Says the Charter Commission Erred in Not Providing for Present Officeholders.

TAKES FLING AT COUNCIL

Says There Would Have Been No Objection if Proposed Reduction of Councilmen Did Not Apply to Those Now in Office.

STATEMENT OF JOHN F. LOGAN. The Charter Beard evidently

o insert a provision worded something like this: Provided, however, that the provisions of this charter shall in no wise apply to the members of the present City Council, or office-holders, or to their successors assigns, even unto the fourth generation. Had we inserted such a provision, I believe there would have been no trouble having the sed charter submitted to the people by the Council.

Lawyer John F. Logan, who was a ember of the Charter Board of 15 taxpayers, which submitted to the City Council the proposed commission plan of municipal government, declared vesterday that the Board left out what ap pears at this time to have been a most important section—one providing that the proposed charter should not apply to present office-holders, and particularly members of the Council. He said that in the light of events, he can now see where It would have been wise to have inserted such a clause. He was speaking with regard to the refusal of certain Councilnen to allow the draft to be placed be-fore the electors at a special election. "The Charter Bourd," said Mr. Logan,

The Charter Bourd," said Mr. Logan, "evidently made a grave mistake in neglecting to insert a provision worded something like this: "Provided, however, that the provisions of this charter shall in no wise apply to members of the present City Council, or office-holders, or to their successors or assigns, even unto the fourth generation." Had we inserted such a section, I believe there would have been no trouble having the proposed charter submitted by the Council to the charter submitted by the Council to the people. There is no doubt whatever, in my mind, that the sole reason why the Council refuses to let the charter go to a vote is that it, if adopted, would put them all out of office."

The commission plan, proposed by the Board of 15, requires only six Councilmen, and the present form of government calls for 15. However, the members of the Council deny that any personal matters are controlling them in refusing to vote for an ordinance, submitting the proposed charter. Those opposed to submitting it are Councilmen Cottel, Concantage of the Councilment Councilment Cottel, Concantage of the Councilment Cou not. Dunning and Beiding. Without their votes, it was impossible to carry the emergency clause when the vote was taken on the ordinance last Wednesday, and therefore the majority members were thwarted in trying to submit the proposed charter at a special election to be held before the primaries, as the state law specifies that no initiative measure or new charter can be submitted less than 60 days prior to an election, which would shut out the vote on the proposed charter, unless an emergency clause is passed with the ordinance at tomorrow's Council session. As it requires II affirmative votes and the approval of the Mayor to

# ESTATE GOES TO WIDOW

WILL OF JACOB MAYER ADMIT-TED TO PROBATE.

Children and Grandchildren Given Masonic Emblems and Small Sums of Money.

The \$200,000 estate of the late Jacob Mayer, ploneer merchant, who died December 1, has been admitted to probate by the County Court and the terms declare an emergency, it will be seen that it is hardly probable that the commission plan of charter will be submitted to the people before the regular election, to be held in June.

In the meantime, a new committee, composed of seven members, is just commencing its labors on amendments to the present charter, to be submitted in case the people reject the commission plan. It is the aim of this committee to strike a golden medium between the charter as submitted to the Council by the committee of 15 and the present charter, and it is thought that no very radical amend

If the English acreage should be reduced 15 to 25 per cent this Spring. Pacific Coast hops in the coming Fall would certainly sell at good prices, A stiff advance in 1909 hop prices is apparently just what the Pincuses want. They may be bearish yet on 1908s, but they are bulls on the coming crop, as is shown by their heavy contracting. Their short selling experience will close at least temporarily, with their 1908 shipments. If they

can force prices next Pall up to a high level, they, and all other dealers who are willing to take a long chance on the market, will be in a position to make term sales to brewers at good prices. The profit to the sellers will come in succeeding years when the reaction will force values down a again.

It was expected to move the British ship Carmanian from O. & C. dock yes-terday to Inman-Poulsen dock for loading, but a timber raft alongside pre-vented the towboat from getting at her, and it was thought not best to move

the raft out into the current. With the exception of the Break-water and United States vessel Heather no display of bunting appeared on the masts of American vessels in the harbor yesterday. Comment was made that this omission is in contrast with the practice of foreigners calling at this port, for National holidays in the countries represented invariably call for proper marine observance.

LEAGUE WANTS REASON Anti-Saloon People Desire to Occupy

Paptist Pulpits.

At the meeting yesterday of the Bap-tist Ministerial Association, a communication was read from the Anti-Salcon League regarding the attitude of the association toward the league. From the fact that the request of the latter organization that the Baptist ministers permit the leaugue's workers to occupy their pulpits had not been responded to, it was desired that the reason of the ministers inaction be known. Dr. Brougher declared himself friendly to the league and in sympathy with its work but had not found an opportu-nity to introduce an Anti-Saloon League worker to his congregation. Other ministers expressed their friendliness foward the league and announced that its request would be compiled with as soon as possible.

Dr. Brougher again reminded the ministers of the necessity of their supports the matter of their preparation the matter of their preparations.

port in the matter of their preparation for the Northern Baptist Convention to the held here next June. He said so much effort has been made to bring the Baptists of the entire North here that they must be accorded a fitting reception, and that sufficient funds for this purpose should be assured.

The paper of the day was read by Park Arthur B. Walter at "Force Will-Rev. Arthur B. Waltz on "Roger Will-iams," commonly called the founder of the Baptist Church in America. Dr. Blackburn, of Baker City, formerly pastor of the First Baptist Church of Portland attended yesterday's meeting.
