has brought him to the
Presidency, "that I received from Mr.
McKinley a telegram which read like
this: "If you have no other engagement, you will do me a great favor by
calling on me in Washington some calling on me in Washington some time next week."

"I did not know of any vacancy exfating on the Supreme Court bench at the time, but I went to Washington, just the same. Arriving at the White House, I was ushered into the Cabinetroom, and there I met the President, Judge, he said, Td like to have you go to the Philippines. I said: 'Mr. President, what do you mean by going to the Philippines?' He replied: 'We must establish a government there, and I would like you to help. 'But, Mr. President.' I said, 'I am sorry we have got the Philippines. I don't want them. and I think you ought to have some who is more in sympathy with the

"You don't want them any less than I do, replied the President. But we have got them, and in dealing with them I think I can trust the man who didn't want them better than I can the man who did."

"You can readily understand," con-tinued Mr. Tatt, "the feelings of a man whose only object in going to Wash-ington was in hope of finding a vacant cushion on the Supreme Court bench, to be saked to go 10,000 miles from home. But after I had talked with Mr. Mc-Kinley and with Secretary Root, I decided I would go and in a hurry.

Where Providence has thrust upon us the responsibility of a people, our duty in alding them is like that of men favored by fortune whose duty it is to help the heipless and unfortunate in the com-munity. We must continue this policy and hold the islands for the benefit of the people who live there. If we use the Philippines for purposes of exploitation or of mere benefit to us at the expense of these people, we depart from the faith and desert the base upon which Mr. Mc-Kinley would have had us carry our Kinley would have had us carry our benevolent work there to a splendid

McKinley's Part in Spanish War.

Mr. Taft told of the active part Mr. McKinley took in the direction of affairs during the Spanish War, and paid tribute to him for his hesitancy in rushing into a conflict for which the country was ill-prepared.

"Some of us seem to have such sub-lime faith in our own abilities and in Providence that they think we can whip

any country in the world without guns. Some day we may find out differently. Do you remember how martial we wer President Cleveland sent Venezuelan message? Well, we had at that time just one gun down here at Sandy Hook and that was the only gun along the entire coast line, all the Lower California to Washington-with which to fight the navy of England. But the Lord looked after us, as they say he does after children and drunken men. McKinley knew how unprepared we were, and he stood in the breach and prevented an onrush into hostilities until such time as we were at least able to cope with

Talks of Panama Trip.

Mr. Tuft gave out some further details of his proposed trip to Panama, saying he would take along several consulting engineers. This has been his custom on the four other trips he has made to the lathmus, and is for the purpose of securing information other than that given to the layman. The many stories that have recently been printed about the Canal, including one that the work would only result in failure, Mr. Taft said, "had not caused him to plan the trip, but had confirmed his inclination to make the voyage." He said he might

Mr. Taft deplored the accident on the lsthmus, and hoped the injured men would not suffer serious consequences. With reference to his interview with Congressman Burton in Washington yesterday, Mr. Taft said he had reiterated his position of keeping his hands entirely off the Senatorial fight in Ohio.

CENTENARY. Dr. Wilson Delivers Special Sermon

for Benefit of Citizen Soldiers.

Over 200 members of the various com panies of the National Guard attended services last night in Centenary Church and listened to a sermon by Rev. Clarence True Wilson, the pastor, on the topic "Is This a Christian Nation?" a question which he answered in the affirmative. Dr. Wilson welcomed the young men of the National Guard, who occupied the middle pews, to Centenary Church, and then spoke from the first ten verses of the 13th chapter of Romans, which he said had been quoted by F. J. Heney in his address to a jury in Portland, a man whom, he declared, had done

land, a man whom, he declared, had done more for civic righteousness than any other on the Coast.

Dr. Wilson reviewed the formation of the National Government, showing that it had a religious basis, and was taken from the Jewish form and from the Mosaic law. He pointed out that the original 13 colonies had had a religious basis and had been settled by people who were religious and Bible-reading people. Dr. Wilson said:

And I want to appeal to the young men

people. Dr. Wilson said:

And I want to appeal to the young men who make up the National Guard to see that the Bible has its place. It has been excluded and crowded from our public schools and other places, where it belongs and it ought to be restored. I want to say to these young men that the perpetuity of our country does not rest in the wealth or military power of the Nation, but in the morality of the country. We need to enforce the law of the land.

Here in Portland there are 12 murderers in our County Jail awaiting to be tried. Why, murder has come to be popular, so that a man who wants to live must go armed. Multiplicity of crime weakens the public conscience so that here in this city it is almost impossible to get a jury that will convict a murderer. Duty as a juror or a
