GENERAL DEBATE MAY BE GUT OFF

Cannon Holds Conference With Taft Over Tariff Bill Situation.

MAY BE CAUCUS THURSDAY

Majority Members Requested to Be Present-Ways and Means Committee Opposes Limiting General Debate for the Present.

WASHINGTON, March 28 .- The tariff situation in the House is no nearer a solution tonight than since the oppovarious schedules developed among the Republicans several days

Speaker Cannon conferred with President Taft at the White House tonight regarding the situation and the ways and means committee was in session throughout the day. The committee decided upon numerous amendments which it will offer to the bill, some of which will affect rates, while the ma-jority are in the nature of corrections and changes in phraseology to prevent misconstruction.

misconstruction.

Speaker Cannon and other majority leaders were in conference with the committee regarding certain schedules and the proposed rule to shut off general debate and proceed to the discussion of the bill under the five-minute rule.

Representative Dwight of New York, the Republican whip, has been instructed to have all the majority members present on Thursday. This is taken to mean either that a caucus will be held to adopt a plan with regard to the consideration of the tariff bill for amendment, or that a rule will be brought in to shut off further general debate.

There is every indication that the rule regarding amendments will permit opening up certain paragraphs for amendment.

the members of the ways and means committee are atrongly opposed to a rule limiting general debate, on the ground that it would be detrimental to the passage of the bill as reported. The committee gave some consideration to the paragraph on coffee today. This and the paragraphs affecting crude petroleum, free hides, bituminous coal, lumber and iron ore, it is understood, will be opened for amendment by the proposed rule. It is said the committee will provide an amendment which will make scrap iron subject to the same duty as pig iron. The paper schedule, it is helieved, will also be affected by committee amendments. The superintendent has been called upon to submit an estimate of the

WASHINGTON, March 28.-The fate of WASHINGTON, March 28.—The fate of himber and hides in the proposed new tariff law probably will not be decided until the conference reports on the bill have been approved by both the Senate and House. These articles have been buffeted aiready more than those of any other class of import. Clashes have occurred over these schedules between the representatives of the East and the West and there is a prospect of the differences becoming so sharp that the Democrats from the Southern states may determine the outcome.

The greatest interest is being manifested in the maximum and minimum features of the Payne bill as a substitute for the existing reciprocity arrangements. There is a rumor that the committee on finance will upset the principle of making the established rate the minimum with a 20 per cent retaliatory mum with a 20 per cent retaliatory

If it should decide to reverse this pro-osition so as to make the established ate the maximum and give to the most friendly nations a favored rate of 20 per-cent less, it is asserted the rates in the Payne bill would have to be raised all along the line. During the consideration of the bill thus far, all of the rates which depend upon existing reciprocity treatles have been laid aside to be considered when the maximum and minimum features are taken up.

Legislation of Session Limited by "Steering Committee."

WASHINGTON, March 28.-The activities of Congress during the present week will be confined almost exclusively to the consideration of the Payne bill in general debate. The Senate will not be in position to take up the bill until it is passed by the House, but the Senate committee on finance will continue consideration of the various accordance of the sideration of the various accordance. sideration of the various schedules of the

In the meantime the Senate will attempt no regular business beyond the introduction of bills. The edict of the "steering committee" that no legislation beyond the tariff and the bill providing for the lith census shall be undertaken has gone forth.

Opinions differ as to how long the discussion of the fariff bill by the House may continue under the order of general debate, but most members predict that the end will be reached by Wednesday. The House leaders are not quite assured of the advisability of permitting opponents to amend the bill and it now seems probable that general debate will be continued until they can reach a surefooting on that point. Eighty-five members desire to speak under the present order. Among the Republicans who will be heard during the week are Representative Calderhead, of Kansas, and Needham of California.

Loading Cannery Supplies.

ASTORIA, Or., March 28.—(Special.)—
The American ships Henry Villard and St. Nicholas began loading supplies today for the canneries on Nushagak River, Alaska.

Mrs. Orr came to the city Saturday from Godfrey, near Marcus, Wash, leaving her husband, who is 60 years old, working in a lumber camp. The family was in stringent circumstances, and Mrs. Orr hoped to get work in this city, where it operated four branch stores and lumber yards in the big Bend country. In 1969 M. E. Hay and his brother first became interested in real state and in 1961 they formed the Big Send Land Company. They devoted all of the canneries on Nushagak River, Alaska.

For several years they kept three or four men traveling in the East, advertis.
