TEACHER LEAVES **\$200,000 ESTATE**

Local Institutions Beneficiaries by Will of Miss Helen F. Spalding.

VALUABLE REALTY IS LEFT

Art Association, Historical Society, Unitarian Church and Humane Society Receive Bequests. Will Admitted to Probate.

The Portland Art Association, the Portland Historical Society, the First Unitarian Church and the Portland Humane Society are among the bene ficiaries of Miss Helen F. Spalding, the former High School teacher, whose will was filed for probats in the County Court yesterday. She died at the home of her sister, Mrs. L. W. Sitton, January 14, leaving an estate valued at \$200,000. It includes the quarter block at the southeast corner of West Park and Alder streets, the quarter block at the southwest corner of Seventeenth and Alder streets, unimproved land in South Portland, and 3,6 acres at Gearhart Park.

The will, which was admitted to pro-

bate by Judge Webster, names Morton M. Spalding, a brother of the deceased, as executor, and he is also to act with Mrs. Sitton as a trustee of the estate After directing that the funeral be conducted without undue ceremony, and that all just claims against the es-tate be paid, Miss Splading directs the executor to sell the tract of land in South Portland, the 2.6 acres of land in Gearhart Park and her mining stock. In the codicil she directs that the min ing stock is not to be sold unless it is sold as a whole.

Income to Pay Debts.

The quarter blocks at West Park and Alder streets and at Seventeenth and Alder streets and at Seventeenth and Alder streets, are to be maintained by the executor until all the estate's indebtedness is paid, the income from this property being used for this purpose. When the estate is free from debt it is to be closed, with the consent of Mrs. Sitton. The property is then to pass into the hands of the trustees.

The executor and trustees are directed to purchase seven life memberships in the Portland Humane Society and in the Portland Art Association, which are to be given to the following relatives: Marcus Eddy Spaiding and Morton Ray Spaiding, nephews; Eatherine Sitton Ainsworth, Lucy Sitton Wentworth, niece; Relief Faustine Spaiding, niece, May Hele Scaling, priess.

niece; May Helen Spalding and Frances
Eddy Spalding, grandnieces.
To Christina MacConnell is bequeathed the autobiography of Herbert Spencer in two volumes, and to
the City Museum a valuable quarts ecimen and a war club of the Fiji

Islanders.

To Mrs. Sitton are given the books not otherwise disposed of, besides the personal property including jewelry, but exclusive of the mining stock.

The executor is directed to pay to Mrs. Nellie Ford Spalding, widow of W. W. Spalding, a brother of the deceased, \$30 a month during her lifetime.

After all the indebtedness of the estate has been paid, the taxes and insurance to be kept up meantime, a corporation is to be formed by Mrs. Sittor Morton M. Spalding and Marcus Eddy Spalding. Each is to take a third of the stock and to pay for it with the real property of the estate.

Miss Spalding recommended in her will

that Simon A. Trail be retained in the management of the estate, he having nanagement of the estate, he having seen employed in that capacity for the last 16 years. He is to receive \$65 a month as long as he remains in this position, and in addition a bonus of \$500

Provision for University.

If, upon the final settlement of the estate, it should be found to be worth more than \$150,000, the trustees are directed to pay such amounts as in their judgment the estate will warrant, but not less than the following amounts, to four local institutions: To the Portland Art Association, \$2500; Portland Histori-cal Society, \$2500; First Unitarian Church, and Portland Humane Society, If, at that time, there is in Portland a

university conducted along liberal lines, non-sectarian in every particular, and the condition of the estate will warrant it, and if the making of a gift will not reduce the value of the estate below \$150,000, the trustees are directed to pay such an amount as they deem best. This is to be known as the "Spalding Memorial Fund." Only the interest from the invested money is to be used for the uni-In the codicil to the will, to which

Christima MacConnoll and Rose M. Drake acted as witnesses, as they did also to the will, Miss Spalding directed that the uncompleted sets of books in her library, be completed from time to time. Humane Society Will Circulate Petition to Be Signed by Children.

MOVEMENT NATIONAL ONE

Secretary W. T. Shanahan Indorses Protest to President Roosevelt Against Useless Slaughter of Wild Game in Africa.

A communication from Almon A. Locke, of Fort Worth, Tex., to W. T. Shanahan, secretary of the Oregon Humane Society, has just been received, calling the society's attention to the proposed hunt of President Roosevelt in Africa this coming Spring and Summer, and asking the society to assist to getand asking the society to assist to get-ting the President to abandon the same, on behalf of the animals the President has selected to serve as targets.

The plan is to have the school chil-dren of Oregon sign their names to pe-titions which will be transmitted by Mr. Shanahan to Mr. Locke, and by him forwarded to the President. Mr. Locke, in his communication, says, among other things: "We have no time to lose, and

by giving your immediate attention to this important matter you will assist a highly commendable humane effort." highly The petitions to be presented to the President read as follows:

Petition to the President.

To His Excellency, Theodore Roosevelt, President of the United States:

We the undersigned children of America, learning that you have planned during 1909 to visit Africa, and the announced intention of your visit being the killing of wild game, do respectfully wish to voice our request that this plan, if it has been made, be abandoned.

ahandoned.

Our reason for this request is that, realizing the force of your example and the interest which attends your efforts we believe that the slaughter of wild game, as now tracticed, no matter for what purpose, gives an impulse that is opposed to our efforts as members of the Band of Mercy, and to the efforts of all other children of America.

who are aliles, to promote humanity to every helpiess creature.

In behalf of the good name of the United States of America, a name that has been honored by many shining deeds done in humanity's name and in behalf of the humane and moral welfare of the children, and in behalf of your own honored mane upon the pages of history, will you not consider this signal opportunity you have to show the world that the cause of kindness has greater weight with you than even the love of sportsmanship, and will you not weigh this question on God's balances before making your decision, in order that the American people and the people of all nations may benefit by your wise example and humane influence?

Shanahan Talks of Movement.

Mrs. Roberts is the wife of a carpenter. The oldest of her children is greats, and the youngest 8 months. After the birth of the baby she visited her mother at Emmet, Idaho. She returned to Portland November 29. At 6 o'clock the next evening she departed and not a trace of her has been discovered since that time. Relatives and friends are alarmed as the result of her absence. The case

Bequest Made to Church.

The First Unitarian Church is to receive \$50 a year from the estate's income, until a corporation is formed to take over the estate's property. This is in addition to another bequest to the church, made later in the will.

The executor is directed to pay to Mrs. Nellie Ford Spalding, widow of W. W. Spalding, a brother of the decased, \$50 a month during her Wolfange and friends are alarmed as the humane societies in all parts of the country would be urged to aid in the work.

Mr. Shanahan said that the proposed delivery of bones, heads, hair, skeletons, etc., to the Smithsonian Institution of any or all of Mr. Roosevelt's trophies of the chase, would be merely surplusage, of the chase, would be merely surplusage, of all beasts and birds known to the civilized or uncivilized world. He added, however, that the words "humanity to every helpless creature" at the bottom of the second paragraph of the petition possibly covered the emergency.

covered the emergency.
It has been urged, nevertheless, that
the words "helpless creatures" would
particularly apply to the lions and tigers, when used in connection with President Roosevelt's prowess as a hunter.

Would Have Arrested Roosevelt.

Mr. Shanahan denied any intention on the part of the society to enter into any semsational crusade, and insisted that the killing of elephants, giraffes, eland, gemsbok, koodoo, gazelles, zebras, wa-ter-buck, etc., as found in Africa, would be a useless slaughter, and quite in keeping with the executive's Colorado ear-hunt. Mr. Shanahan criticised the President

for his ride of 90-odd miles on one horse in the same day, and averred that if the President had passed through Portland on such a trip he would have deemed it his duty to have had him arrested, and would have done so. Mr. Shanahan said he did not doubt but that the names of several hundred thousand schoolchildren would be forwarded to the President, but he did not harbor a very rosents view of what effect the sending in of the afternoon. petitions would have.
All petitions must be in the hands of

Mr. Locke by February I. 1909. The movement inaugurated by Mr. Locke is decidedly unique, to say the least, and its effect on the Presidential mind will be eagerly noted by the country, and by sportsmen in particular. The local clubwomen will hold their card party in the auditorium of the Masonic Temple, and 500, bridge and whist will be the games. An admission fee of 50 cents will be charged, and the club members are anticipating a large attendance. The object is primarily to swell the ex-

The interest alone on this sum would be sufficient to assist many young women in self-education. There have been many drains on this fund during the past year, as the movethe board has found it necessary to limit the individual loans to rather modest figures, averaging about \$50 to each applicant, although in several instances girls have been loaned \$150 in Install-

Distribution of the fund is not limited to any particular sect, race, institution or class of institutions, and the fund endeavors to obliterate all such distinc-tions, desiring chiefly to place help be-fore young women in business colleges, kindergarten schools, musical, art and normal schools, etc. The late Miss Helen F. CREMATORY BADLY NEEDED

DAGGETT APPEALS FOR NEW GARRAGE BURNER.

Proposition Is Made to Vote \$250,- City. 000 Bonds for Incinerators on Both Sides of River.

Because of the worn-out condition of the garbage crematory, the health of the city is seriously menaced, according to the declaration of City Health Officer Pohl and Superintendent Daggett, before the ways and means committee of the Council yesterday afternoon. That immediate steps must be taken to prevent an epidemic of dis-ease, is said to be absolutely necessary, The and to make the situation the more perplexing, there is no money available for this purpose.

Were it not for the fact that the Council is commanded by a charter amendment to pay into the Water Department fund \$50,000 a year, there would be sufficient funds with which to build at least one modern crema-tory, as there is a balance of several thousand dollars in the general fund the annual appropriations are However, unless there, is a means of avoiding this payment, the only way to secure money for the purpose is to issue bonds.

Chairman Rushlight, of the ways and means committee, believes that it is wise to ask the City Attorney to render an opinion on the situation with regard to the payment of the money to Federation of Women's Clubs Raises \$100,000 now. Mr. Rushlight says that It is absurd for the city to have to pay this amount to the Water Board, but the amendment to the charter, voted at the last election, provides for it.

If it is found that there is no way to avoid payment to the Water Board. it is very probable the ways and means committee will recommend the floating of \$250,000 bonds, for the erection of
