article and the market is likely to be encome. The factories at Tillamonk are set making anything because the foads in that section are in such condition that they can do no hauling. There is no prospect, therefore, of getting any new cheese from hat place for 40 days. Jobbers and others re compelled to draw upon storage stocks. for which the demand has suddenly bene strong. The inquiry, however, at the present time is entirely local, there being but little disposition on the part of outside markets to use Oregon cheese. Prices have not been changed.

Butter is quoted all the way from 54 to 29 cents with the bulk of business at 37 cents, which appears to be the current narket value. The undertone, however, is said to be easier, as stocks are accumulat-

HIGH PRICES OFFERED FOR WHEAT. Bluestem and Also Club Are in Demand.

Oats Strong in Country. Firmness prevailed in nearly all the grain markets yesferday. In the wheat market the demand was good for both stom and club. A sale of bluestem at \$1.05 was reported. This price was offered for a large lot and an offer of \$1.06 was also made. There were offers as high as of cents for good milling club.

There is a steady inquiry from Callformin for onts at better prices than offered recently, but they do not come up to the figures current here. In fact, the local market itself is under the interior market and as a result very few outs are eming this week. The receipts of cats for the week to date have been only eight ears and last week only three cars arrived. Barley is steady with a moderate

There is much interest in the probable movements of the British steamer Katanga, now at Manzanillo, Mexico, and listed for this port. It has been known for some time that she was chartered to take out a wheat cargo and it is now believed her destination will be Mexico.

PRICE CHANGES ARE SMALL

Professionals' Efforts to Attract a Following Fall-Affairs Quiet in Money and Exchange Markets. Bonds Are Irregular.

NEW YORK, Jan. 20.—There was per-ceptible growth today of the disinclination to deal in stocks, which has been increase ing for several days past. The first hour of the session showed a spurt of activity which seemed to be due to hopeful test ing operations by the professional element. With the failure of those efforts to arouse any interest or to attract any following, the market lapsed into neglect and at times

into stagnancy with another little flurry of activity in the final hour. Today the New York Central directors ad-journed once more with the announcement that only routine matters had been con-sidered. This puts off again the supposed entry of Harriman and associates into the directorate, which has been said to be imninent many times.

minent many times.

A decline in amalgamated Copper was the response to the reports of unfavorable conditions in the copper trade. Except in special cases, the day's changes proved insignificant. Affairs were almost as much at a standstill in the money and exchange markets as in slocks.

Bonds were irregular. Total sales, \$5.564,-906, United States 2s coupon advanced is per cent on call.

John Burroughs Says Millionaires Are Unhappy.

FTHACA, N. T., Jan. 20.—John Burtoughs, the naturalist, who is visiting here, believes that few millionaires are really happy. He is quoted in an interview as follows:

"I do not believe in the doctrine attributed to John D. Rockefeller, that if you want to make your wife happy all you have to do is to give her plenty of money. I do not believe the possession of money and happiness are synonymous. If Mr. Rockefeller had been quoted correctly, he is making a declaration that I believe American women and women all over the American women and women all over the world will resent. They want love first of all if they are provided with the right in-

stincts.
"I sat behind Jay Gould in school and once he wrote a composition on a slate for me when I needed ideas. That day he me when I needed ideas. That day he needed 70 cents, and I gave the sum to him for two old schoolbooks. I saw him later in life when he was worth \$70,000,000, but I do not think he was happy. The money fire was blazing in his eyes and I am sure it reached his brain and consumed his life, sending him to an untimely

"The great problem of today is the making of money. It is unquestionably the occupation that engages the minds of the vast majority of people. But from what I have seen of life and those leading it, when one has obtained a competency money is superfluous, just like an excess of what is not needed to round out the figure and give it a handsomer appearance. Piling up wealth then becomes like piling on flesh and greatly hinders the enjoyment of the best things of this life.
"It know millionaires and know very few
happy ones. True, Mr. Carnegie seems to
be an exception because he is different from many other rich men. He is trying to get rid of his money and he takes a keen delight in doing good with it.

Heavy Buying Causes Nervous Market at Chicago.

DEAL OF MILLION BUSHELS

Small Receipts in Northwest Form Basis of Much of the Strength. Later Deliveries Are Not So Firm.

CHICAGO, Jan. 20.—The feature of trade in the wheat pit today was the congestion in the May delivery, which resulted at times in a highly nervous market. Sentiment in the pit, however, was decidedly bullish, and at the close prices were almost at the highest point. Small receipts in the Northwest formed the basis of much of the strength, although the light movement was partially offset by a decline in the price of wheat at Liverpool. A leading commission house was reported to have purchased more than 1,000,000 bushels of the May delivery during the day, and this buying caused an advance of 1 cent for that option from the low point of the session. Other deliveries showed less strength. At the close May sold at \$1.07% \$1.07% and July at 98,08%c.

The corn market closed firm, with May at 61%c and July at 62%c.

Outs were firm on good demand by a leading elevator interest. The market closed firm. May, 51% \$51%c; July 46% \$64%c.
