Ambassador Griscom Suggests Chartering Ships by Cable.

Suez Canal, or of naval supply ships crossing the Atlantic. The need for help is immediate, and how that help can be rendered is told in the cablegram dated at Rome, which is as follows:

January 2. I have today drawn on you for \$19,000 and paid equivalent to Red Cross in two sums. \$50,000 from American Red Cross and \$90,000 from Christian Herald.

I have today seen president Italian Red Cross, who desires me to inform American Red Cross as follows:

Problem of relief very vast. Includes feeding and clothing destitute and quickly removing the surviving population from the stricken districts to other parts of Italy. Transportation involves special difficulties. Much money is needed, but if America desires to offer practical aid immediately a ship could be chartered by telegraph at Marsellies of Gence and loaded with biankets. In response to the suggestion of the Italian Red Cross Society that a vessel migth be loaded at Genoa with provis-lons and sent to the scene of the earthquake disaster, thus giving quick relief to the destitute, the American Red Cross tonight cabled \$150,000 with the suggestion that it could be used by the Italian Red Cross Society for the purpose of fitting out a ship with provisions and m ical supplies. This amount is in addition to the \$100,000 and the \$70,000 pretion to the \$100,000 and the \$70,000 previously sent by the American Red Cross.

By sending the money, instead of undertaking to provide for the shipment of
supplies, the American Red Cross adopted what it regards as the best method
of meeting the emergency. They believe
that the Italian society will be able to
make these arrangements more promptly
than could be done by anybody else.

She held up many weary heads and administered medicines and cordials with her own hands and gave biscuits to the children. She was called "Our Lady of Mercy."

Another side of the Queen's character was shown on Friday evening when a slight earthquake shock caused a great panic among the patients in an improvised hospital. The Queen was first to realize the danger from panic. Placing her own person as a barrier to prevent a

McArthur Gets Support of Marion County Solons.

HIS CHANCES ARE GOOD

Fight for Control of Both Houses of Legislature Waxes Warmer as Time of Session Approaches, and Candidates are Busy.

What amounts to an open split in the Marion County delegation occurred yes-terday when L. T. Reynolds and S. A. terday when L. T. Reynolds and S. A. Hughes, the two anti-Statement members from that county, announced they would support McArthur for Speaker. This action of Hughes and Reynolds amounts to a repudiation of their colleague, Patton, Statement aspirant for the Speakership. The anti-Statement forces contend that the accession of these two men to the McArthur people is a substantial boost to their man's candi-dacy. The Statement people reply by saying that Hughes and Beynolds from the start were counted as supporters of McArthur, particularly so after the Bean people failed to make good on the pro-

posed 40-caucus. At the beginning of the contest Hughes lined up with Bean, of Lane. Hughes stayed with the Lane County man until after the caucus deal proved unsuccess-ful. Late last week Hughes wrote Bean, saying that he could not longer support Bean; that he had decided to go to Mc-Arthur along with his colleague, Rey-nolds. In reply to this letter, Bean wrote Hughes thanking him for his support and assistance. Reynolds signed the original caucus call, but refrained from committing himself on the question of Speaker. Several days ago both Hughes and Reynolds signed the call for a Si-caucus, which is being advocated by the McArthur forces,

Politicians Swarm to City.

With only a week intervening until the Legislature meets, several of the members-elect from the interior counmembers-elect from the interior coun-ties are reaching the city, and activi-ties in the organization fight for con-trol of the two houses are increasing in the same proportion. Developments are expected daily that will go far toward deciding the result, both in the Senate and the House, including the conference of the standpat-anti-caucus Statement Representatives, which is

scheduled for next Friday.

Senator Bowerman, leading candidate for President of the Scante, was out for President of the Seante, was out of the city yesterday, being called to Hillsboro by the illness of his wife. During the day, Senator Kay, of Marion, who also has his eye on the Presidency, was in the city conferring Presidency, was in the city conferring with other members of the upper house who spent the day in the city. Senator Beach, of this city, who would serve as presiding officer of the Senate, if Bowerman and Kay fail to make good in the caucus that is assured, was also buttonholing some of the Senators who will have a voice in making the selection. During the day Beach and Bailey, of the Multnomah delegation, and extion. During the day Beach and Balley, of the Multnomah delegation, and exSenator Hodson held a conference with Johnson, of Benton County, in the interest of Beach's candidacy. They also held a meeting with Kay, but it is said derived very little satisfaction from the Marion County man. Kay, while not a

Marion County man. Ray, where not a particularly aggressive candidate, is recognized as a factor in determining the Presidency fight, and the other candidates are leaving no effort untried that will serve to cultivate his acquaintance. Other Candidates Busy.

Representative-elect C. N. McArthur, who, his friends declare, is the invin-cible candidate for Speaker, was also until today. During his absence Mc-Cue of Clatsop, and Patton of Marion were exceedingly busy. Both were in the city, and they were putting in their efforts where it was believed the best results could be accomplished. Patton spent the greater part of the day with

bers from this county, on whose sup-port he is depending in his race for Speaker, despite the fact that several of the delegation are openly working for Bean, of Lane.

Patton is said to have corralled at Salem McDonald, one of the Statement men from this county, and it is said an effort will be made to detain the Multnomah County man within sight of the state Capitol until the hour for assembling the Legislature arrives. Mc-Donald is a decided enigma, not only to the Statement people, but to the oppo-sition as well. He has been on all sides and identified with every organization scheme that has yet been proposed for the House. First he entered into a signed agreement to participate only in a caucus of Statement members. But he did not stay fixed, and less than two weeks ago repudlated that agreement and announced that he would support McArthur for Speaker. But he did not remain long with the anti-Statement

Some irresistible influence apparently was then brought into play, and the vacillating young lawmaker from this county was next heard from at Salem proclaiming the many virtues and splendid qualifications of Patton, an avowed Statement-anti-caucus man, for the Speakership. Just what will be Mc-Donald's next move, neither side is willing to place a very heavy wager.

Among the out-of-town Senatorselect frequenting the Imperial Hotel corridors yesterday were: Barrett and

WASHINGTON DOCTOR WANTS FUNDS FOR SANATORIUM.

Dr. Ghent, of Seattle, Will Ask Legislature for Appropriation to Fight Tuberculosis.

Unless the plans and hopes of Dr. J. A. Ghent, of Scattle, fall, the State of A. Ghent, of Scattle, fall, the State of Washington will soon have a state sanatorium for the treatment and cure of tuberculosis. When a physician mixes medicine with politics, especially a doctor like Dr. Ghent, something good for mankind will surely result. Dr. Ghent was at the recent election held in Washington, elected-to the Legislature from the Fourty-fourth District, and the first thing that he will do when and the first thing that he will do when the Legislature convenes is to intro-duce a bill asking for an appropriation of \$150,000 for the purpose of purchas-ing a site and erecting a building for a

Dr. Ghent came to Portland yesterday with some friends, who were on their way to California, and today he will pay a visit to Portland's Open-Air Sanatorium and confer with local phy sicians who are interested in fighting the "white plague." He has brought with him a draft of his bill, and he Woods, of Washington; Merryman, of Crook, Klamath and Lake; Parrish, of

"I shall take advantage of my short visit to Portland," said Dr. Ghent, last night, at the Oregon Hotel, "to visit your open-air sanatorium and talk with a num-point sanatorium and talk with a num-point sanatorium and talk with a number of physicians whom I know. I have drafted a bill which I shall introduce just as soon as the Legislature convenes which has for its object the construction of a free tuberculosis sanstorium. On every hand I have met with the greatest every hand I have met with the greatest encouragement and I firmly believe the appropriation of \$150,000 which the bill calls for will be passed. It will be known as the Washington Tuberculosis Sanatorium and we hope to care for and cure as many indigent tubercular patients as we can. The board of trustees will be made up of five members to be appointed by the Governor and two of the members of the board must be regularly practicing physicians.
