"Klein Was So Gentle," Miss Karasek Tells Friend in Tacoma.

WOMAN NOW HATES HIM

Decided to Return on Learning of Klein's Actions at Home-Her Friend Dora Still Has Implicit Faith in Joshua.

TACOMA. Wash., April 1.—(Special.)—
"I am back home to stay, and so very, very glad to get back. As far as Mr. Klein is concerned, I think I expressed my opinion in that matter in my letter to him, my only letter to Mr. Klein," said Miss Rose Karnsek, late this afternoon, when she stepped from an Eastern train in Tacoma, and flung herself into her mother's arms.

When pressed for further information concerning Klein and his alleged colony

When pressed for further information concerning Klein and his alleged colony at Amden in the Swiss Alps, Miss Karasek begged to be allowed to spend the evening peacefully with her mother and brother and sisters, and refused to be interviewed. Later, when talking to a friend, she declared she had never been better treated than while she was a guest of the Nopper family.

Klein's Guests, Not Prisoners. was not held prisoner against my and neither was Miss Dora Sauva will, and neither was Miss Dora Sauvagoet while we were visiting the Nopper

we want up there as his guests. I went stong because Dora wanted me to, and I wanted to visit the place.

"We stayed there and I listened to Mr. Klein's arguments. He is a very plausible talker and his arguments were good. He seemed so kind and gentle and not at all like the fiend incarnate he has proven himself, and I believed him to be all he represented. I did not hear until too late what he had done to my people, else I would have left Amden sooner. I could not longer remain under the roof If would have left Amden sooner. If would have left Amden sooner. If could not longer remain under the roof which he claimed as his, when I heard he had so brutally treated my people.

Dora's Faith in Klein Perfect.

'Klein has no colony at Amden. The Nopper family has three beautiful homes there, and the place is a famous and well patronized resort. There are not many people there, only a few guests of the family. Amden is a most beautiful place, and I hated to leave, both on account of that and the fact that Dora was there.

"Dora was too happy to deave. Her faith in Klein and his religion is perfect, and she seemed to feel that no matter what Klein did, it was for the best. Of course, I came away with my brother after he had told me how Klein best. Of course, I came away with my brother after he had told me how Klein had treated my mother and relatives, as well as Dora's people, and I have not corresponded with her since. She was a warm friend of mine, but I cannot be released; while friendly while sae remains a follower of Klein and his belief.

Anxious to Forget It All. Klein still has some Masonic embler

of mine and I am going to see that I get them back. They were given to me by my mother on the trip over and I prize them highly. Klein says the emblems are in Amden. If they are, I feel gire he will return them when he gets back there. Mother wants me to meet him and have him refute further statements. I don't know what I will do, but I suppose I will.

"I am so very tired of the entire ments."

so very tired of the entire mat ter that I wish it could be forgotten for eternity. There has been nothing but trouble for me or mine since that man came into my life. There will be nothing but trouble for those who follow after and share his belief. After all of his teaching about being good to others, and that heing his mission on earth, I cannot understand how the man could have acted the way he did when he was opposed, and my mother and Dora's mother wanted him to tell our mother and Dora's mother wanted him to tell us to come home.

this afternoon and accompanied her mother and other relatives to her home, where she says she will remain for some time. When asked whether she would return to Europe to continue her studies in music, she evaded an answer. In music, she evaded an answer.

She spent a week's visit with friends on the road from New York to Tacoma and should have arrived here some time ago. When told of her arrival, Klein had little to say. He said she would vindicate him and hoped she would call on him while he was awaiting the outcome of his case. He said he had always treated the girl respectfully and believed she would substantiate his statement.

WITH LAND BOARD

New York Capitalists to Irrigate Large Tract in Baker County.

CLAIM IS TO BE CONTESTED

The ship discharged her cargo at Cette Baker City Parties Assert Prior Right to Powder River Water. Cash Bond Put Up by Contract Signers.

SALEM. Or., April 1.—(Special.)—The State Land Board today made the most advantageous contract looking to the reclamation of arid land in the history of the state. The contract was executed with O. P. Sinklenburg, representing Evans, Almirall & Co., New York, and unless there is some hitch in the proceedings will lead to the reclamation of from 30,000 to 50,000 acres of arid land in the lower Powder River Valley near Baker City.

Whether the contract is carried through Whether the contract is carried through to fruition or not, there is no chance for the state to lose. The New York concern agrees to make topographic maps of land in the Powder River Valley, to locate all necessary canal lines and prepare plans and specifications and estimates of cost of constructing a great irrigation system involving storage in the Thief Valley reservoir site.

Cash Bond Is Put Up.

The maps, specifications and estimates are to be submitted to State Engineer Lewis inside of six months. One thousand deliars in cash has been deposited with the State Board pending the execution and delivery to the state within 20 days of a \$5000 bond.

Upon completion of the estimates the Board agrees to consider the application of the Powder River lands under the Carey act. If the demands of the com-

of the Powder River lands under the Carey act. If the demands of the company are reasonable, the Board will enter into a contract with the concern which will be required to put up a bond of 5 per cent of the lien allowed to guarantee the completion of the contract. Reasonableness with respect to the lien is defined to be a profit of not to exceed \$20 per acre, above the estimated cost as approved by the State Engineer, and in no event to exceed \$51 per acre.

Others Ready to Contest.

There appeared before the Board to-lay W. D. Thatcher and R. S. Cooking-iam, of Baker City, representing other interests, which have filed on the water of the lower Powder under the 1908 act. or the lower Fowder under the 1908 act, and would claim a priority right as regards the New York concern, which has filed on the land. However, section 47 of the new water code gives the Board the authority to refuse any application if the public interest demands this course. The State Engineer intimates that no one will be allowed to hold up a great project, and one unusually favorable to the public, unless it shall be clearly shown that greater good to a larger number is likely to result.

The courts of Wyoming have passed on this point of priority, which will be one of the features of the Wyoming water code to be looked into by the State Engineer on his forthcoming trip to Cheyenne.

Land Company Owns Railroad.

The Almirall Company controls the Eagle Vailey Rallroad, projected from Baker City to Eagle Vailey, and to connect there with the Oregon Short Line, which is building from Huntington to Lewiston, Idaho, being already complete as far as the mouth of the Powder River, and in the pear future promising a and in the near future promising a

and in the near future promising a water grade to Fortland.

The land embraced in the Lower Powder River project parallels the Eagle Valley road, and is therefore of purticular value to the Almirall Company. Mar value to the Almiran Nearly 50,000 acres is involved, over 30,000 acres of Government per cent of which is irrigible.

STUDY WYOMING SYSTEM

State Engineer and F. M. Saxton to Look Into Water Code

SALEM, Or., April 1 .- (Special.)-State Engineer John H. Lewis and F. M. Saxton, division superintendent of M. Saxton, division superintendent of water division No. 2. Baker City, will leave Saturday for Wyoming to study the operation of the water laws in that state. The new code in Oregon is very similar to the Wyoming law, which has been in effect about 18 years. In that state each man's water rights is defined by statute almost as clearly as are his rights under the land laws, and the Oregon officials desire to study at first hand the perfected system in vogue in Wyoming. vogue in Wyoming.

## STOMACH CENTER OF HUMAN LIFE---ALL ELSE SECONDARY

The success which has followed L. T. Cooper during the past year with his new preparation, Cooper's New Discovery, is unparalleled: Cooper has a novel theory. He believes that the human stomach is directly responsible for most disease. To quote his own words from an interview upon his arrival in an Eastern city: "The average man or woman cannot be sick if the stomach is working properly. To be sure, there are diseases of a virulent nature, such as cancer, tuberculosis, diabetes, etc., which are organic, and are not traceable to the stomach, but even fevers can, in nine cases out of ten, be traced to something taken into the stomach. All of this half-sick, nervous exhaustion that is now so common, is caused by stomachic conditions, and it is because my remedy will and does regulate the stomach that I am meeting with success.

"To sum the matter up—a sound digestive apparatus that is doing its full duty, getting every particle of vitality duty, getting every particle of vitality and the content of the content of

stomach that I am meeting with such success.

"To sum the matter up—a sound digestive apparatus that is doing its full duty, getting every particle of vitality out of all food by transferring it to the bowels in a perfectly digested state—this above all else brings health."
