

BALTIMORE STORM
LOSS TREMENDOUS

Quarter of Million Will Not
Cover Extent of Damage
to Electric Systems.

100 MILES OF WIRE DOWN

Traffic on Seaboard Railroads Is
Badly Tangled and Trains Run
Many Hours Late—Passen-
gers Suffer Hunger.

BALTIMORE, Md., March 5.—Though thousands of men have been laboring all day in an effort to clear the mass of tangled wires and fallen poles that blocked the city's streets after the inauguration day storm, Baltimore was today still in the shambles of disaster. It is estimated that over 100 miles of wires are down in the city alone, while damage in the surrounding country is still worse. At a late hour this evening Baltimore had but one or two slender and often-falling wires connecting it with the outside world, and much of its telegraphic business was being done by wireless.

Latest and careful estimates based on information obtained today and tonight place the damage by yesterday's storm to public service corporations at from \$700,000 to \$1,000,000.

Frozen to Death.
Harry Granger, a brother-in-law of George R. Galtier, who at the last election was the Republican candidate for Governor, was found dead today, a victim of the storm. Granger attempted to walk from the home of friends in Mount Washington, a suburb, to his home in Forest Park, a distance of several miles, and was overcome by the cold.

Trains on the Eastward lines were running from five to six hours late all day, and many of the regular trains were canceled altogether. One train stopped after ten hours of effort in making 40 miles. During the first three hours of this time the engine was able to drag the crowded coaches but seven miles, each run of a hundred yards or so being followed by a long stop, while the train crew got out and cleared the tracks of fallen wires, broken telegraph poles and other like obstructions.

But few of the trains carried dining cars, and on those that did supplies had run low and food was at fabulous prices. Trains that carried no dining cars were mostly filled with hungry and tired people returning from the inauguration.

No Relief for 24 Hours.
Little parties of those who went from this city to attend the inauguration struggled in with stories of hardships. Traffic out of Washington, they reported, was seriously impeded and there was little hope of relief for at least 24 hours.

Reports received here from Annapolis say that the city is a mass of tangled telephone and telegraph wires, and that local traffic is practically paralyzed. Reports from other coast cities are in the same vein, this storm having covered the entire seaboard in its extent.

RAILROADS STILL BLOCKED

Absence of Signals Makes Running
of Trains Difficult.

PHILADELPHIA, March 5.—The Pennsylvania and Baltimore & Ohio railroad officials say tonight that the train service between this city and Washington is still considerably hampered. Conditions grew worse at nightfall, owing to the inability of the engineers to guide the distance they are from the trains preceding them.

The continued delay is largely due to the unusual congestion of traffic between Baltimore and Washington.

EASTERN CANADA SNOWED IN

Thirty-six-Hour Blizzard Ties Up
Railway Traffic.

MONTREAL, March 5.—A thirty-six hour blizzard has demoralized traffic between Montreal and the Eastern seaboard. Trains are 24 hours behind time.

BLIZZARD IN Central New York

SYRACUSE, N. Y., March 5.—A blizzard, beginning yesterday, continues in Central New York with 14 inches of snow, the heaviest of the winter.

STANTON GETS RESOLUTION

California Solons Devise Unique
Way to Kill Exclusion.

SACRAMENTO, Cal., March 5.—Senator Lester G. Burnett's resolution asking Congress to pass an Asiatic exclusion law which would place Japanese on the same footing as Chinese in this country, was referred this morning in the Assembly to a select committee consisting of Speaker Philip A. Stanton. The Speaker heretofore has opposed all such legislation.

Assemblyman Nathan C. Coghill's joint resolution, asking Congress to keep a large war fleet in Pacific waters, was favorably reported by the Senate committee on Federal relations today.

DISEASED MILK KILLS PIGS

Cows of Berkeley Dairyman Proven
to Have Tuberculosis.

BERKELEY, Cal., March 5.—(Special.)—That much of the milk sold by dairymen of this vicinity contains tuberculous bacteria was conclusively proven by a recent experiment in the medical department of the University of California. During the latter part of December last a guinea pig was inoculated with the sediment from two quarts of milk which had been collected from several localities. A few days ago the pig died with tuberculosis, its lungs being almost completely destroyed by the disease.

BEARS SEND WHEAT DOWN

(Continued from First Page.)

both at home and abroad, gave no indication of the coming era of scarcity forecasted by the believers in higher prices. Argentine and Australia together shipped just a little more wheat than a year ago, despite the phenomenal record that the former country was making at that time. Shipments from Australia were nearly four times as large as a year ago.

May wheat at one time today was 3 1/2 cents below the resting spot of last night, and the July showed a loss of 3 1/2 cents. There were reactions and ad-

vances from the lowest price reached. "In my opinion it will be a long time before we will see low-priced wheat again," said J. A. Patten, who was tonight apparently untroubled by the day's big wheat slump. "I believe it would take an enormous crop to put wheat back to \$1 per bushel in Chicago, and it would take a phenomenal crop, say 750,000,000 bushels, to depress the price to 50 cents. Moreover, provisions are in for an advance. Lard will sell at 12 cents per pound before September 1." Mr. Patten positively denied the rumors current all day on the curb the preceding evening that large private settlements of May contracts had been made. The rumors crystallized the story down to names and figures, the statement being that the settlement of 6,000,000 bushels had been made with Shearson, Hamill, H. D. Sturdevant, resident partner of the Shearson-Hamill house, refused to make any statement, but said: "You can safely take Mr. Patten's word for the whole thing, and I will endorse all he says."

ARGENTINE OATS ARRIVE

Three Thousand Tons of Grain Are
Poured Into New York.

NEW YORK, March 5.—An unusual shipment to this great grain-producing country arrived today in the shape of a cargo of oats grown in the Argentine Republic. There were 2000 tons of the grain, the importation of which is due to its present scarcity and high price here.

TWELVE JURORS ARE FOUND

BUT NEW GAPS MAY BE MADE
IN CALHOUN'S DOZEN.

One Man Escapes Because Business
Would Be Ruined, but New
One Takes Place.

SAN FRANCISCO, March 5.—For the third time during a period of four weeks, 12 men have been accepted by the attorneys in the case of Patrick Calhoun, president of the United Railroads, whose trial upon an indictment charging bribery is now in its eighth week. During a period of two hours today the opposing attorneys accomplished more in the way of actual progress than has resulted in the preceding fortnight. John R. Allen, a dry goods salesman, was the thirteenth juror accepted for examination today, and he was accepted by both sides after a comparatively brief interrogation by either side.

Just after he had been placed to occupy the twelfth seat in the jury-box, John T. Costello, an insurance broker, addressed the court and declared that his business interests would be altogether destroyed if he should be required to attend the sessions of the court for a period of two months or more. When an examination by Judge Lawlor disclosed that the juror was already working about his business affairs, to the exclusion of the proceedings of the court, the judge ordered him excused, and again there was a place to be filled in the panel.

Just before the hour of adjournment the place vacated but a few moments before was again filled. James L. Arthur, a builder, who was examined at considerable length in the last trial of Abraham Ruef and who was peremptorily challenged in that case, was accepted by both sides.

Judge Lawlor, by agreement, fixed next Monday afternoon as the time for exercise of peremptory challenges. It is generally agreed by those in constant attendance upon the trial that an effort will be made on Monday to dislodge one or more of the 12 men already passed upon challenges for cause, and that peremptory challenges will be deferred for the third time.

CONDENSED NEWS BY WIRE
Norfolk, Va.—Orders were received at the Norfolk and Western Railroad today from the Atlantic coast, in commission at Norfolk.

New York.—Protest against the proposed closing of canals in this state on Sunday, as suggested by a recent bill at Albany, is made by the American Power Boat Association.

Havana.—The general amnesty bill passed the Senate Friday. The measure provides for the release of practically all prisoners sentenced since January 28, except murderers.

New York.—A score of more of Broadway theatrical stars contributed the 12 numbers of benefit performance Friday for the widow of the late Lester Wallack, comedian and manager.

Norfolk, Va.—The Navy Department has issued orders detaching the flagship Maine, the New Hampshire, Idaho, and the battleships Montana and North Carolina, from further duty with the Atlantic fleet.

San Francisco.—Plunging down the steep grade on Twenty-ninth street, a runaway horse and carriage crashed into a saloon, seriously injuring five of its passengers and causing a wreck which blocked the street for several hours.

New York.—Automobile coach service was inaugurated between New York and Philadelphia yesterday, but because of an innovation and a number of days gone, which, it is believed, will prove popular.

Kansas City.—After a series of reverses covering a period of three weeks, and involving losses estimated at \$100,000 to \$150,000, the Christie Grain Company closed its headquarters in the Board of Trade building in Kansas City, Kan., Friday afternoon.

Madison, Wis.—The bill prohibiting free lunches in saloons was killed in the Assembly Friday and the bill prohibiting treating in saloons was refused a second reading. The Assembly also killed the bill providing for an appropriation to have Wisconsin represented at the A. V. P. Exposition at Seattle.

St. John, N. F.—Sir Robert Bond, Premier of Newfoundland, announced that his government has agreed upon a contract with the Commercial Cable Company by which the cable will extend from St. John's to New York. This will give quicker and more accurate service to the Newfoundland points in Ireland.

Chicago.—Pure milk in sterilized bottles, to be sold in the public schools at 1 cent a quart, was introduced by the Chicago Women's Club and the Chicago Permanent Extension Committee to the committee on school management. If the Board of Education acts favorably, a number of schools will be supplied at once.

Chicago.—Edwin A. Brown, of Denver, is devoting his time and fortune to the investigation of the conditions of the poor, says Washington shelters the worst municipal lodging-houses in the United States. He spent a day at the municipal lodging-house and came to the conclusion that it is even worse than the Chicago, which he had formerly considered as bad as could possibly be.

Flushing, N. Y.—Efforts made by the District Attorney of Queens County to have an early date set for the trial of Captain Peter C. Halsey, Jr., accused of the murder of William J. Brennan, brought to naught by a decision of the Supreme Court, concerning the date of the trial of the Halsey case.

There were two men in the Queens County House of Representatives who were charged with the murder in the first degree of a man named Halsey. He believed their cases should first be disposed of.

ANNOUNCEMENTS.

Dr. Horn, the optician, 34 floor Sweetland bldg., guarantees satisfaction of money refunded. No fancy prices.

Flood Does \$800 Damage.

VANCOUVER, Wash., March 5.—(Special.)—The main sewer on Main street is choked up and as a consequence the cellars of some of the business houses are partially filled with water. Hamilton's grocery has suffered a loss of about \$800 in damaged stock. A crew of men has been at work for more than 24 hours and the fire engine and hose have been brought into use, but the obstruction is still in the way.

ROME SEES HIGHER DUTIES

Thinks That Under Taft Europe Will Have to Pay Up Deficit.

ROME, March 5.—Although absorbed by the electoral campaign for the Presidential elections which begin Sunday, the press today devotes much space to Mr. Taft's assumption of the Presidency. The Tribune says that along general lines, his programme will be similar to that of President Roosevelt, and it trusts that Mr. Taft will be assisted by the confidence of the American people in his work which will be strongly imperialistic.

In the Spring Those Little Soldiers

In your blood are as weak as your blood is impure. They are the millions of white blood corpuscles, whose duty is to protect the red blood corpuscles and bodily tissues from disease germs, to which you are more exposed at this season than at any other.

Make them strong by taking Hood's Sarsaparilla—the medicine that purifies the blood as no other medicine does. Do this without delay.

Thoroughly Exhausted.—"I was just as soon think of going without bread in my house as without Hood's Sarsaparilla. Many years ago I learned what a good medicine it is. When spring came on I was thoroughly exhausted and obliged to take my bed. I thought I would rather die than be so tired. I began taking Hood's Sarsaparilla, soon noticed a change for the better, and before long was perfectly well. Since then spring has never come without my having Hood's Sarsaparilla." Mrs. A. HOPKINS, 225 E. Ragle St., East Boston, Mass.

Hood's Sarsaparilla effects its wonderful cures, not simply because it contains sarsaparilla, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies that successful physicians prescribe for the same diseases and ailments. There is no real substitute for Hood's Sarsaparilla. If urged to buy any preparation said to be "just as good," you may be sure it is inferior, costs less to make, and yields the dealer a larger profit.

Begin taking Hood's Sarsaparilla today. Get it in the usual liquid form or in chocolate tablets known as Sarsatabs. 100 Doses One Dollar.

TARIFF INTERESTS GERMANY

Kaiser's People Watching New Administration Hopefully.

BERLIN, March 5.—The German Foreign Office views William H. Taft's assumption of the duties of President of the United States as likely to lead to still closer relations between America and Germany and calls attention to the progress made in this direction during the administration of President Roosevelt. The peaceful tone of President Taft's inaugural address has created a most favorable impression in government circles and the Ministry of the Interior is awaiting tariff revision with the keenest interest. The newspapers allude to the orderly ascent of Mr. Taft to the rulership of 100,000,000 people and the retirement of Mr. Roosevelt to private life as an impressive political spectacle.

ENOUGH TO MAKE ANGELS CRY

Taft's Approval of Big Navy Displeases Mr. Birrell.

BRISTOL, England, March 5.—Addressing a political meeting here tonight, Mr. Birrell, Chief Secretary of the Admiralty, pressed the belief that President Taft in his inaugural address pronounced the doom of the hope of the disarmament of nations.

There was universal feeling abroad, in which the United States now joined, Mr. Birrell said, for increased armaments. It was enough to make angels weep, but in face of it, he declared, "it is our duty to maintain our navy strong enough to keep Great Britain's shores inviolate."

JAPANESE PRESS DELIGHTED

Rejoice at Taft's Utterances on Immigration and Tariff.

TOKIO, March 5.—The inaugural address of President Taft, published here yesterday, in evoking appreciative comments. The press of Japan unites in eulogizing Taft's inaugural utter-

would leave for Africa March 23, on the steamer Hamburg.

Mr. Roosevelt is enjoying an uninterrupted democratic life, and intends to continue to enjoy it until standing on his hunting trip.

A deluge of letters, telegrams and cablegrams poured into Sagamore Hill today, bringing to the recent President the kindly sentiment from friends in all parts of the world. So great is the number of these messages that he asked the press today to announce that while he appreciated these and would like to reply to each, it is a physical impossibility for him to answer one-tenth of them.

He added that he would have nothing to say on any subject nor would he attend to any business while he was departing on his hunting trip. Except for a few trips to New York City, Mr. Roosevelt said he would spend the time at Oyster Bay.

WASHINGTON, March 5.—Final preparations are now being made at the Smithsonian Institution for Mr. Roosevelt's scientific expedition to Africa. The work of preparing and packing the collecting apparatus is now well advanced, supervised by Major Edgar A. Mearns, who is to manage the expedition for the Smithsonian Institution.

J. Alden Loring and Edmund Heller, the other two naturalists of the expedition, have been in Washington several weeks, assisting Major Mearns with the final preparations.

Less than 1 per cent of the public has occasion to make use of the world's cabins.
