

# HARRIMAN ROADS RUN AS ONE LINE

## Cincinnati Shippers Say Merger Ended Competition and They Suffer.

### EX-AGENT GIVES EVIDENCE

#### Before Harriman Regime Rival Agents Sought Business and Competition—Big Shipper Condemns Merger.

CINCINNATI, O., Feb. 9.—Evidence that the Union and Southern Pacific Railroads had been merged and operated practically as one line of railroad since the merger under the control of E. H. Harriman was given at a hearing before a master in the Government suit to dissolve the merger.

#### Same Agents, Same Offices.

The first witness was S. Gano, a freight solicitor for Grand Rapids and Indiana Railway, who had been connected with the Union Pacific for a term of years prior to 1894. He testified that the same agents in present time represented both the Union and Southern Pacific in this city, but that during his official connection with the Union Pacific they had agents and entered into active competition for business.

#### Merger Not Good for Shipper.

E. E. Williamson, who was formerly connected with the Queen & Crescent Railway, testified that prior to 1901 both the Union and Southern Pacific roads were in the same hands, but that since that time the competition between the two lines has been active and has done much to reduce the rates on the Queen & Crescent in the South.

#### Wide Canal Roosevelt Idea

WASHINGTON, Feb. 9.—At the Isthmian Canal Commission today it was declared that the widening of the Panama Canal from 200 to 500 feet through the Culebra cut from Las Cascaidas to Paraiso, a distance of 4 1/2 miles, had been authorized by President Roosevelt last fall.

#### CRY FOR SEALEVEL CANAL

had demonstrated that the sea-level canal could have been constructed for \$247,000,000.

"I have progressed so far in the construction of the lock canal that we cannot now turn to the sea level canal," asked Forsaker.

#### Don't Know What We're Doing.

A controversy over the height of tides at the Atlantic and Pacific ends of the canal, raised by Curtis, brought forth the statement from the Kansas Senator that the reports of the French engineers could not be accepted as of value as they "did not know what they were undertaking."

#### GIVE PRESIDENT SOLE POWER

WASHINGTON, Feb. 9.—Under a special order the House took up the bill to provide for the Government of the Canal Zone, the construction of the Panama Canal and for other purposes.

#### MILLMEN MAKE PROTEST

Grays Harbor Claims Government Bids Favor Seattle Shippers.

#### ABERDEEN, Wash., Feb. 9.—(Special.)

President McGlaughlin, of the Grays Harbor Lumber Manufacturers' Association, has mailed a protest to the Quartermaster's Department for alleged discriminations against Grays Harbor in calling for bids on lumber for exclusive delivery on Puget Sound.

failed of adoption. Consideration of the bill was completed, but because of a threatened roll call by the opponents of the bill and the hour being late, Mr. Mann, having it in charge, did not ask for a vote.

Time Is Inopportune. Mr. Richardson said the present was the most inopportune time to call the country's attention to the fact that a change of the legislative and administrative, as well as the Governmental policy of the Canal Zone was necessary.

Mr. Stephens, of Minnesota, explained in supporting the bill, that it established on the Zone a legislative instead of an executive government. Unless the bill were passed, he said, the construction of the canal would be impeded in many ways.

#### Cockran Favors Bill.

In supporting the bill, Mr. Cockran, of New York, declared his belief in a minimum of vice if he could not get virtue. He argued that it was not contemplated to establish a permanent government on the Canal Zone.

The motion of Mr. Hardwick to strike out the paragraph in question was lost, but the bill was passed by a vote of 197 to 107.

#### NOT RESPONSIBLE FOR RAINEY

Bacon Refuses to Apologize for Results to Obaldia.

WASHINGTON, Feb. 9.—The United States Government disavows all responsibility for recent remarks made by Representative Rainey, of Illinois, criticizing President Obaldia, of Panama. This is indicated in a letter sent today by Secretary Bacon, of the Arosmena, Minister from Panama, in reply to a protest by the latter in behalf of his government.

Mr. Bacon's letter says: "The utterances of individual members are not to be taken as expressing the views either of the Government of the United States or of the House in which such remarks are made."

Mr. Rainey's remarks were made in a speech in which he said that he had read the letter and that he was sure that the Government disavowed all responsibility for the remarks of Representative Rainey.

In his protest Mr. Arosmena requested a disavowal of the offensive remarks concerning the President and Republic of Panama, such as may be deemed just and commensurate "with the deep and unwarranted injury" inflicted upon President Obaldia. The letter continued:

Your Excellency will note that I am instructed to include in the protest the counsel of this nation and the Finance Commissioner of Panama in this country. I have not referred to him in the foregoing solely as a means to his request that I refrain from so doing, since he is a citizen of the United States, does not desire that any foreign government shall intervene in his behalf.

#### WIDE CANAL ROOSEVELT IDEA

Taft Said to Be in Doubt About Wisdom of Change.

WASHINGTON, Feb. 9.—At the Isthmian Canal Commission today it was declared that the widening of the Panama Canal from 200 to 500 feet through the Culebra cut from Las Cascaidas to Paraiso, a distance of 4 1/2 miles, had been authorized by President Roosevelt last fall.

#### ST. PAUL ROAD DOES WELL

EARNED \$5,000,000 OVER ALL EXPENSES.

Funds Will Be Used in Paying Additional Dividends or for Improvements.

CHICAGO, Feb. 9.—(Special.)—Much satisfaction is expressed with the report of the St. Paul road for the first half of its current fiscal year. In that period the road earned about \$5,000,000 more than sufficient to pay dividends on both classes of stock at established rates.

This money may be paid out either in extra dividends or for additions and improvements to the property. Gross earnings were \$22,597,729; operating expenses \$20,028,526; net earnings \$12,469,272; total income \$14,285,853; balance for dividends \$9,735,927, and surplus \$4,549,926.

Net earnings for the six months in reality were sufficient to pay 7 per cent on both common and preferred stock for the entire year and leave a surplus of \$1,150,000. If the road continues this rate of earnings, the year's surplus will be something like 2 and three-quarters per cent.

This record has been made without any reference to earnings from that part of the Pacific Coast extension, which already has been opened for traffic. This includes the line as far west as Butte, Mont. Earnings of the new lines are kept in separate accounts, but thus far have not been published.

#### HATTERS DEFY UNION MEN

Reopen Factories as "Open Shops" on Schedule Time.

NEW YORK, Feb. 9.—Sixty-five hat factories throughout the country, which formerly employed 25,000 hatters, were expected to open today as nonunion shops. Today's reopening of the factories was the test of the employers to operate their shops without union men.

## HOT WORDS SPOKEN

Lodge and Smith Forget Their Senatorial Dignity.

## TILLMAN "JOSHES" THEM

Amusing Encounter in Debate on Canadian Treaty—Smith Likes Not Lodge's Looks, Scowl or Irritating Manner.

WASHINGTON, Feb. 9.—An amusing encounter between Smith of Michigan and Lodge of Massachusetts marked the debate of the Canadian boundary waters treaty in the executive session of the Senate today. Lodge asserted that the foreign affairs committee had received from the State Department information which he believed answered Smith's objections.

Smith in his reply declared that the treaty had not been prepared by ex-Secretary Root, but that it was the work of Chandler Anderson, a New York lawyer who has been engaged by the State Department on various occasions in connection with treaties affecting the relations of this country and Canada. Smith intimated that Mr. Anderson was too close to the interests that control power rights at Niagara Falls and that the whole treaty was prepared for the purpose of quieting the titles of New York corporations to these rights.

Lodge then intimated that the Michigan Senator was not fully acquainted with the treaty. This aroused Smith, who told Lodge he did not like his looks, his scowl or his irritating manner.

Tillman interrupted with the remark that he hoped Massachusetts and Michigan would get together, "said Tillman, referring to his encounter in the Senate a few years ago with his then colleague, McLaurin, "it would distract from one chapter of my history which I would like to put behind me."

After a long debate members of the foreign relations committee suggested that they be permitted to consider that the treaty be not recommitted, but the discussion will be resumed Monday.
