erop remaining in first bands. quantity is held in the state by dealers and speculators, but the uncertainty as to the figure makes it difficult to form an estimate of the yield last year.

The market presents no new features. There has been an almost entire absence of business since the first of the mosth, except in occasional transaction between dealers. The latter half of the month is likely to sho more activity. It may be that the present mitting attitude of buyers is due to a belief that by waiting they can make their Fobrunry shipments on a lower basis of cost. The pauce in the market, however, has no yet developed any signs of weakness in hold-

A message from Salsm that Joseph Harris had bought 52 bales from Lachmund & Co. at 516 cents was the only report of hustness done in spot hope during the day, Willtam Brown & Co. are reported to have contracted for 40,000 pounds of the 1900 crop

Contracts made with a number of Clackamas County growers by T. Rosenfeld & Co., of New York, have been filed with the recorder at Oregon City. They are for an aggregate of \$5,000 pounds and are for a term of three years, 10 cents being the price. The growers and quantities con-tracted for are: Christ Frost, 12,000 pounds; Louis Siebert, 24,000 pounds; Joseph Feist, 16,660 pounds; Feist & Miller,

FANCY PRICES ASKED FOR WHEAT Remaining Supplies Are in Strong Hands.

More Wanted for Oats.

More Wanted for Gats.

The tone of the wheat market is excited and holders are demanding fancy prices. An occasional seie at some interior point is reported, but there is little doing at tidewater. Up to \$1.12 is reported offered here for binestem, but what is left is in strong hands and probably \$1.15 would not tempt the holders to let go. A sale of bluestem at \$1.05 at Walfa Walfa was announced yesterday. Club wheat and the other grades are also strongly held.

Offerings of osits are so small that tradick in this market has practically ceased. Some holders of oats were asking \$16 yesterday. The barley market was quiet.

Bid and asked prices were posted at the Board of Trade as follows:

TRAINLOAD OF PRODUCE DUE TODAY. Big Miscellaneous Shipment Coming From The famine that has existed in the fresh

produce market for several days past will be relieved this morning by the arrival California. These are the shipments that were held up by the washouts on the railroads. In the let will be four cars of bananas and supplies of oranges, celery, small vegetables of all kinds. As the market is practically bare of everything in this line the big shipment will be handled without disturbing prices.

Better Demand in the General Stock List.

LACK OF SELLING PRESSURE

No Further Liquidation Because of the California Anti-Japanese Agitation-Railroad Traffie Falls Off.

NEW YORK, Feb 8.—The source of the strength in the stock market today was traceable apparently to operations to rover short contracts put out last week. The movement was distinguished by a subsidence of the special advances in individual stocks. On the other hand, the general list came in for more active buying

emand today.

The prospects of action by the California The prospects of action by the California Legislature on the question of Japanese children in the public schools in opposition to the advice of the National Executive was reported more likely than at the close of last work. The considerable selling of stocks on Saturday on account of this factor, evidently, was for the account of the professional bears and their demand to cover today did not meet any large liquidation from the same cause.

The market was letharsic for the most part. The neglect of the market is its most conspicuous feature at present. The fact of the absence from Wall street of the absence from Wall street of some of the most conspicuous figures in the financial world plays a part in this

the financial world plays a part in this. It is suspected also that some effect of repression is due to the pending operations of Governor Bughes' commission, which has now arrived at a consideration of the stock exchange after having traversed the field of commercial exchanges.

Estimosed traffic officials bear out the testimony of other authorities as to the haiting tendency of business, the freight movement, according to their evidence, baving failen off considerably from the December isvel. The week's traffic statistics showed a notable decline in the grain movement.

movement.

The formulation of the demands to be made by the anthracite miners in the convention of the United Mineworkers outlined the nature of the negotiations that must be gene through to arrive at an agreement for the coming April. The coalers shared in the general firmness of the market.

The publication of a statement of carnings of the American Smelting & Refning Company for the half year caused a rise in that stock. May Wheat Goes to \$1.11 3-4

Realizing Sales on the Bulge Carry Prices Down a Cent in Less Than

CHICAGO. Feb. 8.—A new high-record mark for the season was established to-day when wheat for May delivery solid at \$1.11% per bushel, surpassing by %c the previous high point recorded December 4. Realising by leading holders caused a loss of nearly all the grain, however, the net advance at the close being only its compared with the final quotations of the previous session. Corn, oats and provisions closed steady.

The entablishing of a new high mark in wheat prices was accompanied by more activity in the wheat pit than had been witnessed for some time, an argent demand by commission houses being in evidence nearly all day. In addition to heavy purchases of the May delivery, there was CHICAGO, Feb. 8 -- A new high-record

purchases of the May delivery, there was also active buying of the July option, which carried the price of that delivery up more than ic from the low point of the session. The strength of the May option was due to the congestion that his prevailed in that month for some time, and to the con-tinuance of an unusually active demand by millers for cash wheat, especially in

the Southwest.
The July delivery was bullishly affected by the Weather Bureau prediction of a cold wave tonight throughout the Winter wheat belt. Sharp advances in the price of wheat at all the leading European grain centers also contributed considerable strength to the market in general. One of the leading longs was a liberal seller on the bulge and this caused a drop of about ic in less than five minutes. Sentiment in the pit was less bullish in the final half hour and the market closed steady at about the opening level. May ranged between \$1.10% and \$1.11%, white July sold between \$9%c and \$1.00%. The close on May was at \$1.10% \$1.10%, and

The advance in wheat had a strength-ening effect on the corn market during the early part of the day, but later sentiment became a trifle bearish and at the close the market was barely steady. At the close prices were a shade lower to be higher. May closing at 63% @68%c and July at every works. 625 原 92 % C.

Trade in cats was dull, but the market was quite firm at times, in consequence of buying by some of the prominent holders of wheat. At the close prices were ise to ise higher, with May at 524c and July

Profit taking by local longs caused med-orate weakness in provisions. The market closed steady with prices unchanged to 250 lower
