Recommended that 750 feet of hose for Richmond, Woodlawn and Portamouth be purchased for each of these places, where volunteer companies will be organized.

One new engine each for Fulton and Sellwood.

Operating expanses, \$377,000; total new houses and equipment, \$116,000. No houses or equipment in vicinty of hospitals, at Fourteenth and Montgomery streets or East Twenty-second and Thompson streets, where lots have already been purchased.

The ways and means committee of the City Council yesterday afternoon made up its report as to appropriations for the Fire Department during this year, apportioning \$115,000 for new apparatus, buildings and ground and \$377,000 for operating expenses. Mount Tabor, North Albins and Third and Gliaan streets were decided upon as locations for new station-houses; a new brick house for Willfams avenue and Russell street and 750 feet of hose each for Richmond, Woedlawn and Portsmouth is recommended, as well as a new engin-for both the Fulton and Sellwood com-panies. No funds are available for en-gins-houses at Fourteenth and Montgomery: In the vicinity of the hospitals, or at East Twenty-second and Thomp-son streets, where the city owns the secessary ground.

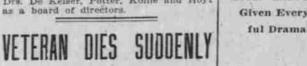

Delegations were present from Mount Tabor and Montavilla, all uniting in a petition for at least one engine comany, and a committee from North Ala member of the ways and means com-mittee, also appeared. That it pays to have representation at meetings where appropriations are made, is borne out by the fact that both Mount Tabor and North Albina got what was asked, as did also the vicinity in which is located engine No. 8, represented by Councilman Menefee, while the districts unrepre-sented got little or nothing.

DECRIES MODERN CHURCH

DR. GEORGE SOLTAU, OF LON-DON, ADDRESSES MINISTERS.

Declares Abandonment of Primitive

Religion Injurious-Dr. Poling

Reports on Parks.

Dr. George Soltau, London evangelist, told the Evangelical United Brethren Ministerial Association yesterday morning at its meeting that the reason th church of the present century has failed to reach the people is because of abandonment of primitive religion and 30 substitution of modern methods. He declared that the pulpit represents mainly "Christian Socialism," and not the re ligion of Jesus.

'The old-fashioned methods." he said. "the old-styled hymns and simple gos-pel have given way to the modern methods that are more popular, and cheap music has given place to the old hymns that were so full of spiritual meaning. Lack of belief in the supernatural, change of views of the Bible, new views, modern methods and total lack of ac-countability, which have been substitut-ed in response to nonular demand have

Grand.

THE GRAND this week is like a combination salad one sees occa-

sionally on the bill of fare-a bit of what you like, some of what you don't like, and medium seasoning. But, all

in all, it's a good bill, and seems to the patrons.

Halliday and Curley are the leading features and are far and away ahead of any act of their kind that has been here. They are polite, gentle, com-edians, of the Chesterfieldian school, and their act, a military travesty "The Battle of Too-Soon," is a salad of roars

and fun. A trio of busy folk-the two Connollys and Wenrich-are seen in a melange of mirth, melody and song, with some dancing thrown in for extra measure. Wenrich is the composer of several song hits, his latest perpetra-tions being "Rainbow," and "Naughty Eyes," both of which are sung during this act by the girl Connolly, who, by the way, dances very much better than

One of the hits of the bill is Girdel-ler and his troupe of trained dogs. These are four in number, a curb-stone These are four in number, a curvatone setter, of mongred derivation, who an-swers (when he chooses) to the appro-priate name of Swift, and a Pomeran-ian, who has all these white canine muffs who parade Portland's streets skinned a city block for looks and manners. The others are just as clev-er; one, a fox terrier, takes the house

by its ears, and the other one is a ragged little Skys terrier who has more sense than some people. The act is so | interest. Pantages.

THE best thing on the bill this week at this popular playhouse is, of ourse, the feature act, Thalero's pontes and dogs. There are three handsome well-trained Shetland ponies, five clever little fox terriers and one lonely stub-born jassack in this contribution, under the seemingly sufficient guidance of the

bespangled Thalero. McCune, a clownish horizontal bar ar-tist, aided and abetted by a slender damsel who dances gracefully, gives a very good act. His work on the bar is especially worthy of note. A team who call themselves prattling

pals, Kresko and Fox, present a rapid-fire paroxysm of English, interspersed with a few lokes, some of which are new and a great many of which are in the last stages of senile debility,

Hedges and Launchmere are a colored couple who give burlesque opera selec-tions, followed by imitations of two peo-

ple on board an ocean liner. A one-act comedietta entitled "Twins" is presented by the Hickman-Miller Company. The plot, which is not noticeably heavy, is all about two brothers, Louis and Llewellyn Barrington, who have not

seen each other for t-w-e-l-v-e long y-e-a-r-s. James and Kitty Brady present an act that has several new features, one song particularly, "Men and Women," being new and possesses the distinction of being humorous and clean. Kitty is a lady of society, with a giddy hat and evening dress, and James, who does some cleve steps, is dressed as a tout.

Jean Wilson is this week singing "True Rue," which is being presented with artistic new slides.

Five Years

of Heart Trouble Cured by Dr. Miles' Heart Remedy

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had pains in my left side, and under my shoulder blade, could not sleep on the left side, and was so short of breath the least exertion would bring on the most distressing palpitation. I had scarcely taken a half bottle of the Heart Remedy before I could see a marked change in my condition. When I had taken six bottles I was cured."

> MRS. C. C. GORKEY, Northfield, Va.

If there is fluttering or palpitation it is an indication of a weakness of the nerves and muscles of the heart. It is not necessarily diseased-just weak from over-work. The heart may be weak just the same as the eyes, stomach or other organs. You can make a weak heart strong by taking Dr. Miles' Heart Remedy. Get a bottle from your druggist, take it according to directions, and if it does not benefit he will return your money,
