Awaits Report of Brush's Committee-Pacific Coast League Affairs Discussed-Agreement May Be Amended.

CHICAGO, Feb. 16.-The opening sessions of both the National and American Baseball Leagues' today developed little ensational matter.

At the National League session the schedule was adopted without change and it was decided that the annual meetings shall be held in New York on the second Tuesday in December and special meetings whenever emergency arises.

The alleged attempt at bribing Umpires
Klem and Johnstone during the closing game in New York between the Chicago and New York teams was not discussed, although a special committee, headed by President John T. Brush, of the New York Nationals, had been expected to report. President Brush may not be able to attend and his absence may result in

stponement of the matter. a postponement of the matter.

The two important moves of the session were made by Presidents Comisky and Murphy of the American and Nation Chicago teams, respectively. The former has secured C. C. Cravath, the Boston American pitcher, and Mr. Mur-phy has annexed George Browne to his fielding staff. The latter has been a star performer with the Boston Nationals.

No Action on Class AA.

The American League discussed the playing schedule, but final action was postponed until tomorrow. The class

Over Release of Backstop. CHICAGO, III., Feb. 16 .- (Special.)-

No. Murray will stay with the team, but Whiteman and Guyn will join the Portland team of their own volition.

Manager McCredie went to Vancouver last night and could not be located by telephone to find out his intentions rela-tive to Taylor's refusal to turn over Murray to Portland. Taylor probably imagines that he will be able to get away with his play for Benny Henderson and is holding back the catcher to force an issue with McCredie over the outlaw player. McCredie, however, is something of a scrapper when it comes to a showdown and he may make things to a showdown and he may make things a trifle warm if the Boston man per-sists in holding out the catcher agreed upon. Murray is a splendid backstop and, while McCredie wants him badly enough, he has protected himself by securing Armbruster and can give Taylor | 145 curing Armbruster and can give Taylor a lively run for his money unless the latter lives up to his agreement. Mc-Credie has enough evidence to back up his claim with the commission, and if Murray is not forthcoming it is nearly certain that the Portland man will demand recognition from the National com-

Easterner Positive He Can Make Weight Limit and Fans Are Evenly Divided on Outcome of Bout.

Eddie O'Connell, the walterweight champlon, and John Berg, known in the athletic world as Young Hackenschmidt, have finished training for their wrestling match in the Exposition Rink tomorrow night, and both are in the pink of con-dition. By the terms of agreement Young Hack must make 165 pounds at the ring-side at noon tomorrow, and announces that he will come in under the prescribed limit. Yesterday he was a trifle under 167 pounds, and will easily work to the required weight.

O'Connell will enter the match at catch-weights, which means that he will be about 150 pounds. Owing to the differ-ence in weight "Hack" must throw O'Connell four times in an hour or for-feit the match. If O'Connell succeeds in putting the European light heavyweight champion to the mat once in the 60 minutes the Multnomah instructor wins.

Hackenschmidt has been working out for the past six weeks, figuring that O'Connell would have to meet him soon. Since the man signed up two weeks ago "Hack" has been working hard. He came here with a badly sprained ankle, but there is no pain or swelling left in the member. He has been classed as one of the fastest wrestlers in the world, and O'Connell, with all his reputation for speed, will have to travel some in order to get away from the heavier fellow. speed, will have to travel some in order to get away from the heavier fellow. In addition to outwelghing O'Connell and being just about as fast, "Hack" has the added handleap of strength. He has a wonderful back development and an unusually large neck for a man of his unusually large neck for a man of his weight. One of his strong points has been the baffling of opponents who were inclined to work around his head in an effort to put his shoulders to the mat. He has a great knowledge of the game, although it is doubtful if his mat education extends beyond that of the Multnomah instructor.

He wants to cover the \$500 O'Connell has posted to meet Dan Sullivan or Strangler Smith, but O'Connell has not said yet whether or not he will be ready to meet his old opponent. Albright will try to throw Parker twice in an hour. Parker has quite a repatation over the Northwest as a 135-pound man, while Albright will bounce the scales at 145 pounds. Parker says Albright can't throw him twice in an hour, which shows that the Slavonian kid is full of confidence in his grappling ability. IRVINGTON ORGANIZATION TO CHANGE POLICY.

Plans for Rapid Expansion Will Be Adopted at Annual Meeting Held Tonight.

What promises to be one of the most important meetings held on the East Side for several months will occur this evening in the clubhouse of the Irvington Tennis Club. The occasion is the annual meeting of the tennis club and seven directors are to be chosen for the ensuing year. Jay S. Hamilton, the retiring president, will give a report of the year just closed and much interest will be shown. For many months past there has been a general feeling that there should be a reorganization of the affairs of this

club. The title has in the past been vested in a corporation known as the Irvington Improvement Association, whose stockholders were among the prominent residents of Irvington and the East Side. The success of the Irvington Tennis Club has created a feeling that the organization should be made perpetual and should own and control the property which is now under lease. This sentiment has grown until the members are new ready to act.

until the members are new ready to act.

Options have been secured on 75 per cent of the stock in the present holding company and the plan will be presented tonight whereby it is proposed that this entire property be purchased and devoted for all time to the social and sport-loving people of the East Side. At present the property consists of 12 lots with a clubhouse valued at about \$4000. It is the plan to purchase the remaining eight lots in block 20 and devote the entire tract to tennis courts, buildings, playground and whatever else might add to the beauty and ever else might add to the beauty and advantage of this addition.

EXERCISE YOUR LIVER

The value of proper exercise as a means of gaining and preserving health has become generally well known. There are a number of good ways of exercising the various outer muscles and parts of the body. There is also one good way of exercising the inner organs, particularly the liver. The inner organism is a sort of automatic machine, and the principal thing necessary to its proper performance and exercise of its paris is to keep it clean and well offed, so that it doesn't clog and run irregularly. The liver is one of the most important parts of this machine. When it stops, the machine works hadly—and it it's your machine, you suffer. A very simple and good way to keep your liver going right and to avoid all lils, such as constipation, billousness, headache, handice, siddiness, sour way to keen your liver going right and to avoid all like such as constipation, billousness, headache, faundice, giddiness, sour stomach, rising bile, is to take Lane's Pilis—the one best liver exerciser.
