Matters of Small Import Are Given O. K. by Opposing Leaders.

LIBERALS DEAL OUT PLUMS

Secure Advantage by Adding to Membership of Committees, House Adjourns Over Limit. Effort to Correct Error.

OLYMPIA, Wash., Jan. 15 - (Special.)-Practically a truce on matters of minor importance has been arranged by the op-STATE'S BEST WITNESS IN MACK posing forces in the Senate, the leaders in the movement for the passage of moral legislation heading one combination and the liberal members the other. In the former, Paulhamus and Metcalf, of Pierce, and Falconer, of Snohomish, are the leaders, and Allen, of King, Smith of Sno-homish, and Ruth of Thurston, the other, As a result of this truce, one resolu tion appeared in the Senate this morning with the notation, "O. K. Paulhamus' at the botton, and another resolution introduced by the radicals was followed by the notation, "O. K. Ailon." The reading by the cierk of the indersements was greeted by laughter and both resolutions

passed without opposition There has been no test in the Senate as which element will control legislation and attempts to check up out of session indicates that the vote will be close.

Liberals Have Advantage.

As now indicated, the combination rmed by the liberals will have a majority of three or four in matters where the leadership of the Senate only is at stake, but it is probable that on a strict test as to the progress of the anti-rac-track gambling bill or the local option bill, their alignment will not be strong nough to control.

The Paulhamus-Metcalf combination has majority in the committee on rules and committee on public morals and now claims a majority in the judiciary com-mittee by an increase of that committee from 11 to 15 members. The original committee stood 7 to 4 against pro-gressive legislation, but the radicals claim all the four new members, giving them a majority of one. The judiciary com-mittee has the anti-racetrack gambling bill and the public morals committee the anti-racetrack public morals committee he anti-saloon league's local option bill which was introduced in the Senate to-day by Falconer, of Snohomish. The liberal faction has secured the best end of the Senate patronage.
