Potato Shipping Business Again Under Way.

## MANY CARS MOVING SOUTH

Buyers Afraid of a Reaction in the San Francisco Market-Shipping Wheat by Rall to Mexico. Active Produce Trade.

With the reopening of rail traffic to California, pointo buying in this state was resumed yesterday afternoon. The movement may not become active, however, as there is some fear that the shippping business may be overfore temporarily. Buyers have paid from \$1 252 to \$1.35 for choice stock, but are not inclined to go over this figure until there is a further elevation of values in San Francisco. Private wires yesterday quoted offerings of Oregon stock.

The interruption of traffic by the washeuts may give an opportunity to work aff ame of the supply at San Francisco, but as there were 30 cars this side of the elide yesrday, these are likely to reach the South ern market about the same time and may prevent any recovery in prices for a while, The onion shipping business with Califor min has also been affected by the railroad uble, but the firm position of the growers

The local market was moderately active esterday at very firm prices. Hivestem was quoted up to \$1.11 and sales of fancy lots are reported at higher figures. Onts were strong out lower prices were offered for barley. The Merchants Exchange reports foreign

## SLACK INQUIRY FOR HOPS.

In Spite of Slow Basiness Growers Are Firm Holders. There is very little inquiry for hops now. This is not unusual at this time of year, but there is a prospect of a better movement later in the month. Notwithstanding dull condition of the market, holders maintain

Of operations in New York State the Water wills Times of January 29 says:

This has been the busion week of the season in the local hop market, over 500 bales having changed hands during the last few days. The hops sold are not choice, but evidently answer the purposes for which they are bought, at any rate they are meeting with a ready sale where early in the season they attracted and attention whatever. The prices paid for these hops are 10, 10% and 11 cents.

cannot be denied that there is a good. quired amount of hope can be picked up, and this difficulty is daily decreasing.

### POULTRY SELLS AT BETTER PRICES. Sound Inquires for Eggs, but Does Not Offer Enough.

With the hens getting ready to lay again, receipts of poultry from the country are diminishing, and under a good demand diministing, and inder a good demand prices are becoming stiffer. Hens solid at 13% @ 14 cents yesterday, and half a cent more was paid for fancy coops. Broll-ers brought as high as 20 cents and 21 cents was quoted on the best ducks. There was a good movement in eggs

and the market was about steady. The general quotation was 40 cents, with a few houses holding at 42% cents. There was some inquiry from the Sound, but lower prices were offered, and no business re-

There were no changes in butter or cheese. Both lines were active.

## Fresh Produce Is Scarce,

A few cars of California produce that were on this side of the railroad ob-errection came in yesterday. They conained celery, cabbage and oranges. Aside from these articles and some cauliflower, the market is very poorly supplied with seuthern produce. Apples are the most plentiful article in the fruit line, and move fairly well. The street is almost bare

DECLINES IN BOND LIST

Among Unfavorable Factors of Day Are Rumors of Harriman's Ill-Health-Anti-Japanese Agitation Not Liked on Exchange.

NEW YORK, Feb. 5.-Short periods of animation in the dealings in stocks today brought the total sales to something above the recent average. The stirring or activity was caused by one or two occurences to which an unfavorable interpretation was given from the standpoint of holders of se curities. The character of the market, however, was not radically changed from the neglected state that has prevailed all

Apparently the professional element had stretched their resources to the limit on the buying side of the market and, finding no following to help them, turned to the selling side for a turn. To expedite the downward movement they professed apprehension over the news of the projected vacation by E. H. Harriman, accompanied by the intimations of an attack of rheumatism. So much has been made as a speculative force of Mr. Harriman's supposed plans and projected activities that any serious deterioration in his health would be a serious consequence to the existing fabric of market values. The slight effect produced by today's rumors seems to be reassuring, therefore, as to the physical condition of the Union Pacific system.

The weakness of Union Pacific was transferred to Denver & Rio Grande causing a reaction in that stock the recent strength of which has been due to supposition of a part by Mr. Harriman in a far-reaching project for recasting the Gould system.

Another point of special weakness was Reading, in which there had been persistent selling for several days. The stock owes its high prices to the confident assumption that the commodities clause of the Hepburn law will be declared lavalid in the test case brought in the Supreme Court. Recent af a feeling of uneasiness has grown up against speculative holdings in Reading. Stress is laid also on the necessity of a new agreement this Spring between the anthractic carriers and the miners in their employ over rates of wages, which offers the possibility of a strike.

The keeping alive of the anti-Japanese agitation in California and the sensational attention given to it are not liked in apeculative circles, where the possibility of a sudden untoward circumstance is kept in mind.

An influence was the initiation of dividends on Brooklyn Hapid Transit with the stretched their resources to the limit on the buying side of the market and, finding

sudden unroward circumstance is kept in mind.

An influence was the initiation of dividends on Brooklyn Hapid Transit with the declaration of a 1 per cent dividend for the quarter. Brooklyn Transit dividend prospects have been a perennial subject for speculation for over ten years, during which the stock rose at one time as high as 157 without any actual dividend being forthcoming. With the taking of this subject out of the realms of conjecture there is a considerable element in the speculation that will find itself almost without occupation. The narrow movement on the announcement indicated the quieting effect of certainty in contrast to doubt.

The known movements of money for the week show pretty even offsets between the receipts by express from the interior and the subtreasury operations and the withdrawal of gold for export. The final withdrawal of trust companies an Monday to meet the February 1 reserve requirements may remain to be reflected in the bank statement. The money market maintained its firmer tone.

statement. The money market maintained its firmer tone.

Reports were current of further large bond issues in prospect. The amount of absorption in the bond market in the last few weeks is by no means adequately measured by the amount of new issues subscribed to during that time, or by the volume of sales at the stock exchange, as large amounts left over in the hands of underwriters of older issues have been digested during the same period.

Bonds were irregular. Total sales, par value, \$7.544,000. United States 2s registered declined %, the coupons % and the registered % per cent on call.

SEATTLE MILLERS WITHDRAW WHEAT QUOTATIONS.

Declare Prices Recently Paid Are Fictitious-Apple Market Firmer-Eggs Sell Better.

SEATTLE. Wash. Feb. 5.—(Special.)—
All milling wheat quotations have been withdrawn by Seattle millers. The millers claim there is no market and that the prices recently paid are fictitious and that millers are not justified in paying the quotations asked by growers.

The apple market is very firm in splite of heavier receipts of fruit from Eastern Washington and the increasing demand for oranges. Many varieties that have heretofore been weak are stiffening.

Local egg receipts were heavy enough today to meet all requirements. This is the first time in a year that the local supply has been adequate. The demand for eggs is much improved, although prices are not changed. Eastern stocks are cleaned up and there are only a few scattering lots of Oregon and California eggs offering.

CHICAGO MARKET IS WEAK

General Selling Inspired by the Bearish Statistics-American Exports Not as Large as Expected. Corn and Oats Are Steady.

CHICAGO, Feb. 5.—Traders in the wheat pit were confronted at the opening of the seasion by a wealth of bearish influences, principal among which were the sinsistics relating to the heavy shipments of wheat the last week from Argentina and Australia. Cables were also easy and the movement in the Northwest was fairly liberal. These influences had a bearish effect during the early part of the day, but were offset to some extent by the continued excellent demand for cash wheat here. Trade was nervous within a narrow range the first half of the day, but the market developed comidorable weakness into in the session, owing to selling inspired by the noor showing of the Bradstreet's statement of exports from this country for the week. The total moreoment from the United States and Canada was reported at 1,812,000 bushels total moreoment from the United States and Canada was reported at 1,812,000 bushels to the way of the Bradstreet's statement of exports from this country for the week. English Mail Wins, but Crowds

Quinn and Forfelts Victory. OAKLAND, Cal., Feb. 5.-English Mail played from 50 to 1 to 25 to 1, won the two-year-old race at Emeryville today, but was disqualified for fouling and placed last. The colt interfered with Warfare and others and then crowded Judge Quinn to the inside fence, winning from that young-

irster by a neck.
Scoville made a claim of foul. John
Millen, owner of English Mail, stood
to win thousands of dollars. It was one of the best played "good things" of the season. Fine weather prevailed and the track was rapidly drying out.

LOW GRADE OVER DIVIDE

Canadian Northern Will Cross but One Mountain Range.

CHICAGO, Feb. 5 .- Official details of the plans of the Canadian Northern road to extend its line from Edmonton to the Pacific Coast at Vancouver, to the Pacific Coast at Vancouver, are given out. The direction which will be taken by the new line is southwest and the distance as the crow files is about 460 miles. The company will, however, have to build nearly 750 miles of road. The survey takes the road through British Columbia by way of Yellow Head Pass, down North Thompson River to a junction with the Fraser River, thence to New Westminster and on to Vancouver. The Canadian North-River, thence to New Westminster and on to Vancouver. The Canadian Northern will be the only transcontinental line which will have to cross but one mountain range. The highest elevation reached will be about 3700 feet. All other transcontinental lines have three ranges to cross, and the elevations reached run as high as 8000 feet.

Owing to the easy pass which the Canadian Northern has to negotiate, the operating problem will be a comparatively easy one. The company will also have the benefit of cheap coal, extensive fields having been purchased in British Columbia.

CHICAGO TO REMAIN "WET"

Local Option Campaign in Windy City Falls Down.

CHICAGO, Feb. 5 .- Chicago will be CHICASO, Feb. 5.—Chicago will be a wet town for shother year at least. The movement by the "drys" to have the people vote at the April election on the question of excluding saloons from the city under the local option law has fallen down. They started out to obtain the necessary 100,000 petitioners to place the question on the tioners to place the question on the ballot but got less than 50,000. The feature of the movement has been re-ported to the no license committee, which has decided to make another effort next year. It has authorized the organization of a committee of 100, each member of which shall pledge to subscribe \$20 and obtain 1000 signatures to the petition.
