

McCREDEE OPPOSES SHINN'S TRANSFER

Declares Ewing Is Exceeding Authority in Giving Player to Sacramento.

PLANS TO MAKE APPEAL

National Board Will Be Asked to Prevent California Magnate From Robbing Portland of Promising Youth.

BY W. J. PETRAIN

Whether or not J. Cal Ewing, president of the Pacific Coast League, has the right to distribute the players belonging to other clubs...

Ewing is acting on the authority invested in him as president of the Pacific Coast League by the National Commission...

McCredie has other grievances. The main trouble with Ewing is that he lacks executive tact.

The action of Ewing in selecting Shinn from the Portland team as a gift to Sacramento is shown up in its real colors by the comparison of this clever young player with the castoffs...

When asked about his policy relative to the Shinn case yesterday, Judge McCredie was not in the least chary about denouncing Ewing's action.

"If Mr. Ewing imagines he will make his gift stick, he will find that the Portland club has recourse in matters like this to the courts...

However, it is much better for Walter to have his troubles now than along about July or August.

San Francisco can now be expected

to claim a first mortgage on the P-E-N-N-A-N-T. The Sox yesterday succeeded in whitewashing the White Sox first team...

It is quite unselfish on the part of Sacramento that that club does not import the gallant J. Cal for the services of Jack Craney, Ote Johnson, Frank Armbruster, Jesse Garrett, Ivor Olson, Ed Kennedy and a few others of the Portland team...

"Dugdale is the only manager in the Northwest League who is not claiming the pennant," shouts one of the Seattle papers. Dug won it last season (in the Spring), and he does not like to repeat. Hard luck, Dug. There will be one or two camping on your trail, just the same.

Dug is banking heavily on his infield, which he claims will be a corker. Rose at first base, Bennett at second, McKinnis at short and Roy Adin at third. We agree it looks good, but Mullin, Casey, Cooney and Steton can go some themselves.

Pearl Casey has overstayed the limit time allowed him at the springs by the "gang." The bugs had it that Pearl could not remain away from town more than three days, and as for a week's outing, they gave him the laugh. He has been gone a week.

Carl Duhet positively refuses to go to Wheeling, W. Va., to which Charley Carr, the Indianapolis manager, has consigned him.

Phil Cooney writes that he expects to leave New York this week for Portland, for he is anxious to get into action.

The Seattle Post-Intelligencer devotes a seven-column scare head to "Manager Dickson is already releasing players."

Despite the fact that McCredie's bunch lost the opener yesterday, it does not mean that the Pacific Coast Manager Mac that his own pitchers turned the trick.

"My great big brother Sylvester is likely to be a popular air with the baseball fans this summer."

BRUISES SPOIL DECIDING GAME

Berkeley Cannot Play for Championship of Coast.

SAN FRANCISCO, March 7.—(Special.)—The Dallas, Or., basketball team, champion of the Northwest, which has been touring the Middle Western and Eastern states, was disappointed last night when it missed an opportunity to play a game that would decide the championship of the Coast.

The University of California team won the California title in a tournament that closed last night, but was so bruised at the close that the manager refused to allow his team to enter another hard game.

If the Dallas team can be persuaded to remain until Monday night, the California boys will be ready to meet them to decide the Coast championship.

BULLETIN NO. 3 IMPORTANT NEWS FOR THE PEOPLE OF PORTLAND

Interested in the Property Known as GREGORY HEIGHTS, Now Being Offered

All previous records for crowds were broken yesterday in the attendance at Gregory Heights. The cars were jammed all day. Our office began to fill up in the morning and we were busy selling lots almost from sunrise to sunset.

The news we wish to convey to you is the fact that there are so few lots remaining in GREGORY HEIGHTS that there is every possibility that all of them will be sold during the balance of this week. If there are any people who wish to own their homes in GREGORY HEIGHTS; who have been favorably disposed to GREGORY HEIGHTS; who have not, as yet, seen the property, this week is about all the time that remains to see it.

GREGORY HEIGHTS

GOOD RACE IS PROMISED

MANY ENTRIES FOR MARATHON ON MARCH 26.

Burns, Who Participated in London Event, Leading Hays and Chandler for 15 Mile Will Run.

The "Big Oregon Marathon" has now definitely been acknowledged by the Amateur Athletic Union. T. Morris Dunne, president of the Pacific Northwest Association, affiliated with the A. U., has given a permit authorizing the race to be held under the rules of the A. U. and P. N. A.

The announcement of the date for the race has brought a host of entries who have yet to be passed upon by the promoters. With the exception that no runner will be allowed to compete under 18 years of age, practically no restrictions are to be placed on the runners wishing to submit their names.

The promoters, Karl Armstrong and George Solid, are registered at the Franklin Hotel, and entries will be received by them at that address. They have announced that in order that the necessary track arrangements may be made, entries cannot be received after March 26.

From the list of names at present supplied, it would appear that the "Big Oregon Marathon" will be one of the leading classic races of the kind in the country. Besides having as competitors men who actually took part in the Olympic Marathon at Shepherd's Bush, London, it is expected that an Italian runner, who has actually participated in the triathlon, winner of the Marathon at Madison Square Gardens, New York, will be induced to enter.

Arthur Burns, of Calgary, has promised that he will be a competitor. Burns is already engaged in getting in trim again for the race March 26, and may well be a formidable competitor. He took part in the London Marathon and actually led both Hays and Chandler for upward of 15 miles, but, owing to the fact that he only trained four days in England, after traveling con-
