Newlands spoke briefly on an amend-unt offered by him for a gradual re-uction of all tariff duties until they shall amount to 45 per cent ad valorem. His amendment provides that whenever importations are least than one-tenth of the total consumption of any article used in the United States, there shall be a reduction of 10 per cent annually in the duty upon it until imports agstrength at least one-tenth, of the con-sumption. Newlands told the Senate the purpose of the provision was to prevent prohibitive duties. Notice of a proposed amendment was given by Daniel, the purpose of which was to impose a tax of one-quarter of the purpose a tax of one-quarter of

Newlands' Reduction Scheme.

I per cent on the gross receipts of cor-The amendment was referred to the committee ou finance.

Has Enlarged Free List.

Leaving the question of free hides and coal in an unsettled state, the co intuce has made many changes in the free list, most of which restore to the non-dutiable list the articles upon which the House committee placed a duty. On the other hand, several articles, of which iron ore is the most important, have been re-stored to the dutiable list. A duty of 25 conts per tun, a reduction of 16 cents from Dingley rates, has been fixed for iron ere, and the duty on basic slag, which also was on the free list as the bill was bused by the House, is made if a ton. The differential of \$2 a ton between pig

from and scrap from has been eliminated, but the duty on both pig and scrap from is retained at \$2.50 a ton, a reduction of \$1.50 from the Dingley rates. The committee has, on the whole, fol-lowed the policy with regard to the from and steel schedula which is advanted in

and steel schedule which it adopted in amending the Dingley bill in 1597, namely, slighting reducing the rates on the various iron and sized products. Other changes of impertance from

the Payne rates are

Bar fron, reduced 1-10 cent per pound and muck bars included under same rate

Charcoal iron, reduced \$10 to \$8 per ton. Original Payne rate \$6.

Steel Duties Increased.

Structural iron, increased 1-10 cent per pound, but limited to stretural shapes not assembled or manufactured advanced beyond hammering, rolling or casting

or casting. Structural shapes, plain or punched, or fitted for use, 3-10 cent per pound. The provision for a separate duty on unicompered steel bands and tempered bands, respectively, has been cut out.

Tron and steel plates, with layers of ther metal imposed by forging or relding. 40 per cent ad valorem, in-tead of 45 per cent as passed the other Sheets of iron or steel, polished, re-

duced & cent a pound. Steel wool, 11 cents per pound. The paragraph covering diamond steel has been stricken out. Slight reductions have been made in nearly all the duties contained in the wire schedule

Steel ralls, left at \$3.92 per ton, as fixed by the House bill, but may be slightly increased.

rates on anvils, blacksmiths' hammers

Slight Change on Lumber.

Except prepared mustard, red pep-per, sage and those not specifically provided for, spices are restored to the free list.

With the exception of the restoration of hard woods to the free list, there is but one change in the lumber sched ule. This strikes out the duty on reeds

is but one change in the lumber sched-ule. This strikes out the duty on reeds made from ratians. Lemons increased ½ cent. Saccharin increased from 50 cents a pound to 75 cents. In the Dingley law the rate is \$1.50 a pound and 10 per cent ad valorem. One of the most significant changes made by the Senate committee is that which restores the rates of the Ding-ley law on women's stockings. The House committee had provided material increases in the duties on the chenper grades of hosisty and did not disturb the duty on the highest grade. Other changes in the cotion schedule include a provision that no cotion thread or carded yara shall pay a less rate of duty than 30 per cent ad valorem, and that threads and yarns, when mercerized, whall pay an additional duty of 1-20th of 1 per cent per pound. Cotion and cotion waste and floss manufactured or ad-vanced in value are taken from the free list and provided with a duty of 20 per cent ad valorem, although that unman-ulactured is left on the free list A the and provided with a duty of 20 per cent ad valorem, although that unman-ulactured is left on the free list. A minimum rate of 25 per cent ad valorem is provided for spools, thread or cotton upon which a specific duty would equal a lower ad valorem rate.

a lower ad valorem rate. The paragraph covering cotton cloth not bleached or dyed is extended to include additional values. The original provision of the Payne bill, providing for the method by which the count of threads in cotton cloth should be determined, has been practically restored. The only ex-ception is the requirement that each ply of two or more ply thread shall be ounted as a thread. Otherwise the cot-on schedule is practically unchanged.

Flax and flax straw are taken from the free list and provided with duties of 1 cent per pound and \$5 per ton.

Wool Reductions Cut Out.

The Senate committee "stands pat" on the changes in the wool schedule. It restores the provisions of the Dingley law, striking out the changes made by law, striking out the changes made by the House committee. These include the reduction of the rates on low-priced wool of the third class and the increase of the rates on the higher grade wool of the third class, or carpet wool. It re-stores the Dingley rates on top waste and shoddy, which were reduced 5 cents per pound by the House. It strikes out the special provisions for tops, leaving them subject to the duty provided for manufactures of wool not specially pro-vided for.

vided for. In the chemical schedules there are nu-In the chemical schedules there are nu-merous important changes. The Payne rates have been restored on variables and an coal tar dyes and colors. A com-pound rate of 2% cents per pound and 15 per cent ad valorem is provided for blue valued above 10 cents per pound and not above 35 cents per pound, instead of 55 per cent ad valorem. The rate on ultramarine blue has been reduced % of a cent per pound. An increase of % or a cent per pound has been made in ver-milion reds and cromean colors. Other increases are made in orange mineral, red lead, white lead, white acetate of

mmmon earthenware in two colors have been considerably decreased. A straight duty of 30 per cent is substi-tuted for the \$3 rate on gas retorts and a specific duty of 70 cents per 100 feet is placed on carbons for electric lighting. his being a reduction of 20 cents in the Dingley rate

\$6.00 values, spec'l...\$4.65

\$6.50 values, spec'l...\$4.95

\$7.50 values, spec'l...\$5.65

The provision placing an increased duty in filler tobacco imported from countries that prohibit the importation of Ameri-can tobacco has been stricken out. The duty on brandy and other spirits and cordials has been increased 35 cents

er gallon. The minimum limit on spin Ituous beverages is made \$1.757 per gallon, an increase of 25 cents. The duty on bay rum is increased 25 cents per gallon and that on malt extract is slightly increased

Increase on Wine.

The increase in the duty on champagne is equal to slightly over 13 cents per quart bottle. Ginger wine, ginger cordial and vermouth are stricken from the marger of the stricken from the paragraph covering still wines, the duty n which paragraph is increased 5 cent in which paragraph is increased 5 cents per gallon on whes containing less than 14 per cent of absoluts alcohol and 10 cents per gallon on the stronger wines. The duty on ale, porter and beer is in-creased 5 cents per gallon when in bottles or jugs and 3 cents per gallon otherwise. An increase of 10 cents per gallon is made in the duty on fruit juices. On mineral waters the increase is 10 cents dozen bottles.

Subhate of ammonia is stricken from the free list and the provision permitting the free importation of articles that are returned after having been exported has

seen redrafted. Copperas or sulphate of iron, which was made dutiable by the House, is re-urned to the non-dutiable list.

Extract of licerice, used in making chewing tobacco, is taken from the free list, and benzoale acid is made dutable at 35 per cent ad valorem. Certain-re-strictions regarding articles containing alcohol are woolfded cohol are modified. Refined saltpeter is added to the list of

n-dutiable articles, from which bologns

non-dutiable articles, from which bologna sausages are stricken. Included in the paragraph covering oils, in which petroleum is left in the terms of the bill as it passed the House, are aniz, bergamot, cedrat, citronella, jas-mine, juniper, lavender, lemon, neroli and orange oils and enfleurage grease. These were not provided for in the free list. Attar of roses, rosemary and sesame oils have been added to this paragraph, in which olive oil for manu-facturing purposes, subject to free entry, is limited to oil valued at not more than 60 cents per gallon. 60 cents per gallon.
