Miss Byers was born at West Liberty, Iowa, March 25, 1890, the family making their home from her early childhood in Iowa City. On going to the house for provisions yesterday morning, Mrs. Pemberton found it filled with smoke and quickly informed the McCornicks. An investigation has thus far failed to disclose a culprit.

Oaks May REMAIN CLOSED.—Whether he Oaks, the Portland Rallway, Light & Power Company's Summer amusemer park, will open this season is as yet un-decided. Indications are that unless the Madison bridge is reopened to streetcar traffic, the resort will not be run as in the past but will be conducted merely as a public park and big rose garden. Varus amusument features have been of forced to the Oaks management during the past few days by J. H. Fitspatrick, manager of Idora Park, Oakland, Cal., boror. Low DEATH RATE SURPRISE-Believing from the remarkably low death rate that the statistics covering the deaths for 1908 in Portland were defective, Chief Statistician Cressy L. Wilbur, of the United States Census Burcau, has written a let-ter to Miss Alice Hutchinson, Federal Statistician for the city, asking that her reports be again examined. According to these there were 77 deaths less during 1968 than in 1907, when the total number was 1800. The decrease in the returns for 1908 is also remarkable when the im-mense increase in population is taken into consideration.

With the opening of the millinery establishment of D. M. English & Co., at Morrison street, near Seventh, in the Marquam building, on Saturday next. February M. the ladies of Portland will have an opportunity to inspect not only a splendidly appointed store, but the most carefully selected up-to-date stock of millinery ever shown in the city. Every article in the establishment is absolutely new, of the very latest design, style and fashion, and it is the aim of the management to earn and merit the reputation for being the leading milliners of Portland. Not only will the latest creations of the milliners art be found in the store, but a competent corps of trimmers will seek to outdo the imported ideas by initiative artistic designs. Whong Man Is Fined.-During a meeting of the fire committee of the City Executive Board yesterday afternoon, it was disclosed that the committee falled of its intent recently in fining Charles Char-boneau \$5 for hypothecating his salary warrant as a fireman to a money-broker. The man intended to have been fined in that sum was George Finney, another fireman. A mistake in the names was made in some manner, so that the one suffers for the other. Finney was very "saucy" to the Mayor and members of amittee, and the fine was intended

The County Com-missioners thought to close the dilapi-dated structure next Sunday, but when dated structure next Sunday, but when the machinery which operates the draw unexpectedly failed to work, they decided to close it permanently before that time. The draw will remain open to permit vessels to pass up and down the river, and the city may appoint a watchman to take charge of the pile of half-decayed timbers, it having been formally turned ever to the city by the Commissioners.
