Less Than 6000 Bales in Oregon Growers' Hands.

Contracting Operations Are Being Carried on by State Dealers. Grain Markets Are Quiet. Advance in Eggs.

The supply of 1908 Oregon hops is running low. The list of unsold lets was obsched up yesterday and showed hut 2055 bules left to in growers' hands. As probably half of this quantity camput be touched anywhere near the present price, but will be carried into the new crop, it leaves but a very small stock for the trade to work upon. The

PORTLAND LIVESTOCK MARKET.

Friendly on Cattle, Sheep and Hogs receipts were liberal yesterday, but its buying, both on local and shipping account, was good. Low prices have efficiently not contained consumption at all points and prevented any surplus accumulating. Sales were made during the day at 27½ and 28 cents, though the movement at the latter figure was not active.

Poultry cleaned up well at very firm prices. The large buyers were again in evidence, having kept off the market for several days. Their absence had no effect on values, as the buying by the small retailers was sufficient to hold the market for in yesterday they had to pay the perice.

The butter market was active and quoted firm at the old quotations.

Violent Reaction in the Stock Market.

Coppers Lead in the Slump With Heavy Selling of Amalgamated for Foreign Ac-

NEW YORK, Feb. 25 .- There was an ab rupt ending today of the strong rally in stocks which developed yesterday. The reaction reached a violence in some quarters that paralleled the demoralized breaks of Tuesday, and in the stocks most affected carried them to lower prices than were touched on the previous break. Speculative opinion, in consequence, was much unset

in the currents of the market.

The special point of weakness was the opper group of industrials. Shutting down of copper mines to limit production, a com urated in the steel market and damaging competition were some of the features. For eign markers seemed notably impressed by the rumers in consequence of the known

weakness of the analytical position in the copper trade. Heavy selling for foreign account of Amalgamated Copper was a main factor in breaking its price.

In the railroad group Reading proved especially vulnerable. This stock was advanced week after week on the strength of predictions that the Supreme Court would hold the commodities clause of the Hepburn law invalid. Now, when the shellef has a stock oversee, that the Supreme Court gained currency that the Supreme Court
may approve this law. Reading cannot be
exempted from any unfavorable effect by
assertions that it is not a party to the suit.
The condition of the steel trade remains

Market Bullishly Affected by Esti-

CHICAGO, Feb. 25 .- Wheat for July deliv ery touched a new high record for the sea son when it sold here today at \$1.04% @ 1.01% per bushel, overtopping by % @ % the previous record established on Decen ber 4. The July delivery again occupied the center of the stage, and demand for that option was brisk throughout the entire

of injury to the Fall sown crop in Missouri and Kansas by Hessian fly and "Winter killing." The market was also bullishly affected by an estimate of the shipments from Aresentina for the week, which predicted a shortage of nearly 2,000,000 bushels compared with the previous week. This els. compared with the previous wees. This factor, however, was partially offset by a moderate decline in the price of wheat at Liverpool. During the day the July delivery ranged between \$1.93 and \$1.04% of 1.04% and closed at \$1.04% \$1.04% \$1.04%, and May closed at \$1.16%.
