Strong Wheat Demand From California Ports.

PRICES RULE VERY HIGH

Over 400,000 Bushels Shipped to That State Last Month-Lower Prices in the Egg and Butter Markets.

The strong demand for wheat, particularly from California, keeps prices at a high level. The shipments of wheat from Portland to the Southern state last month amounted to 400.511 bushels against 221,377 bushels in January last year, while for the cereal year to date California has received from Portland 2,075,607 bushels, against less than a million husbels it the corresponding period of the preceding season. That the pressure from the South for supplies will continue during the remainder of the season is not questioned and it is equally certain that available stocks in this section are getting into very small compass. Though the demand for wheat is strong, offerings are by no means large and in the absence of much business it is difficult to secure accurate quotations.

Recent Business Between Dealers-Con-ditions in the East.

A moderate demand for hops was reported yesterday, but there were few sellers in the market at current prices. The only bustness reported was between dealers, a Dallas lot of 159 bales changing hands at 7%

by the Waterville Times of January 26 as 'In the absence of stock of almost any

description there is not much deing on the market here. The few who have hope to sell of the better grades are firm holders and are not in the market. The demand is quite as strong as during the past few weeks and hope of all descriptions have been placked up pretty close, especially in Onelda, Madison and Otsego countles.

"The sales are ilmited, therefore, by the absence of available stock and meanwhile the dealers are scouring the country for any and all grades and are meeting with in-

## LONDON APPLE MARKET LOWER. Pacific Coast Box Stock Sells at Reduced

The latest report of W. Dennis & Sons of London, says:

The apple situation this week has been somewhat disappointing. Instead of a continuation of the improvement which we noted in our last report, the market has dropped back to a shade lower figures on barrel and, more especially, but stock, and at the moment it is difficult to see any immediate change for the better.

On the other hand, supplies are shorter than they have been for many years, everything is going into immediate consumption, weather conditions are favorable and the general trade of the country is gradually showing improvement.

We therefore bope the reaction may take place at any moment. In the meantime, barrel stock and also buy stock is selling at the following figures: Nova Scotian Baldwins, 18-20s; do Greenings, 17-9, 19s; Russett, 18-20s. Box Newtowns, Watsonville, is odd Ta per box; do Oregon, 8-9 sper box; do Hood Hiver, is did 10s per box. The latest report of W. Dennis & Sons,

MGGS AND BUTTER ARE LOWER Market Conditions for Former Product Not Good for Holders.

The butter and egg markets both tumbled pesterday. As was announced in this paper, the city creameries which had been quoting butter at \$7 cents, made a 8-cent cut in their prices to \$4 cents. At the new price supites cleaned up well and the tone of the

market was very steady.

The egg market, in the language of the street, was shot full of holes, much to the disgust of the jobbers who had brought up a large supply of California eggs. It was the knowledge that this supply was on hand that caused the retailers to bear the mar-ket and the result was that they came very near getting eggs at their own price. Satur-day 50 and 55 cents was freely paid by the retailers, but yesterday no one wanted eggs at these figures. On the whole, the market was fully a nickel under last week's prices. Receipts since Saturday from all sources

Poultry arrivals were small and the dend was quiet. Thore was no change in cheese, which was very firm.

STEADY DEMAND FOR OREGON SPUDS. Dealers as Net See No Reason for Advancing Prices.

There is istendy buying of potatoes for shipment South, but no excitement in the market. Shippers are paying around a cent for most of the Valley stock and up to 1% cents for fancy lots; None of the recent chipments have been marketed at San Fran cinco yet and it is not known how that market will take the large supplies pouring in on it. There is fear in some quarters that Seattle may try to unload its surplus California, in which event prices may t a setback. The onion market is firmer than it was at week, as offerings are less numerous.

PORTLAND LIVESTOCK MARKET.

Prices Current Locally on Cattle, Sheep and Hogs.

Trading in the livestock market was moderately active yesterday and last week's prices were again quoted. The demand, as usual, was for the hest quality of stock, of which but little was offered. Receipts for the two days were light, consisting only of 205 cattle, 259 hogs and 57 sleep.

According to the Condon Globe, J. J. Asher, who has been in that vicinity for the past week trying to buy sheep, has been offering \$3 per head for yearing ewes, \$2.75 for mixed family and \$2.50 for wethers. He is the only buyer who has been in that section and the price offered is about 75 cents better per head than lambs were sold for hast year.

IS TENDENCY

Gains Are Reduced at the Last by Professional Realizing - Call Loans Slightly Firmer. Bonds Irregular.

NEW YORK, Feb. 1.—The day's developments were regarded as negatively favorable to stock values and a firmer tone of the market was the consequence, but the growing lethargy of the speculative interest left the dealings dull at times. Selling at the opening was so inconsiderable that the traders' demand to cover shorts with the purpose of taking advantage of expected selling was sufficient to advance prices. Professional operations were renewed for a decline when this state of affairs was perceived, but they were not pushed aggressively.

ceived, but they were not pasted aggressively.

Call loans were but slightly firmer. Money continues in abundant supply. The marking down of the prices of copper and reports of storm damage to Western railroads did not alter the hardening tendency, but professional realizing reduced the extreme gains at the hast.

Bonds were irregular. Total cales, par value, \$3,445,000. United States bonds were problemed on each page.

FREE TRADE FOR ISLANDS

Delegates From Philippines En Route to Congress.

SAN FRANCISCO, Feb. 1.—On their way to Washington, where they will urge the passage of the free trade bill, which will come up at the special session of Congress that probably will be called by President Taft, John S. Hord, Internal revenue collector for the Philippines, Daniel O'Connell, secretary of the Manila Merchants' Association and Arthur J. Francis, a prominent business man from the Philippines, arrived Saturday on the the Philippines, arrived Saturday on the Pacific mail liner Asia.

The three representatives of the insular possessions in the Orient are well for-tified with facts and figures on the industrial, commercial and agricultural conditions in the islands, which they will lay before Congress to show why the tariff should be taken on the imports and exports in the Philippines.

Mr. O'Connell stated that as a result of the tariff there is a serious depression in the islands but predicts that if the tariff is removed the imports from the United States would within five years increase
