changed there was a general discussion of the first bill which came up on the Governor's veto, S. B. 27, by Parrish, to increase the salary of the Sheriff of Grant County.

Senator Smith, of Marion, called upon Parrish for a statement re-Benator garding the bill. Parrish responded that the present Sheriff of Grant County is one of the most popular men in the county, that he is a good Democrat and supporter of Governor Chamberlain, that this bill has been discussed in the papers of Grant County and he has heard of no opposition anywhere,

Senator Norton said that he feels sur Senator Norton said that he feels sure the newspapers are mistaken in calling these bills salary grabs, but that he dis-approves of the bills because they are an imposition upon the time of the Leg-thiature. He said he will hereafter vote against all such bills because he thinks the Legislature should relieve liself of the nuisance by providing a general sys-tem of paying county officers. Senator Coffey also thought the news-papers have taken a wrong view and.

He also said that if the people do not like the salary bills they can demand the referendum upon them. Senator Miller, of Linn and Lane, ex-pressed his high regard for each mem-ber of the Senate and said that when any member asks that a local bill be supported, he will vote for it upon that Senator's assurance that it is proper. He also expressed the view that the Governor is going outside his proper sphere when he undertakes to veto local salary measures. "I do not say he is exceeding his authority, but I do say that his vetoes are not justified."

# Kay Blames Office-holders.

Senator Kay declared that there is not a county in the state where the taxpayers are petitioning their repre-sentatives in the Legislature to raise the salaries of county officers. "It is my experience that when men come here asking that the salaries of county afficers be increased it is because they have been asked to do so by the offi-ers directly interested. It is absurd to defend the passage of these bills upon the argument that if the people do not like them they can demand the referendum. Everyone knows that if would take a lot of trouble and cost a lot of money to demand the referendum Senator Kay declared that there is bot of money to demand the referendum upon all the salary bills we have passed. It is not the people, but the of-liceholders who are asking that the malary bills be passed." Senator Smith, of Marion, expressed the coefficience in Senator Partich and

today, Brandon and Munkers of Linn objected for a time to the consideration of the bill, for the reason that the meas-ure under consideration was a substitute for the bill originally introduced and for that reason they sought to have the bill held up until it could be printed. # Buchanan Would Take Whole Matter Off Legislature's Hands.

STATE CAPITOL, Salem, Feb. 4.-(Spe-cial.)-Salary-increasing bills will have no place in the Oregon Legislature if the bill introduced in the House this afternoon by Representative Buchanan becomes a law. It classifies the counties of the state according to population and prescribes a scale of salaries to be paid the various officers according to that classification.

classification. The bill creates 19 classes of public officials based on population of from 1000 and under to 75,000 or over. The salary of County Judge, under the bill, ranges from \$400 to \$3000; Sheriff from \$600 to \$4500; Clerk, \$400 to \$3000; Recorder, \$300 to \$2500; Trensurer, \$300 to \$3000; As-sessor, from \$5 a day to \$3500; School Su-carterbadent \$300 to \$3000. County Comperintendent, \$300 to \$3000. County Com-missioners in all classes are allowed \$5 per diem and their actual expenses, and Surveyors are to receive \$ per diem when actually engaged in their work. With the consent of the County Court, the various county officers under the provisions of the bill are authorized to provisions of the bill are authorized to appoint such deputies as may be deemed necessary, but the officer making such appointments shall be held responsible under his official bond for the acts of

It is provided fur-ther that when the salaries provided are, in the judgment of the County Court, "Inadequate for the services required of the officers, then the said County Court may allow such officers a deputy, or such number of deputies as, in their judgment, may be required to do the business of such office in connection with the principal for such time as may be necessary and at such a salary as all such deputies. with the principal for such time as may be necessary and at such a salary as they may designate; provided that the County Court shall pay the actual travel-ing expenses of the Sheriff while on official duties and to be audited by the said Courts Court "

STATE HOUSE, Salem, Feb. 4 .- (Spatial.)-Oregon's Normal-school nuisance is haunting legislation again in many directions, and the champions of two, three, four and five schools are trying to steer the issue out of the disposal of the ways and means committees, which favor one normal at Portland or perhaps at Monmouth. # Our February Clean-Up Famous Shoes at Bargain Prices

The only way to surely keep alive a shoe store is to make each season bury its own styles—at least this is the "CRAWFORD" method—and we have made it win. It is easy to interest "CRAWFORD" patrons in new styles, because they have become accustomed to our practice of showing nothing else. Three-fourths of the new customers we make are first attracted by some particular style of shoe which they see in our window and which they are unable to locate anywhere else. The object of this February cleanup is to cut down our stock of high shoes, which we carry heavily during the Winter and spar-ingly during the Summer, and to kill as many of this season's models, as we have arranged for new models for the coming season. When you consider that even at regular prices "CRAW-

FORDS" represent the strongest shoe values in America you will appreciate the inducements we offer in these honest reductions. Our window displays tell the story more convincingly than we can make it here. Why not see the windows?

STATE CAPITOL, Salem, Feb. 4 .-(Special)-The Senate Irrigation Committee held an extended session tonight and listened to arguments upon the Conservation Commission's irriga-tion bill, S. B. 77. The discussions developed very little not already brought out, but it was found that the power interests want the express recognition of rights which the committee is rot of rights which the committee is rot sure exist. The committee desires to insert a clause protecting every vested water right, but the power interests want the bill to go farther and specify the rights that are acknowledged to be vested. The commission believes that this should be left to the courts in the adjudication of water rights. The conflicting views are farther apart than has been supposed, and At-torney F. T. Griffith, of the Portland General Electric, said tonight that pas-sage of a water code will probably be a work of the last week of the ses-sion.
