New French-Canadian Treaty Will Cause Manufacturers to Move Across the Line.

WASHINGTON, Feb. 7 .- American ariff experts do not view with complacency the probability that the French government within the next year will put into operation a revised tariff, which, it is believed, will have the effect of discriminating serlously against imports into France

from the United States. The condition of trade with France it is said, is made difficult even under the present fariff. The United States is compelled to pay the maximum rate on all of its importations, and that is sufficient in many cases to be practi-

cally prohibitive. A very pertinent fact is the new French-Canadian treaty. Under this Canada is to receive all of the minimum rates of the French tariff. This will be sufficient to cause many American manufacturers to build factories

product may be sent to France with the benefit of the low tariff. Government experts believe it abso-lutely necessary that a dual tariff be arranged by the United States with such a system, it is argued, will leave the United States helpless and weapontess in any commercial war.
