TRIAL FOR DISMISSED MAN

Reform Movement Greatly Aided by Recent Action, Says Banished Diplomat, and Foreign Interference Not Desired.

PENANG, Straits Settlement, Jan. 8.— In an interview here today Kang Yu Wel, the well-known Chinese reformer who was expelled from Pekin after the coup detat of 1888, declared that Yuan Shi Kai had been dismissed from his high posi-tion as member of the grand council of

tion as member of the grand council of the Chinese Empire because he was instrumental in the death of the late Emperor, and that he probably would be placed on trial for his connection with the matter.

"The result of this trial will convince foreigners that Yuan Shi Kai instigated the murder of the lata Emperor," Kang Yu Wei declared. "His dismissal will work for the good of the constitutional party; the constitution will no longer be delayed. I oppose foreign intervention in favor of Yuan Shal Kai; that matter is one for China to settle alone. The regent, Prices Chui, controls the army and is introducing reforms."

Since his expulsion from Pekin ten years ago Rang Yu Wei has been instrumental in directing the reform movement in the Empire from various places

POWERS NOT TO INTERFERE

### No Action by Diplomats - Tang Shao Yi to Be Recalled.

PEKIN, Jan. 8.-Tang Shuo Yi, who is at present in Washington on a special diplomatic mission from the Chinese Gov-ernment, has been recalled to Pekin. He will return by Europe, leaving Washing-

ton immediately.

The American and British Ministers here have abandoned their project to units the various powers in a project against disturbing the present policy of the Chinese Government, which is thought to have been initiated in the dismissal from office last week of Yuan Shi Kai, a member of the Grand Council, and this phase of the question is now regarded at an end. The mission of Tang Shao Yi has been enormously expressive, and in some quarters here his summary recall is regarded as giving color to the reports that charges of extravagance have been lodged against Yuan Shi Kai.

Tang Shao Yi started on his mission last Fail, under the auspices and with the approval of Yuan Shi Kai.
