## KING OF SMELTERS FLEEING FOR LIFE

Altitude in Mexico Makes Daniel Guggenheim Seriously III.

SPECIAL TRAIN TAKES HIM

Visiting Smelters at Aquas Calientes. He Is Attacked by Dilation of Heart and Hastens From Mountains.

MEXICO CITY. Feb. 15 .- According to a special dispatch received here tonight from the City of Aguas Callentes, Daniel Guggenheim, of New York, head of the American Smelting & Refining Company, is being rushed east aboard a special train in order that his life may be saved. Mr. Guggenheim visited Mexico City a few days ago and the altitude so af-

gerously iil. He proceeded to Aguas Callentes, where one of the large smelters of the company is located, and there an acute dilation of the heart occurred. The physician who was called decided that the millonaire's life depended on his getting to sea-level at the earliest possible moment. The special was ac-cordingly made up and is now hurrying to the border. Dr. Bennett, T. F. Gug-genhelm and W. C. Potter are accom-

FREIGHT ROBBERS CAUGHT

Railroad Detectives at Pendleton

Capture Men and Recover Goods. PENDLETON, Or., Feb. 15 .- (Special)-

der by the wagon-load in this city this evening was the culmination of eight weeks work by F. E. Schuyler, with the help of the county officers. William Edweeks' work by F. E. Schuyler, with the help of the county officers. William Edwards, truckman at the O. R. & N. depot, has confessed, and with him Frank Ely, transcentinental freight inspector, and Charles Dickens, warehouse foreman, have been arrested upon good evidence. In connection with the arrests have been captured two kegs of whisky, four pairs of shoes, coffee, oysters, one dozen shirts, two caps, syrup, underwear, harness, barbed wire, chicken netting, rugs, tents and tools, The three men arrested, including the one who has confessed, are well known here. The man who confessed and one other are married. Goods in transit through Pendleton have been missed for some time. The company sent Wood here to work with Schuyler and they have made what is conceded by officers here to be one of the finest clean-ups ever known in this part of the country. More arrests are promised for tomorrow.

TWO FACTIONS FIGHT FOR CON-TROL OF DALY-WEST.

Daly and McMillan Accuse Bamberger and McCornick of Bad Management.

DENVER, Feb. 15 .- The first clash in the bitter battle for the control of the directorate of the Daly-West Mining Comconrectorate of the Daly-west Mining Com-pany, whose property, located at Park City, Ulah, is one of the biggest lead and silver producers of the country, took place at the opening of the annual stock-holders' meeting here today, when A. C. Ellis, Jr., of Sait Lake, was made chair-man of the board. fected his heart that he became danman of the board.

man of the board.

A faction of the stockholders headed by John J. Daly and H. G. McMillan, of Salt Lake, and composed largely of Cincinnati capitalisis, is bitterly opposed to the present board of directors, and is propared to make a desperate right against the election of officers favorable to the Hamberger and McCornick inter-

The Daly faction alleges that the stock has declined in value 50 per cent under the present management and that the 330,000 reserve fund is on deposit with W. S. McCornick & Co., where it is drawing no interest for the company. The proposed consolidation of the Daly-West, the Daly and the Ontario companies is also a bone of contention between the fractions.

The Bamberger faction is confident that the election will result in a vindicatio of the present officers and policies of the

FAREWELL TO HIS CHURCH

Roosevelt Given Reception by Congregation at Capital.

WASHINGTON, Feb. 15 .- In the little Grace Reformed Church, which he has attended ever since he has been in Washington, President Rooseveit tonight was given a farewell reception by the members of the congregation. After a few remarks, in which he spoke of the pleasure he had found in altending the services there and refer-ring to the fact that he had not been absent from a single communion serv-ice when he was in the city, the President shook hands with all present. The

little church was filled. The President said among the treasires he prized was a mounted piece o the cornerstone of the church, presented to him by the mason who shaped the stone. The service closed with the singing of the President's favorite hymn. "How Firm a Foundation."

During the early hours today streetcars were at a standstill while telephone and telegraph service was almost demoralized. All railronds entering the city reported their trains many hours behind schedule. In some parts of the city the prevailing strong wind had banked the snow into high drifts. Snow has fallen all over the Southwest. Snow has fallen all over the Southwest.
Temperatures have dropped from 30 to

AMENDMENT OF CHILD LABOR LAW PROPOSED.

Would Permit Stage Appearance of

Minors With Approval of Child Labor Commission. A bill to allow children under 16 to an-

pear on the state, subject to the permis-sion of the Child Labor Commission, framed by John F. Logan, was expected to be introduced at Salem last night by Senator Beach. The bill is intended to eliminate certain hardships which it is claimed the present law imposes by reason of the rigidity of its provisions, A number of very important and high-class plays, the theatrical managers say, are turned away from the cities of Port-

are turned away from the cities of Portland because in one or more of the acts a child's part is played.

The bill seeks to remedy this by giving full power to the Child Labor Commission to have the matter fully laid before them, with power to decide in each case on the merits as they appear to the Commission.

There is no intent, say the framers and supporters of the bill, to let down the bars for indiscriminate and general employing of children in theatrical work. But the managers point out that some of the best dramus and entertainments now on the boards cannot be played under present restrictions, and they say that it will be only fair to differentiate between WELLINGTON, N. Z., Feb. 15.—It is now believed that the death roll of the wrecked starmer Penguin will reach 75.

Twenty-three bodies have been recovered.

Will be only fair to differentiate between those plays where children could, with perfect propriety and safety appear, and those where they could not thus take part, leaving the judgment in the hands of the Commission.

A talk with Mrs. Millie R. Trumbull, Cal.

closed that she had received a copy of the bill in question, but that she had not found time to read it over thoroughly not found time to read it over thoroughly and decide upon its merits. Mrs. Trum-bull said it was a very difficult matter to pass upon and that she would prefer to have more opportunity to look into the proposition before giving judgment

the proposition before giving judgment upon it.

She said she was fond of the theater herself, and that she would like to see the members of the Commission and discuss the bill in all its phases before she would care to say whether she would favor or oppose its provisions.

Portland theatrical managers are heartly in favor of the bill as a just and reasonable measure which they say gives the Child Labor Commission full power to see that no possible invasion of the child's rights is suffered. They aver that it will allow of the presentation of that it will allow of the presentation of high-class plays which would otherwise be shut out under the present iron-clad rule, and that not even the most violent advocate of suppression of child labor can find fault with the measure, hedged about as it is with the protective powers of the Child Labor Commission.

WASHINGTON SOLONS THE IN CAUCUS.

Anti-Saloon League Bill Seems Doomed, but Senate Measure May Have Chance to Pass.

OLYMPIA, Wash., Feb. 15.—(Special.)—The best that the advocates of the McMasters Anti-Saloon League local option bill can hope for in the Senate is a tle vote, which means loss of the bill. From caucuses that were continued in section partit means have the continued in section partit means and the section of the bill. ontinued in session until nearly midnight, it is indicated that the princi-pal issue now in the local option fight is whether the bill that passed the House shall be amended or substituted by another bill embracing practically the same main features. The friends of the House bill are now willing to eliminate the county unit, and make incorporated cities units in themselves. The opponents of the House bill, a ma jority of whom have heretofore op-posed the city unit, are willing to conede it also, but do not want the Anti-Saloon League bill in amended form.

The Senate will probably stand 21 to 21 on the question. Twenty were ac-counted for in the caucus tonight as friends of the Anti-Saloon League bill but they also claim Rosenhaupt of Spokane, who attended neither conference. The opposition, however, is apparently the more solid, and indications point to the defeat of the House meas ure and the substitution of a Senate bill different in numerous minor par-ticulars but embracing the main feat-

ure of making incorporated cities units in themselves and the county outside of cities separate units. The opposition also objects to the special election feature.

ATLANTIC FLEET MAY REACH

PORT SATURDAY.

Aerograms Show Position 1140 Miles East of Hampton Roads Monday.

NEW YORK, Feb. 15 .- A wireless dispatch was received here tonight from the flagship Connecticut, of the American battleship fleet, now returning from its world's voyage, stating that the Con-necticut at 8 o'clock tonight was in the position 34.17 latitude North and longitude 48.63 West, or a little more than half way between the Cape Verde Islands

A wireless dispatch received at 8 o'clock from the battleship Maine, flagship of the third squadron, which will welcome the fleet, states that the Maine was in the position 32:45 degrees latitude, 56:15 degrees

longitude west, off Bownude.
The position signalled by the battle-ship Connecticut shows that the fleet is 1140 miles to the castward of Hampton Roads, and that the welcoming ron, headed by the warship Mal ron, headed by the warship Maine, is about 380 miles southwest by west of the approaching fleet. The rate of speed of the two fleets is not given in the wire-less dispatches, but, assuming that the battleships make the same rate of progress that they have in the past few days, the warships will meet shortly after noon on Tuesday.

BAD IMPRESSION IN LONDON Dismissal of Kiamil Pasha Rouses

Indignation of English.

LONDON, Feb. 15.—The dismissal of Klamil Pashs has created a decidedly bad impression in England of the stability of the new Turkish regime. The Young Turks up to the present time have commanded the strongest support here. It is apparent that the constitutional government is trying to make believe that the country in reality is being lieve that the country in reality is being managed as was France during the revolution, by the committee of union progress. Many members of Parliament are described as yoting against Klamil Pasha at the command of the committee and contrary to their own judgment.

The real reasons of the Grand Vizier's downfall are not yet understood here. It is an interesting coincidence that yesterday's vote of dismissal followed by exactly one month the chamber's unanimous vote of confidence in Klamil Pasha.

SNATCHES \$3800 IN BANK

Ex-Convict Robs Messenger, Is Caught and Confesses.

MILWAUKEE, Feb. 15 .- Grabbing from Daniel Sullivan, a messenger, a hand satchel containing \$300 belonging to a big department store, a daring thief to-day made his way out of the First Na-tional Bank with the loot and escaped. Sullivan was sent to the bank with two checks, one for \$3800, the week's payroll, the other for \$300. He cashed the check for \$300 and put the money in a small hand satchel, then turned to have the check for \$300 cashed. He al-lowed the grip with the cash to escape his attention for a moment, during which a stranger grabbed the grip and left the bank unnoticed.

James Morgan, recently released from the Illinois penitentiary at Joliet, was arrested tonight at Racine, charged with robbing the boy. Morgan is said to have confessed to taking the money, and that he had four accomplices. About \$500 of the stolen money was recovered. The accomplices have not yet been appre-

# HOUSE FOR STATES

Passes Statehood Bill Under Suspension of Rules.

**EULOGIZES CONGRESSMEN** 

Vote on Bill Delayed Until Tributes Are Paid to Smith and Andrews by Cole, Sulzer, Chandler and Stanley.

WASHINGTON, Feb. 15 .- The struggle of Arizona and New Mexico for separate statehood was rewarded today insofar as the House of Represen-

day insofar as the House of Representatives is concerned, when that body, under suspension of rules, unanimously passed the bill granting separate statehood to the two territories. Hamilton, of Michigan, having the measure in charge, spoke briefly in support of it. He said it was not a party question. Both sides, he declared, were now rallying to fulfill party pledges.

party pledges.
Smith, Arizona's delegate, asked for the passage of the bill. That such a bill has not been passed before, said he, was a matter which stood as a shame against the record of Congress. There were cries of "Vote! vote!" but the ballot was not taken until Stanley of Kentucky, Chandler of Mississippi, Cole of Ohio and Sulzer of New York; had culogized Delegates Smith and Andrews, and predicted their early return to Congress.

### NO NEED OF TAKING COLD

COLDS CAN BE PREVENTED. SOME FACTS REGARDING THE DISEASE.

Cold Water, Intelligently Used, Proper Diet, Exercise and Common Sense Are the Preventives.

Habitual colds are due to an ill kept skin on the outside and dyspeptic mucous mem-brane on the inside, the result of indigestion, coupled with carelessness. Cold water, proper food and common sense are the foundations upon which a preventive must rest. A cold sponge bath, one to three minutes long before breakfast, with a brisk dry rub, is excellent-usually all that is necessary to keep the entaneous circulation alive and the skin reactive to sudden changes of tempera-

For those unaccustomed to cold water, tolerance can be gained in three weeks' time by the use of water at any comfortable tem-perature, making it one degree colder each day, until it can be employed without dread as cold as it will run. Sea salt may be added

to the water for its stimulating effect. Cold water intelligently used does not steal vitality, but fosters it. It stimulates the nerves that control the expansion and contraction of the blood vessels and regu-

lates the entaneous circulation.

One should "keep moving" when wet or chilly and not stand on a street corner or elsewhere without taking a deep breath.

The lungs used in this way act as a pump to drive the blood along. This practice, with the others named, will reduce to a shadow the liability of taking cold every little while. If you should contract a cold, get rid of it as quickly as possible, for every cold weakens the lungs, lowers the vitality, and paves the way for more serious diseases. This is best accomplished by the use of Chamberlain's Cough Remedy, a preparation that can always be depended upon, and that not only cures the cold but counteracts any tendency toward pneumonia.
