## COURT TO DECIDE FATE OF PRIMARY

Decision in Illinois Law Is **Expected Some Time** This Week.

FEARED ACT IS INVALID

If No Decision This Week, Position of Court Will Be Regarded as Unfavorable to Constitutionality of Law.

SPRINGFIELD, Ill., April 4.-(Special.) Politicians here believe that the fate of the new direct plurality primary law pending before the Supreme Court of Illinois will be known this week, whether the court hands down a verdict or not. If a decision is announced. It is believed that it will be favorable to the law in general, and particularly to the

sections affecting judicial nominations. If a decision is withheld until after the Judicial primarios, the chances that the law will survive the legal attacks which have been made upon it are not con-sidered very good. In fact, there are many leaders here who profess to have had strong hints that there would be no opinion at this term of court and that an adverse one would be handed down

an adverse one would be handed down later.

The basis for this premonition lies in the fact that the term of Justice John P. Hand, of the Fifth District, is expiring and that Justice Hand is a candidate for renomination and re-election. Whatever their judicial opinion of the law might be, and however strongly they might be, and however strongly they might hold it, Justice Hand and his colleagues would not care to permit that decision to have an effect on the candidacy of any one of their own number. As a matter of delicacy, therefore, the Supreme Court would keep back an adverse opinion until after the judicial primaries this Spring.

It happens that Judge Hand's chances for renomination are as good under the direct primary law as they could be under the old delegate and convention system, but he would not permit his colleagues to consider his personal prospects, however they might stand.

### HOPKINS HAS FAITH IN VOTERS

#### Threatens to Take Senatorship Before Constituents.

CHICAGO, April 4.—(Special.)—Albert J. Hopkins has served notice on Repub-lcan members of the State Legislature lican members of the State Legislature who are voting against him that if they prevent the election of a Scnator this session, he would go to their districts and try his case before their constituents.

"I theroughly believe," said he, "that the people of this state are practically a unit in demanding that the spirit of the primary law be observed, and that I, as the winner in the primary contest, be elected. I am willing to submit this to the voters in every district from which an anti-Hopkins legislator comes, and I am confident the voters will sustain me and rebuke the member."

He says he was in the brokerage and loan business in Boise for several years.

Owing to the proximity to the end of the session, which will be about May 15, Mr. Hopkins' statement has opened up the possibility of the Senatorship battle being continued on the stump all Summer, and possibly fought over again in the primary election of 1916.

If the Legislature takes a recess from May 15 until Fall, it may be regarded as certain that the ex-Senator will go through the state, calling on the veters to force the legislators to carry out the verdict of last Summer's primary. If the primary of 1910 comes along with

the primary of 1910 comes along with the primary of 1910 comes along with the Senatorial contest still unsettled, then it is likely Mr. Hopkins will file a petition, have his name put on the ballot and go before the Republican electors for vindication.

### RUNNER CHARGES FRAUD

Gurband Says Marathon Entries Rode Portion of Distance.

The framers of the French bill are watching the progress on the tariff bill in the United States with keen interest and would welcome especially any indications that the American Congress would modify it in such a way as to permit wider latitude in the subsequent negotiations with France and other countries.

It is pointed out that the United States, which takes less French goods than England or Germany, pays, the maximum rates because it is not willing to accord commensurate concessions for the French minimum rate.

The general impression is that the new American tariff bill, from a scientific standpoint, is far behind modern fluropean tariffs, and it is believed if certain to precipitate a tariff war with Europe.
