Italian Disaster Calls for Faith, Says Pastor.

REFERS TO JOB'S TRIALS

Lesson That All Men Arc Brothers Is More Clearly Realized in Face Great Tragedy, De-Dr. Young clures

The earthquake in Italy was the theme of Dr. Benjamin Young's sermon last night in Taylor-street Methodist Church. As an explanation of God's part in such catastrophes Dr. Young said that the disaster presents no new problem, that suffering and death do not militate against the great truth of God's fatherhood; that white law operates on all sides, underneath all is the divinity who loves and saves.
The speaker also referred to the evidence to Italy the recent calamity has afforded of the sympathy feit by the people of every nation.
Dr. Young concluded his sermon by

urging his congregation to contribute generously to the relief fund for the unfortunate inhabitants of the earth-quake zone. Said Dr. Young:

Sermon by Dr. Young.

Sermen by Dr. Young:

Sermen by Dr. Young:

The news of this disaster from across the seas forces us to reflection. We scan the pages of history to see if there is anything recorded just like it. We look up the facts of the great entestrophes. Others have suffered toe. Again and again men have been feared toe. Again and again men have been feared to again per and the experiences. Look upon the faus of the experiences these uphen wals of recent times. These great depressions upon the earth's surface, these glant peaks rearing thomselves up the peaks rearing thomselves up the serves of the forces working in some large end.

This knowledge which the daily gress has brought to us has put us in a serious mood. We are awed by the sense of our total forces working in some large end.

These are wonderful possessed of pare dignity, in the presence of some of the forces working in some fools and the mighty lightnings, the realing floods and the mighty lightnings, the realing floods and the mighty lightnings, the realing floods and the mighty lightnings will be said about the foods gratilly to a six, how we reconcile the destruction of life and property with the presence of the fire the effort to the light of the destruction of life and property with the great book of light on the maintain realing for life down and threats a flood of light on the maintain of life in the desarration of the sound of life in the desarration of life in the effort to the life in the flood of light on the declared a visit of life in the flood of light on the order of the life in the flood of light on the declared

Men are prethron and carry with-

Dr. Benjamin L. Young, Who Prenched on Italian Disaster.

ASKS HELP FOR SUFFERERS

Dr. Dyott Says This Is a Time for All Nations to Give Aid.

Before beginning his sermon last night in the Ford Congregational Church, Dr. Luther E. Dyott urged his congregation to contribute generously to the fund for the Italian earthquake victims. The idea that the calamity was intended as a punishment was ridiculed as absurd and abominable. Nevertheless, he declared that one should not conclude that nature is altogether beyond the hands of God.

Admitting that there is much in the natural realm that is not understood. Dr. Dyott believed that the time would come when earthquakes could be fore told as accurately as eclipses. Dr. Dy-

Rev. H. M. Ramsey Induced to Remain at St. Stephens.

TENDERS HIS RESIGNATION

Bishop Scadding, However, and Him to Remain as Pastor, if Given Stronger Support.

Much surprise was expressed yesterday at the services in St. Stephen's Pro-Cathedral when Bishop Scadding announced that Rev. H. M. Ramsey, rector of the parish, had resigned but had been in duced by him and the members of the vestry to recensider his decision and had decided to remain with the parish provided that he was accorded mere gen eral support on the part of the people in the way of attendance at the services and a larger interest in the work of the parish

time is all the more remarkable by reason of the fact that St Stephen's is con-sidered to be one of the most progressive churches in the diocese. Its membership has steadily increased and only recently the church building was enlarged and improved. In the absence of Mr. Ramsey, Bishop Scadding conducted the services yesterday and in speaking of the rector's action referred to the various undertak ings which have been successfully carried out by Mr. Ramsey, of his ability as a preacher and organizer, and urged the parishioners to accord their vicar hearty co-operation. Said Bishop Scadding:

Is a Free Church.

Let me schearse some of the things for which this Pro-Cathedral stands and for which the pro-Cathedral stands and for which we must gird up our loins and work. This is a free church. It stands for Christian democracy in the best sense. This is the Father's house, and every child of his is welcome to share its privilesces, but he must also share its privilesces, but he must also share its responsibilities according to his ability. A free church is not where religion costs nothing. It costs everything to the Son of God, and a religion that costs a man nothing is not the Christian religion. If a church cannot teach self-sacrifice, and the bearing of one another's burdens, it might as well close its doors. Brones are distinctly not welcome here. The teaching of the widow's mite still holds good. We welcome such offerings. But the problem of maintenance is a serious one, and I am sure that no one here is going to shirk his or her duty in this respect. Your help is needed more than ever now. Our system of maintenance throws every man back on his own conscience, so that such size his one had the such size himself. "Am I doing all I can, regularly and systematically?"

Again this Pro-Cathedral stands for reverent and beautiful worship. This is true of our branch of the church as a whole, but the prayer book concerns itself almost exclusively with verbal expressions, and leaves the crest largely to individual clergy. The prayer book provides only the words to be said, and a work few offer directions. But the spicit of worship is expressed in action as well as in words, and is apprehended by the eyes as well as the ear. So there comes in the use of ornaments, restments, decorations. Thus music, art, architecture are made handmaids of religion, and the talents of many different persons are thus consecrated to the service of God. Every word and every act of worship should express what is in the heart and mind of the worshiper. This outward expression in public worship should have fail below, or even to t Is a Free Church,

to God, and a reproach before men. Re-alize your duty in your parinh, diocese and general church.

What the parish does in the future de-pends entirely upon what each individual member does and is. Underlying all these things for which the Pro-Cathedral stands has personal hollness of character. With-out this all our strength will be weakness; with it our weakness will be strength. Therefore I beg you to hold up the hands of your vicar in everything which concerns the weifare of this parish. Pray for him that he may be guided in the task laid upon him. Pray for each other and pray for your

SECRETARY STONE DESCRIBES BILLY SUNDAY'S MEETINGS.

Fortland Man Returns From Spokane With Words of Praise for Baseball Evangelist.

At the men's meeting yesterday after-

noon in the Y. M. C. A., Secretary H. W. Stone gave his impressions of the revival meetings being held in Spokane by Billy Sunday, the evangelist. Mr. Stone was in Spokane Sunday and Monday of last week and was deeply impressed with Mr. Sunday's powers as a revivalist.

"I went to Spokane," said Mr. Stone, "expressly to hear Billy Sanday, and I was not disappointed. He is a revival.

was not disappointed. He is a great man With the possible exception of Mr. Bryan, Mr. Sunday has addressed more people than any man now living. He has re-fused to speak in the larger cities. Chicago and San Francisco have invited him several times; but he prefers to work in the amaller cities. There len't a hall large enough to hold all the people who want to hear him. At Spokane he had an audience of 9500 people, and

he had an andersee of now people, and hundreds were turned away.

"He is a wonderful man. Trying to tell about him is like trying to describe a sunset. Everybody goes to hear him. You sail probably know that he was a baseball player—a good baseball player, too. He resigned in order to go into Y. M. C. A. work. He week the need to the like the probability of it. Billy work. He uses slang-lots of it. Billy Sunday beats them all when it comes to slang. A Bowery tough would envy him. It's the slang of the great West; not the slang of the Bowery.

"Don't think for a minute that his sermons are not more than strings of racy talk. You can drain that off and then to:Tic you find words of deep inspiration and power. He preaches like a ballplayer. It makes you think of a game with three men on bases and a man running home.

Bay reached the Columbia an hour after the sailing vessel.

The average time required by steam schooners to make the run is between 65 and 70 hours. Sailing vessels require as a rule from six to twelve days. The steamship Homer, which arrived up yes-terday morning, required 68 hours to make the run and that is a record-break-

ing voyage for that craft.
The steamship Breakwater, from Coos
Bay, made a ratting good trip up the
coast. She was fast at Ainsworth dock in Portland yesterday morning at 11 o'clock. Capt. MacGenn crossed in over the Columbia River bar at 1 o'clock the morning and was in Astoria at 2. The Breakwater left up at 2 o'clock.

Fleet Gathers at Eureka.

Three steamships of the North Pacific Steamship Company were reported to have arrived at Eureka yesterday. They were the Geo. Elder, north bound from San Pedro; the Eureka, from Port-land, for Eureka via Coos Bay and the Roanoke for San Pedro, from Portland. It is a very unusual thing for the ships of this line to meet at this port. The Roanoke probably met bad weather as she was slow in going down the coast,

Maverick Brings Gasoline. The Standard Oil steamship Maverick, Captain Daniels, arrived at the Portsmouth tanks yesterday morning with 16,000 barrels of gasoline. The vessel was pumped out and ready to leave down by 3 in the afternoon, Captain Daniels came up to Portland, entered and cleared the ship and will cross out to sea this morning.

Teas and Silks From Orient.

VICTORIA, B. C., Jan. 3.-The steamer Monteagle, of the Canadian Pacific, which reached port yesterday from the Orient, brought a cargo of about 4000 tons, including 350 tons of silk valued at \$750,000; 500 tons of ten and 300 tons of goatskins. There were 66 passengers including several Chinese students brought to American colleges.

Carmanian Arrives at Astoria, The British ship Carmanian, from Hamburg, via San Francisco, arrived in at Astoria yesterday afternoon. The vessel has been off the mouth of the river for several days awaiting an opportunity to cross in. She had been out from the Callfornia port since December 15 and was a

## HOW TO BREAK UP A BAD COLD

A REMEDY WITHIN REACH OF ALL.

Pleasant and Safe to Take---No Loss of Time---All Danger of Pneumonia Avoided.

It may be a surprise to our readers to

learn that a severe cold can in many in-stances be completely broken up in one or two days' time. To do this, however, prompt action is necessary. The first symptoms of a cold are a dry, loud cough, a profuse wat-ery discharge from the nose, and a thin white coating on the tongue. When Chamberlain's Cough Remedy is taken in double doses every hour after the first appearance of these symptoms, it, will counteract the effect of the cold and restore the system to a healthy condition within one or two days' time, in almost every case, and when the cold is not completely cured in this time, its severity will be greatly lessened and a complete cure insured in a very short time. When no action toward curing the cold is taken, the dry, loud cough is followed by a profuse watery expectoration, and that by a difficulty in breathing, a peculiar tightness of the chest and a slight expectoration of very tough and tenacious mucus. Few persons pay any attention to a cold until in this condition, that is, until the cold has become settled in the system. The first action should be to relieve the lungs. This is best accom-plished by the free use of Chamberlain's Cough Remedy. This remedy liquelles the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the secretions. A complete cure soon follows. In some cases, however, several days are required, but the experience of thousands of persons in the use of this remedy has been that it will cure a severe cold in less time than any other treatment, and that it leaves the system in a natural and healthy condition. This remedy also prevents a cold from resulting in pneu-monia. Price 25 cents, large size 50 cents.
