REPORT OF EXPERT **WILL JAR COUNTY**

Affairs of Clerk's Office Have Been Delved Into by J. W. Ferguson.

FIELDS HAS NO FEARS

Says if He Has Been Guilty of Violation of Law Regarding Fees He Is Willing to Make Amends. County Court Secretive.

W. Ferguson, expert accountant detailed by the County Court to expert the books of Multnomah County officials, has submitted a par-trial report of his findings in the office of County Clerk, Fields. But the report is locked up in the office of Judge L. R. Webster, who vows he hasn't even read it. And, while there is every reason to believe the report marks the beginning of a lot of trouble in official circles. The event circles, the exact details of its con-tents will remain in the dark for a day or two until Commissioner Barnes has had opportunity to inspect the document. Judge Webster and Commissioner Lightner do not intend to act upon it until their associate has an opportunity to express himself.

In view of the fact that the report was filed last Thursday and that extraordinary measures have been taken to cover it up, the belief is prevalent that the report is of an un-

County Court Anxious to Delve.

It is known that the County Court has long shown an inclination to delve has long snown an incommer. Field's position. As to the citizenship fees, the United States law says one-half the fees shall go to the Government and one-half to the County Clerk making out the papers. Mr. Fields interprets County Clerk as meaning him personally. During his tenure of office he has kept about 22000 in that has kept about \$2000 in that way. The contention is made that since Mr. Fleids is paid by the county for his services. and since his deputies are similarly paid, any money received by the office for public service should revert to the public coffers.

public coffers.

The report, it is officially learned, also touches upon the subject of putting estate money out at interest, such interest going to Mr. Fleid's private pocket-book. He takes the sthad that litigation money is paid to him as trustee and that he, personally, is responsible. Therefore, when a sum of money thus entrusted remains in his sponsible. Therefore, when a sum of money thus entrusted remains in his keeping for a protracted period, he insists it is his right to keep such interest as the money may earn.

The downstairs department of the County Clerk's office is the only one covered in the report. The work will now be taken upstairs into the Circuit Court department. The checking up there will include the final papers in citizenship matters, half the fees having been claimed by Mr. Fields.

Fields Not Fearful.

cerned. It is known that Commissioner Lightner read the report on the day it was flied. He admits that much, but declines to make public the details of the report, pending a meeting of the court. Commissioner Barnes has just returned from San Francisco, whither he was called by the death of his father. As soon as he reports for official duty the report will be

County Clerk Fields has not been officially apprised of the report. It wor-ries him in no way, so he says, for the only differences that can possibly relate to fees and interest money.

REVISE PLUMBING CODE

New Regulations Governing Trade Are Being Formed.

A special committee of the City Council, assisted by Plumbing Inspector Hey and representatives from the Master Plumbers' Association and the Journeymen Plumbers' Union, is engaged in revising the code regulating plumbing in Portland. The first meeting was held at the City Hall yesterday afternoon, Councilman Wallace presiding Another searching and Wallace presiding Another searching and the City Hall yesterday afternoon, Councilman Wallace presiding Another searching and the City Hall yesterday afternoon. climan Wallace presiding. Another ses-sion will be held at 1:30 o'clock this after-It is the intention to secure

hetter general law.

An examining board, consisting of three an examining board, consisting of three plumbers, to be named by the Mayor, is planned. The Inspector of Plumbing will act as secretary to the board. All journeyman plumbers must pass an examination before being licensed. A fee of \$1 is to be charged for a license. Another section provides that contracting and employing plumbers, commonly called master plumbers, shall file with the City Auditor a bond in the sum of \$1000, to insure their faithful compliance with the sure their faithful compliance with the plumbing laws, and also they are required to pay a yearly license fee of \$25. In case a master plumber wishes to en-gage in his trade, he must pass the same examination provided for journeymen, and pay the license fee of \$1.

Technical features and details will be

considered at the meeting to be held this afternoon. The plumbers present yesterday afternoon appeared anxious that throughout the code there shall be ample unnecessary expense for plumbing

MOVE FOR CHURCH UNION

Evangelical Ministers Will Refer Plan to Various Congregations.

At a meeting of the Portland Evangelical-United Brethern Ministerial As-sociation yesterday, Rev. A. A. Winter presiding, the association took decided steps toward organic union of three denominations — Union Evangelical, Evangelical Association and United Brethern. Rev. H. C. Shaffer, Rev. F. Bentz and Rev. C. C. Poling, the com-prittee on church union, representing

the three denominations, submitted their report. It was in the form of a circular letter addressed to all members of the three churches of this state and elsewhere, which will be presented in all churches for signatures and indorsement, finally to be presented to the general conferences as well as to the local conferences. The letter is the result of discussion and agitation by the ministerial association for the past year, and is as follows:

The spirit of church unlen is growing in the three denominations, submitted

The spirit of church union is growing the United Brethren, and the two evathe United Brethren, and the two evan-gelical churches.

It is certainly evident to all who prayer-fully consider the question in the light of the teachings of the Lord Jesus, as pre-sented in John, 17th chapter, that it is the will of God, and were there no other reason for such union, this alone is suffi-cient argument to enlist all in its speedy accomplishment. accomplishment.

The saving of men and money and the large results of such combined and harmonlous effort, and the fact that such combined effort would inspire confidence in the church and she would occupy a more commanding influence before the world, are sufficient reasons why all should be interested in its achievement.

Our articles of faith and polity, to a great extent, are much alike and could easily be adjusted and harmonized satisfactority.

castly be adjusted and harmonized satisfactorily.

To be thus united and harmonized on all lines of church work can but result in greater victory and blessing to the church and the world.

New fields and opportunities can then be occupied and developed, without which union they must be left unoccupied.

Will you help by every legitimate means to hasten this much-desired result? If so, please sign this letter and send it on to others for their signatures, and when all the space is filled return to the committee on church union.

TEACH CARE OF BABIES

MATRON AT BABY HOME WILL INSTRUCT NURSEGIRLS.

Training School to Be Established by New Superintendent, Mrs. Mary Elliner.

Under the supervision of Mrs. Mary Elliner, the new matron, a nurse girls' training school has been established and prevalent that the report is of an unusual, if not unexpected nature. It has long been known that County Clerk Fields has retained one-half the fees in citizenship entries, and has drawn interest on money intrusted to his care in litigations. He frankly admits as much, contending the money is rightfully a part of his perquisites, a view in which issue is taken with him by many officials.

The Baby Home, on East Thirty-sixth and Elisworth streets. With the approval of the board of managers Mrs. Elliner will be care in citizenship entries, and has drawn in gethool Mrs. Elliner has had ample experience, and the Baby Home will profit materially in the additional help that will be secured at small expense. Mrs. Elliner is a trained nurse herself, having graduate from a Portland hospital, afterward taking a post-graduate course, besides the Baby Home, on East Thirty-sixth and taking a post-graduate course, besides serving 14 months on the Isthmus of Panama in yellow fever cases and being in the Government's employ for two and a half years in Manila.

a half years in Manlia.

The plan is to take girls above is years of age and teach them how to care for, dress and feed babies, and at the end of six months they will receive diplomas. Mrs. Elliner will give lectures and illustrate the work for the girls. While in the home each girl will assist in taking care of the babies, and will receive a small sum monthly for her services. At the end of six months the nurse girls are expected to be able to take care of babies in any household. Girls who may come to Portland without support will be come to Portland without support will be anorsed opportunity for acquiring a nurse's training diploma that will en-able them to obtain profitable employ-ment in any household where some one fitted to take care of babies is wanted. uch girls will be received from the

Travelers' Aid Society.

While there are many trained nurse from the hospitals few are specially trained in the care of bables, and such a training will be given at the Baby Hôme by Mrs. Elliner. Secretary A. L. Keenan sald yesterday that the board would incorporate so it would have authority to give diplomas to girls who complete the course. For quarters for the girl nurses the old building will be fitted up. This new training school for nurse girls is an innovation, but promises to prove successful, and be of great benefit to the Baby Home. Mrs. Harriet Colton, who retires as matter or extended. retires as matron on account of ill health, leaves with the best wishes of the man-

JAP WITNESS IS SENT FOR

Some Contradictory Testimony in Chinese Murder Trial.

Testimony disagreeing in many essential points from that introduced by the tial points from that introduced by the state in the trial of Yee Gueng, one of the alleged murderers of Lee Dai Hoy, was given to the jury yesterday afternoon.

S. Yamata, a Japanese witness, called from Walla Walla by telegram in a frantic effort on the part of the four attorneys for the defense to saye Yee's neck, said he was renting two rooms in the old Arlington Club building at Fourth and Pine streets at the time of the murder, March 7, 1908. He said he ran downstairs upon hearing the shots, and found Lee in the lower hallway, where he had fallen. He did not see Lee's three assassins, he said.

He then turned back upstairs, and met Lee's wife coming down. She bent over the prostrate form of her husband, then ran upstairs to the telephone, and after-ward returned to his side, said the wit-

ness.
It was necessary for Judge Bronaugh to instruct Mat Suey, the Japanese interpreter, to translate the answers of the preter, to translate the answers given, for witness exactly as they were given, for much trouble was experienced because Yamata asserted he did not understand. Yamata asserted he did not understand. The witness answered a question asked by Attorney Dan J. Malarkey, special counsel for the state, one way one time, and another way the second time, Questioned as to why he made such varying answers. Yamata said he did not understand. Intimations by Attorney Malarkey reflecting upon the veracity of the witness were met by Attorney Henry E. McGinn, for the defense, with a tirade against such a statement.

He said the attorneys went over the ground with the witness carefully before he was placed on the stand, and found he was placed on the stand, and found he was placed on the stand, and found he was placed be did not understand. Notice is also given that south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty, here-tofore reported capsuled, was replaced April 13.

Notice is also given that south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty here-tofore reported on the south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty here-tofore reported april 13.

Lightship No. 93 in Neah Bay.

Lightship No. 95, which recently arrived on the Coast from Newport News, is now at anchor in Neah Bay, awaiting a favorable time to proceed to her moorings off Swiftsure bank. The craft will proceed to her position under her own steam.

Yamata said he paid a visit to Lee's wife a few days ago, after coming from Walla Walla, and that he and she were Walla walla, and that he and she were friends. The fact that appeared incredible, however, was that he testified he does not speak Chinese; that Mrs. Lee wanted to talk to him about the case, but they could not do so until they had secured an interpreter.

Yes took the stend vesteries in his

Yee took the stand yesterday in his own behalf yesterday, denying that he was with the three men who did the shooting. All yesterday morning was spent by the attorneys in arguing upon the admis-sibility as evidence of the knives, daggers, sibility as evidence of the knives, daggers, brass knuckles, revolvers and guns taken from the rooms of the Chinese on Second street, near the police station. The judge ruled them out, aithough they had lain in a box on Clerk Lounsbury's desk for two days, where any juryman during a recess of court could have seen them.

chartering of the two spot ships The chartering of the two spot ships at this time will place them in good position for an outward charter of new season grain from the Columbia River or Puget Sound. It will be near the middle of May when they clear for the West Coast. Allowing an average passage down and counting the delays incident to discharge at any South American to discharge at any South American port, the vessels should be ready to leave again for the Columbia River by September 1. Sixty days up from Callao in baliast and they will be available for November or December loading.

Rates for lumber to the West Control

Rates for lumber to the West Coast have advanced several shillings during the last three weeks. Quotations now stand at 40s and the market is firm. There is a good demand at all Southern ports and with chartering firm for new crop grain ships there is likely to be a still greater advance in the foreign lumber

Reports Square Rigger Off Shore.

Captain Hanson, master of the steamship Nome City, which arrived up yes-terday morning from San Francisco, re-ports having sighted a square-rigged vessel off Yaquina light. The vessel was standing out to sea and it was impos-shle for the waster of the So far as known any controversy that may arise over the result of the report will be of a civil nature. Mr. Fields has said if he is wrong in his ideas as to the perquisites of office, he is willing to make amends.

The attitude of Judge Webster in the matter, however, affords basis for a belief that the expert's report is a matter of most serious consideration, so far as the County Court is concerned. It is known that Commission—

The board of managers contemplates shalling out to sea and it was impossible for the master of the steamer to tell whether she was a bark or a ship. The french bark Berengere is now out 63 days from fiquidue for the care of the cows the home must keep. Streets are being improved about the home, and a cement fence will be built in front.

Steamship Traffic Man Coming.

Charles E. Benjamin, general agent at Chicago for the Canadian Pacific Atlantic steamship lines, will reach Portland to-day on a visit of several days, during which he will look into traffic condition in this territory as they affect the steam ers across the Atlantic with which he connected. Mr. Benjamin is well known here, having been elected president of the American Association of Traveling Pas-senger Agents at the Portland meeting of that organization in 1966.

Snagboat Mathloma in Commission. In command of Captain Graham, the

United States Engineers' dredge and snag-boat Mathloma, will be placed in commission tomorrow and Thursday morning will leave for the Upper Willamette River. The Mathloma will pull shags and make repairs to the dikes and reverments in the vicinity of Corvallis. The Mathloma has been out of commission for several months. She is now being fitted at the Government moorings.

Eureka Bar Bell Buoy Replaced. Commander Lopez, Commander U. S.N. in charge of the Twelfth Lighthouse Dis-tricts has issued the following notice to mariners:

Notice is hereby given that outside bar bell buoy. Humboldt Bay entrance, California, heretofore reported capsized, was replaced April 13.

Notice is also given that south jetty outer end buoy, 2, about 550 feet west of the submerged end of the south jetty, heretofore reported adrift, was replaced April 13 by a first-class nun buoy.

A LITTLE RED SPOT

Novel Experiment by Which It May Be Made to Disappear,

A peculiar feature about poslam, the new skin discovery is that no one is asked to buy it without first sending to the Emergency Laboratories No. 32 West Twenty-fifth street New York City, for an experimental sample and applying same to an affected part of the skin, about the size of a silver dollar. It will clear the spot so treated in twenty-four hours-a remarkable visual demonstration of its powers.

While Poslam has been mentioned principally in connection with the cure eczema, the most stubborn of skin diseases, it must be remembered that when used for itch, hives, pimples, blotches, acne, itching feet, scaly scalp, chafing of infants and similar minor skin troubles its action is all the more pronounced, results being seen after an overnight application. As only a small quantity of poslam is necessary to

> And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a God-send

to women, carrying them

In the larger institutions of the East, especially the outdoor clinic of St. John's Hospital, St. Louis, I have for years devoted much time and study devising the best, safest and most successful method of curing VARICOCELE, and have been rewarded with complete mastery over this most distrissing aliment of men. My plan does not involve a single objectionable feature. There is no going to bed; no taking of chloroform or ether; no pain, and positively no bad results. The patient can resume any kind of hard work after one week, and is not required to stay in his room even a day. The organs are immediately relieved of tax, a normal circulation of blood goes to the vital organs, as was intended before the varicose veins appropriated the supply, and the patient is at once restored to a condition of health, looking at the logical, practical and plain fact side of this matter? If you talk it over. This will cost you nothing and will be helpful to you.

WEAK MEN

Every year more brains and intelligence are required to meet the exi-gencies of the times. It makes no difference whether it is farming or mer-chandise—you are living in an age when it is necessary to bring out the best there is in you or get left at the post. The man who is spent of vigor and

Sapped of Vitality

shackled with dissipation and encumbered with the evil consequences of vicious habits, may as well be in a ward for the infirm in a few years unless he shows stamina enough to pull out of the trance. If you are going to enter the contest for success in this life, commence by showing craftiness in selecting a physician whose business it shall be to correct the evils of your past life by

Skilled Advice and Scientific Treatment

Not a Dollar Need Be Paid Until Cured

The old rule of treating every stranger like a gentleman and watching him like a rogue won't hurt any honest doctor. The man who asks you to take his word for advertising claims without showing the proofs as advertised is asking too much of you.

Our arrangements with patients are unapproachable for prices and fairness of terms by any specialist on the ones. No man is too poor to take treatment and we charge nothing to prove our methods will cure you. Our experience and facilities are unequaled in Portland, and we have the largest referred practice in the city, we mean by "referred practice" patients referred to us by others who previously treated with us and voluntary recommend their friends to us for similar treatment.

Our treatments are mild—our results are quick. We successfully treat Acute, Chronic and Nervous Diseases, Blood Poison, Varicose Veins, Catarrh, Skin Diseases, Stomach and Bowel Troubles, Piles, Fistula, Kidney and Bladder Ailments, Nervous Debility, and many other diseases of men not mentioned here. No business address or street number on our cavelopes or packages. Consultation and advice free. If you cannot call at office, write for self-addressed blank - many cases cured at home. Medicines \$1.50 to \$6.50 per course.

ness for the state, having entered a plea of guilty. English pumps at Rosenthal's. .

man to five years in the penitentiary, in the Circuit Court yesterday. He was convicted of having held up a man named Harris at Park and Columbia streets. Lester Luckey, Holman's accomplice, was the chief witness for the chief witness and the chief witness accomplices.

I Am Master of Men's Ailments

And the Reason For My Remarkable Success in Curing Them.

The study of medicine is as broad as life and as complex as Nature. It is therefore impossible for any individual to master the treatment of all human ills. The man who attempts to do so is able to cure only the most simple ailments. The ordinary physician is like the man who attempts to master every branch of mechanics, from watchmaking to shipbuilding. Such a man becomes neither a good watchmaker nor a successful shipbuilder. The general medical practitioner knows as much about one disease as he does about another—and he has no intimate knowledge of any. The cures he performs—when he is fortunate enough to cure—are usually purely accidental. The patient gets well, not because of the physician's efforts, but in spite of them. When the ordinary physician treats men's diseases, HE RARELY EFFECTS A CURE.

I AM A SPECIALIST IN MEN'S DISEASES. My practice is confined wholly to the diseases of men, and the fact that I invariably cure every case that I accept for treatment PROVES that my methods are correct. Indeed, I have for twenty-five years made a Specialty of Men's Aliments and have so closely studied them that I am able to meet every phase and condition of each individual case, and to effect a permanent cure in a very short time. I am never for a moment in doubt as to my course. I know just WHAT to do and HOW to do it, to obtain satisfactory RESULTS. This explains why my practice has grown to be by far the largest in the western part of

So confident am I that I can effect a thorough and LASTING CURE in each case that I accept for treatment, that I will given a Written and Binding GUARANTEE TO CURE YOU, AND YOU NEED NOT PAY ME A DOLLAR UNTIL YOU ARE WELL.

Bear in mind that I could not afford to do this if I did not KNOW that my treatment would not fail. I am the only doctor who dares to make such a proposition. Under no circumstances do I ever take cases for treatment that are doubtful. Hence, if I accept your case for treatment you may absolutely rely upon it that I will cure you.

My methods are entirely original with me, and are the result of many years of special study and experience. Instead of filling my patients up with powerful drugs and stimulants, as do other specialists, I apply soothing, healing and absorbent medicines DIRECT-LY to the DISEASED REGION, and thus aid Nature in overcoming the trouble. The best that human skill can do is to ASSIST NATURE. It is Nature that performs the cures. Powerful drugs taken through the stomach do not cure. They merely set up a new disturbance in the system, which, for a time, diverts the energies from the old disease to the new attack. This process is invariably attended with a reaction, and in consequence leaves the patient in a worse condition than before treatment. Another method employed by another class of physicians is to dose the sufferer with tonics, which exhibitante the patient so that he actually believes himself improving under such treatment. But after a very short time these stimulant medicines cease producing the desired effect, when the disease gains a new and firmer MY METHODS ARE ORIGINAL.

My method of treatment overcomes inflammation and congestion by aiding the tissues of the diseased region to throw off the poisonous secretions and the deadly toxins caused by disease. Some of these toxins are more poisonous than the virus of the ratilesnake's fang, and when they reach the heart, produce instant death. Thousands of the cases of sudden death which occur with alarming frequency in every city in the land, are directly due to toxic poison, although such cases are usually pronounced "heart failure" or heart disease. My treatment completely eliminates every trace of disease and accumulated poisons from the system, and thus allows Nature to perfect a COMPLETE CURE. HOW I CURE.

My methods have revolutionized the treatment of aliments seculiar to men, and consequently altered former medical theories. Imitators of my system of practice have sprung up everywhere. A pronounced success in any field of human endeavor begets imitators. Following the Genuine, there always come the Counterfelt. These imitators of mine insist that they cure by means similar to those I employ. Such statements are uttered with a base intent to deceive. The facts are that NO OTHER PHYSICIAN ANYWHERE TREATS MEN'S AILMENTS BY MY METHODS, BECAUSE NO MAN OTHER THAN MYSELF KNOWS THESE METHODS. My Treatment is the ORIGINAL and ONLY GENUINE Direct-Method Treatment for the Diseases of Men. DO NOT BE DECEIVED.

MY MODERN and up-to-date methods effect a certain and speedy cure of SPERMATORRHOEA, CONTRACTED DISORDERS, SPECIFIC BLOOD POISON, LOST STRENGTH, and all reflex ailments. VARICOCELE, HYDROCELE and STRICTURE positively cured

Examination and Advice Free

BRADFIELD REGULATOR CO.

plication to

Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as sacredly confidential. confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without "an examination." Dr. Pierce holds that these distasteful examinations are generally need-

less, and that no woman, except in rare cases, should submit to

Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y., -take the advice received and be well.

through their most critical ordeal with safety and no pain. No

woman who uses "Mother's Friend" need fear the suffering and

danger incident to birth, for it robs the ordeal of its horror and

insures safety to life of mother and child, and leaves her in a

condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book, "Motherhood," is
