POLITICAL PLOT EXPOSED

State Department Hears That Zelaya Plans to Become Dictator of Central America and Is Ready to Act at Once.

WASHINGTON, April &-Nicaraguan mutilation of official dispatches to this Government, and continued grave conditions in Central America, are under the earnest consideration of the Washington Government. Investigations have convinced the officials here that cipher dispatches passing between John H. Gregory, the American Charge at Managua, Nicaragua, and the State Department at Washington were purposely mu-

Moral Suasion Fails.

Moral suasion with Nicaragua has failed to accomplish the object soughtthat of impressing her with the desire both of the United States and Mexico that there be a cessation of the conten tions which keep other Central American republics constantly guessing. Intervention in Central American affairs has been talked of unofficially.

American war vessels are retained in Central American waters, and only yes-terday the cruiser North Dakota sailed from Magdalena Bay for Amapala, Hon-duras, where some of the naval activity of Nicaragua has manifested lizelf.

An interesting aide light on the political situation in Central America became known today. Some time ago the dispatches indicated that Nicaragua had in tentions involving Costa Rica, which has not been engaged in any of the embroll ments which have characterized the his-

tory of Central America. Costa Rica Involved.

It now appears that an election was about to be held in Costa Rica at the time, which leads to the inference that Nicaragua's reported attitude toward her was but part of the working out of a political plan which has been associated with the reported ambition of President Zelaya to become a dictator of the destinles of Central America.

The Government has felt particularly annoyed over the mutilation of Minister Gregory's dispatches. Diplomatic cor munications are held to be inviolable, and any interference with them is serious.
