

12 MOUNTAIN LEAGUE PLANS DEFERRED

Lucas Will Not Proceed to Salt Lake Until Grim is Able to Go There.

SUNDAY REST LAW MENACE

If Passed by Utah Legislature, Salt Lake and Ogden Will Be Out of League—Chief Esola Visits Portland.

President Lucas' trip to Salt Lake City for the purpose of opening negotiations for the organizing of the Inter-Mountain League has been postponed because of the failure of Jack Grim to announce his departure for the Inter-mountain metropolis.

On this account the progress of organizing the new league will be delayed indefinitely, but President Lucas declares that there is plenty of time to put the league in operation in the future.

The illness of Mrs. Grim is a source of considerable worry to the baseball promoter, but President Lucas declares that he cannot get away until she shows signs of improvement.

The proposed new association will be one of the most successful leagues in the country, unless the Utah Legislature enacts the drastic Sunday law which has been under consideration in that state for some time.

Detective Frank Esola, of the San Francisco police department, was in Portland for a few days on his way to Seattle to secure and take back a prisoner wanted in San Francisco for robbery.

Detective Esola is better known to the baseball fans as "Chief" Esola. He is the big catcher who did the backstepping for the San Francisco club for two seasons, but quit baseball in 1906.

BIG CLASS APPLIES

Teachers Take Tests for State and County Papers.

LARGER THAN LAST YEAR Present Class Numbers 83, of Whom 32 Want State Certificates.

Only 10 Young Men Are Among Those Examined.

Applicants for teachers' certificates from Multnomah County and the state are taking their examinations on the eighth floor of the Marquam building.

There were 83 applicants this year, 32 for state papers and 51 for county certificates. The class is 25 per cent larger than last year's, and while only 12 young men are taking the examination, there are 71 young women.

The examination is being conducted by County Superintendent Robinson, Principal J. T. Gregg, of the Hawthorne School, and Principal Hopkin Jenkins, of the Holladay School.

Mr. Robinson said this city. If Gotch will be chosen because room in none of the schools is available at this time of the year.

Some who are taking the state examination are endeavoring to secure five-year certificates, while others are working for diplomas, which entitle them to teach in Oregon for life.

The county and state examinations are held twice a year, on the second Wednesday in August and the second Wednesday in February.

The applicants for state papers were examined yesterday on writing, history, spelling, physical geography, reading and psychology, while the test for county certificates covered writing, history, spelling, reading and physical geography.

County applicants will be questioned on written arithmetic, theory of teaching, grammar, physics and civil government.

Some of the questions asked the teachers-to-be yesterday were: State the importance of the Conway Canal. In what way did the tariff injure the South? In what way did it benefit the North and West? State four facts upon which the United States based its claim to the Alaskan territory.

What system of penmanship is now used in Oregon schools? Why is it unfavorable to a large population? Of what importance are the district school laws? How much time would you give to them in teaching reading? Define homonym. What is meant by "State's Rights"?

At Columbia Beach Waiting for the "Papa Train"

The Best Answer Possible to the Vacation Question Is: Own Your Cottage-by-the-Sea

Are you a man of family, Mr. Reader? If you are, you, beyond doubt, are the chairman of the ways and means committee, duly considering where to go this coming Summer.

The merits and demerits of the various Summer hotels are being discussed in the light of past experience. You recall with a shudder the scantily-furnished, ill-kept little room you occupied in a hotel of high-sounding name at some resort or other.

You remember that the thin partition walls didn't keep out the noise of a family jar to the right, nor the snores of a fat drummer in a room to the left. You also distinctly remember that windows were screenless, and you very distinctly remember the size of your bill.

Another Summer you spent in the country—anticipating with keen relish new-laid eggs, fine butter, real cream and milk and genuine, home-grown vegetables and berries. You guessed wrong, Mr. Farmer shipped all those nice things to the big city hotels and fed you on canned stuff bought at the cross-roads grocery. But his bill—you remember it yet.

You remember that, after two weeks or less of your past vacation, you were glad to get back the comforts of your city home.

Vacations are right and proper—if gone about in the right way. Let us show you the way.

Let your next vacation be spent in your own Summer cottage by the sea—at Columbia Beach, the Seaside Capital of the Northwest.

Lots can be had for as little as \$200, a cottage can be built for a few hundred more. By way of parenthesis, we will add that vegetables, eggs, butter, milk and cream of the best quality, can be bought close at hand, from the producer, at low prices.

Ocean bathing is not the only attraction at Columbia Beach. A large fresh-water lake and two streams invite you to swim, to sail, to canoe, to fish. There's hunting in the woods close by; there's a golf links; there's a board walk for strolling; there's a sun parlor out at the end of the ocean pier—there are new delights at every turn.

Columbia Trust Company Portland, Oregon. Gentlemen: Kindly send me your Columbia Beach Booklet. Name: Address:

Columbia Trust Company

Seventh Floor, Couch Building Fourth Street, Near Washington

Synopsis

Below follows in condensed form many "reasons why" Columbia Beach ought to be the location of your Summer home:

Accessibility Columbia Beach is very easily reached from all points in the Inland Empire. Heads of families will find it easy to spend week-ends with their folk. The "papa train" stops at Columbia Beach.

The Strand Close investigation of all Pacific Coast resorts showed that no other beach approaches it in the smoothness and freeness from rocks and boulders.

Water Sports A large fresh-water lake and two streams afford a splendid field for sailing, canoeing, swimming and fishing.

Pier and Sun Parlor A large pier will be constructed that at the ocean end will contain a sun parlor.

Golf Links A perfectly appointed golf links will be laid out, under the direction of an expert at the national Scotch game.

Athletic Field This field will contain a baseball diamond and quarter-mile track, tennis court, etc.

Chautauqua Hall A large auditorium hall will be constructed to meet the wants of public gatherings.

Summer Hotel There is to be a hotel. It will differ greatly from the common beach hotel. It will be better in very many ways.

Board Walk We couldn't call Columbia Beach complete unless there were a board walk. Well, there will be one—a fine one.

Regulations The promoters of Columbia Beach assure the public most earnestly that no undesirable persons will be tolerated under any circumstances. Columbia Beach is to be a family resort, where one's wife, sister or daughter may visit without fear. No liquor allowed.

Prices and Terms Lots range in price from \$200 upward. Terms are 10 per cent down and 2 per cent per month.

Further Information Come to the office any afternoon and see Columbia Beach through the stereopticon. This tells the story far better than the printed word could possibly do; or fill out attached coupon.
