Report of Revolution Said to Have Caused Action by Uncle Sam.

DUBUQUE L'EAVES HAVANA

Minister Corea Says There Might Be Some Friction, but Does Not Believe Revolution Is in Progress in Southern Republic.

WASHINGTON, Jan. 3-Reports of expeditonary movements in Central America have led to a close watch of the situa tion by the Washington Government and, acting under orders from the Navy Department at the request of Secretary Root, the gunboat Dubuque today sailed from Havana for Bluefields. The Dubuque will touch at Key West for supplies. Her presence in the neighborhood of Nicaraguan territory will have a redssur-ing effect in the event that any trouble urs in that section.

At the State Department it was stated that there was no fresh advice from Central America and no official explanation of the gunboat's dispatch to Nicara-guan waters was forthcoming. Senor Cores, the Nicaraguan minister, said there might be some friction, but that he did not believe that there was any, revolution forming.

Reports connecting John Molsant, of Salvador, with a revolutionary organiza-tion claimed to be fitting out in Nicaragua against Salvador, attracted some atten-tion here. It was recalled that he is one of the two men claiming to be naturalized American citizens who were imprisoned in Salvador and whose lives were barely saved through the intervention of this Government

MOTSSANT IMPORTING ARMS

Salvador Politicians Said to Be Preparing Filibustering Expedition.

SAN FRANCISCO, Jan. 3.-That a revelution in Salvador is impending was the opinion expressed by several passengers on the steamer Acapulco, which arrived today from Central American ports. According to some of the pussengers, it was freely reported that John Moissant, who was alleged to have taken an active part in the uprising in Salvador a year ago and has for some time been a thorn in the political side of that republic, is preparing a filibustering expedition. Moissant's agents, it was said, bought for the expedition whose said, bought for the expedition whose Sin Hombus him the gasoline schooner Sin Hombre, which was towed from Panama to Cor-into by the Acapulco on her last voy-age. The vessel, it was reported, is to be used to carry arms for the revolu-

OFFICERS ARE DECIDED ON Clagstone for Speaker and Hart President of Senate.

BOISE, Idaho, Jan. 3 .- The tenth session of the Idaho Legislature, which convenes at noon tomorrow, will elect a United States Senator, Representative
Paul Clagstone will be installed as
Speaker of the House and Senator J. W.
Hart will be gelected as president pro
tem of the Senate.

The Legislature is overwhelmingly Remobile insuring the election of a mem-

publican, insuring the election of a mem-ber of the party as United States Sen-ator. Senator Weldon B. Heyburn was indorsed by the Republican state convention, but during the past few weeks ru-mors of an insurgent movement have been rife and Senator Heyburn is now been rife and Senator Heyourn is now hastening from Washington to Bolse to give personal attention to his candidacy. The principal fight during the session will be over local option. There is strong opposition to it, and the present outlook is that it will be defeated through a company of the property of county of the property of county of the property of the prop promise on precinct instead of county unit lines, as pledged in the Republican

Governor James H. Brady, in his in-augural message, will recommend enact-ment of local option and direct primary laws and a Public Utilities Commission instead of a Railway Commission.

CALIFORNIA SENATOR CERTAIN OF RE-ELECTION.

Anti-Race Track Gambling Bill Will Be Most Important Measure Before Legislature.

SACRAMENTO, Jan. 3.-That United Sacramento, Jan. a.—Inst United States Senator George C. Perkins, will be re-elected by the California State Legislature, which convenes next Tuesday, is considered practically certain by the members of both houses who have already arrived at the State Capital. While the Democrats increased their membership somewhat in the November election and in their opposition to Persection and in their opposition to Persection. membership somewhat in the Novalides, clection and in their opposition to Perkins will be supported by a few independent Republicans, the regular Republican organization's forces have an overwhelming majority in both branches of the Legislature.

the Legislature.

The effort that will be made by the Legislature to wipe out the racetracks in California, so far as bookmaking and pool-seiling is concerned, looms up on the horizon as the bitterest and hardest fight of the session. Both the anti-racetrack gambling forces and the friends of the "sport of kings" are early on the ground, lobbying for and against the

proposed measure.

Among the more important legislation this session will be the enactment of a direct primary law, as authorized by the recent general election; and the passing of several banking bills providing for a safer and better banking system in the state, as recommended by the special legislative investigating com-mittee authorized by the list Legisia-ture and appointed by the Governor.

FORESTRY WORK IS COSTLY

Congress Not Likely to Increase Appropriation.

OREGONIAN NEWS BUREAU, Washington, Jan. 3.—Congress is not likely, this session, to increase the appropriation for the Porest Service \$2,000,000 over what was appropriated last year, notwithstanding the plea made by Forester Pinchot. There is considerable feeling in Congress, and especially among Western men, that the Forest Service is branching out too rapidly, and is fast becoming one of the most expensive bureaus of the Government. ment. Then, too, there are a number of western Senators and Congressmen who passing the 4000 mark, the lab are not in sympathy with the forestry policy, and who would like to retard forestry work as much as possible. These two elements will combine this season to hold down the appropriation for the Forest Service.

Forest Service.

The probabilities are that the appropriation for the forest service will this year be just about what it was a year ago. The service is becoming more and more self-sustaining as its revenues increase, and this further fact will be urged as justification for not increasing the direct appropriation for forest patrol and reserve improvements.

Storm Delays Jetty Work.

FORT STEVENS, Or., Jan. 2.—(Special.)—Owing to the violent storm at the mouth of the Columbia River, it was found impossible to complete all outside work on the Government jetty by December 31, as previously reported. In order to obtain shelter, the last rock barge was delayed four hours and forty minutes. This unavoidable delay necessitated the retention of the working force of one dock for one day, January 2, at a double scale of wages.

San Francisco Labor Leaders Give Him Support.

HOLD OVERFLOW MEETING

Telegram From Gompers Is Greeted With Cheers - Speakers, All Prominent in Bay City, Are Self-Contained.

SAN FRANCISCO, Jan. &-At a labor mass meeting today that jammed the Labor Temple to the doors and made it necessary for the speakers to repeat their remarks to an overflow meeting in an adjoining room, the total attendance of this city declared their sympathy for Samuel Gompers, Frank Morrison and John Mitchell who were sentenced to imprisonment recently by a District of Columbia court for contempt, and whose conviction has stirred labor circles throughout the country.

The big gatherings today were thor-

oughly orderly but enthusiastic. The speakers, all of them prominent labor leaders of the city, were self-contained and did not indulge in any vilification of the courts, though they dwelt at length on what they declared to be the danger to popular form of government that lies in the misuse of the injunctive

power by the courts.

Resolutions declaring it the determination of labor unionists in this city to give Gompers, Mitchell and Morrison both moral and financial support, taking equal risk with them in so doing, were unanimously adopted.

The following telegram, received from sompers, was greeted with prolonged Andrew J. Gallagher, secretary labor mass meeting. San Francisco: In the struggle for justice the men of labor stand for human freedom for all the people for the perpetuation of our Republic, not only in form but in fact. If in that struggle of the ages men must suffer, as great and good men have suffered before, then so be it.

Confident Principle for Which He Must Suffer Will Win.

NEW YORK, Jan. 2.-At a mass meeting of the Central Federated Union there was read a letter from Samuel Gompers commenting upon the prison sentences imposed upon John Mitchell, Frank Mor-rison and himself. The letter says:

The letter says:

"I believe I am right in saying that the great mass of the liberty-loving American people are with John Mitchell, Frank Morrison and me at this crucial time in the effort we have made and are making to maintain the principle of justice and right, and the constitutional guaranty of the freedom of speech and of the press.

"Regardless of results we are confident that the principle for which contend,— and for which we may suffer—will be reand for which we may suince—win be re-stored, maintained and permanently guaranteed to all our people, the workers included. Temporary inconvenience or suffering of any one or of a few men, is of lesser importance than the establish-ment of equal justice to all the people of our republic."

The cost of interments has been greatly reduced by the Holman Undertaking Company.

Heretofore it has been the custom of funeral directors to make charges for all incidentals connected with a funeral. The Edward Holman Undertaking Company, the leading funeral directors of Portland, have departed from that custom. When casket is furnished by us we make no extra charges for embalming, hearse to cemetery, outside box or any services that may be required of us, except clothing, cemetery and carriages, thus effecting a saving of \$25 to \$75 on each funeral.
