EASIER APPLE MARKET IN EAST. Larger Arrivals Cause Lower Prices-Sales of Western Fruit.

The apple markets in the East have shown an easter trend recently, according to the New York Fruitmen's Guide of Jan

The week in apples has shown some to little improvement was observable in both is a shade lower than was the case a work age. The increase in the volume of arrivals may be considered as responsible to a large extent for the falling off in prices. The export movement from here is small, and the markets abroad, based on the provailing markets here are not high enough to tempt large shipments. There has hove-ever, been a little increase in the export demand. Further improvement is looked

for in the coming week.

There were few lots of Far Western apples offered at the suction sales and prices were generally on a lower level all around. One car sold on Tuesday in the range of \$1.50 to \$3.50 per box. It is said that a fair stock of Western box applies is held here in storage for a later market. Prospects favor a more sustained movement

cars is the extreme figure for the celery crop, 2150 cars were shipped last year and 2760 cars were shipped last year and 2760 cars were shipped law years ago. Ship-ments to date 550 carloads from Nouthern California, 115 carloads from Northern California, which is over one-half of the crop. We have just completed a careful estimate of the colery left for shipment. With favorable weather. Southern Call-fornia will have 600 cars and Northern

California 200 cars.
Shipments as a whole carry excellent quality. Hises are favorable and the colery is showing excellent keeping quality. It is well bleached, full of life, bright, clean, and of excellent appearance. Demand has been uniformly heavy the entire season, and no week have we been able to fur-nish the full number of cars required. Orders are coming to hand freely, and the ments.
The most of the celery left in Northern California is late, as a number of our largest and best growers planted especially for early March shipment. The trade all know that the early Spring celery from the North carries excellent quality.
The very best cauliflower for the season will move during the next ten days. Two-thirds of the crop has been shipped. The shipping season will not last over three weeks longer.

The first cars of Winningstadt cabbage will move the middle of February.

HOP BUYING IS MADE DIFFICULT. Good Demand for Oregons, but Growers Not Disposed to Sell.

The firm attitude of hopgrowers has pracically brought business to a close in the Oregon market. There is a good demand and orders are fairly plentiful at 6 to 7% cents, but the holders of the 8500 or 9000 hales of Overone remaining are not tempted by these offers.

Of the dealings in futures, which have been quito active recently, the Gervala Star says: years is not a profitable proposition. It never was and never will be. It is largely never was and never will be. It is largely this practice that has brought the hop industry to the present pight. Why any ore will continue to grow a product at such rainous prices we cannot see. With a renter it positively profibible and precludes any profit. The hop industry is of considerable moment to the states of Oregon and Washington. It is important that it be functed, but not at the expense of the working people and to the mouth of the stocked. ple and to the profit of the speculative class. It will pay better to grow almost anything else than hope. Fotatoss, hay and oats are About 40 cars have been bought up by

CHEESE PRICES MAY BE ADVANCED

Stocks Are Low and Demand Very Good.

Eggs Are Stendy.

The present condition of the cheese market would seem to justify an advance in prices. Stocks of new cheese have run very low and are not likely to be replenished soon. There is a strong local demand and soons shipping inquiry as well, so the trade would not be surprised to see higher prices any day.

BUT PROGRESS IS SLOW IN MOST LINES.

More Confidence Shown in Placing of Spring Jobbing Orders-Decrease in Number of Failures.

NEW YORK, Jan. 22.-Bradstreet's to-

NEW TORK, Jan. 22.—Bradstreet's tomorrow will easy:
Trade is expanding slowly but steadily,
wholesale and jobbing lines noting some
good orders for immediate delivery and
rather more confidence in placing orders
for Spring. In the leading industries the
tendency is still toward gradual resumption,
but in few cases is the output up to a good
normal.

Business fallures in the United States for
the week ending January 21 were 367,
against 319 last week, and 408 in the like
week in 1968. Canadian business fallures
for the period numbered 40, against 38 hat
week and 31 in this week has year.

Wheat, including flour, experts from the
United States and Canada for the week
ending January 21, aggregated 3,080,209
against \$418,213 this week last year. For
the 30 weeks ending January 21, this year,
the exports are 126,006,161 hushels, against
125,731,020 in the corresponding period of
last year.

QUIET CONDITIONS IN METAL TRADES Consumption of Copper Is Not Up to Record

NEW YORK, Jan. 22.—R. G. Dun & Co.'s weekly review of trade tomorrow will say: Developments in trade are along conservative lines. Quiet conditions prevail in Iron and steel and transactions of importance are not noted. Consumption of copper to not keeping pace with the record production, and prices are declining in consequence.

London Wool Sales. LONDON, Jan. 22.—The offerings at the wool anction sales today amounted to 15,104 hales. With the exception of merines, which miss American support, the market was decidedly firm with a hardening tendency. Home and continental traders were eager bildiers for medium merines, while crossbreds occasionally exceeded the opening rates, owing to American competition against home buyers.

SUPPORT GIVEN BY BULLS

Most of the News of the Day in the Chicago Pit Is in Favor of Buyers-Sensational Advance in Pork.

CHICAGO, Jen. 22—Sentiment in the wheat pit was hearish when trading began. Althoush considerable solling pressure was manifested throughout the day, prices made only slight declines, owing to moderate support given by leading bulls. The news of the day was almost entirely in favor of the bears. The continued light movement in the Northwest was about the only factor from which the bulls could derive any satisfaction. The market closed easy, with May at \$1.07% and July at \$77%.

There were moderate advances in the price of corn, which closed firm, with prices up fac to \$6 %. Final quentions on May were \$2% \$62%c, and on July \$2%c.

Outs exhibited considerable firmness, the prices at the close being unchanged to %c lower, with May at \$2c and July at 46%c. Provisions were featured by the bidding up of January Pork to \$18 by the excited shorts. Late in the session pork lost all of its early strength and the market closed wask, with prices 5c to 25c lower. January pork closed at \$17.25.
